Transmittal No. 17–25

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) Prospective Purchaser: The Government of the Netherlands

(ii) Total Estimated Value:

Major Defense Equipment* ................................ $30 million
Other ......................................................... $4 million

Total ..................................................... $34 million

(iii) Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:

Foreign Military Sales (FMS) case NE–B–WFV, implemented in June 2013, was below congressional notification threshold at $26.3M ($20M in MDE) and included one hundred and eighty (180) AGM–114R Hellfire II Missiles and twenty-four (24) M36E8 Captive Air Training Missiles (CATM). The Netherlands has requested the case be amended to include an additional seventy (70) AGM–114R Hellfire II missiles. This amendment will push the current case above the MDE notification threshold and thus requires notification of the entire case.

Major Defense Equipment (MDE):
Two hundred fifty (250) AGM–114R Hellfire II Missiles
Twenty-four (24) M36E8 Captive Air Training Missiles (CATM)

Non-MDE includes: Hellfire missile cutaway model, AGM–114R missile spare parts, a Launcher Test Station (LTS), LTS spares, two (2) maintenance support devices, integrated logistics support tools, M299 launcher software, upgrade and testing, aircrew familiarization training, launcher test station training, unclassified publications, technical assistance, AN/AWM–101A software, CATM spare parts and related support services, and other related elements of logistics and program support. The estimated total case value is $34 million.

This proposed sale will enhance the foreign policy and national security objectives of the United States by helping to improve the security of the Netherlands which has been, and continues to be an important force for political stability and economic progress in Europe. It is vital to the U.S. national interests to assist the Netherlands to develop and maintain a strong and ready self-defense capability.

The proposed sale will improve the Netherlands’ capability to meet current and future threats and will be employed on the Netherlands’ AH–64D Apache helicopters. The Netherlands will use this capability to strengthen their homeland defense, deter regional threats, and provide direct support for coalition operations. The Netherlands will have no difficulty absorbing these missiles into its armed forces.

The proposed sale of these missiles will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government personnel or contractor representatives to the Netherlands.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
