DEPARTMENT OF JUSTICE

Notice of Lodging of Proposed Consent Decree Under the Comprehensive Environmental Response, Compensation, and Liability Act

On August 1, 2017, the Department of Justice lodged a proposed consent decree with the United States District Court for the Central District of California in the lawsuit entitled *United States v. The Bionetics Corporation*, Civil Action No. 17-5677.

The United States filed this lawsuit under the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) for the recovery of costs that the United States incurred responding to releases of hazardous substances at certain Installation Restoration Program (IRP) Sites at Vandenberg Air Force Base in Santa Barbara County, California. The consent decree requires the defendant The Bionetics Corporation to pay \$219,000 to the United States. In return, the United States agrees not to sue the defendant under sections 106 and 107 of CERCLA at certain IRP Sites at Vandenberg Air Force Base.

The publication of this notice opens a period for public comment on the consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, and should refer to *United States v. The Bionetics Corporation*, D.J. Ref. No. 90-11-3-10477/4. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

| <i>To submit comments:</i> | <i>Send them to:</i> |

DEPARTMENT OF LABOR

Bureau of Labor Statistics

Information Collection Activities, Comment Request

AGENCY: Bureau of Labor Statistics, Department of Labor.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Labor, as part of its continuing effort to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies with an opportunity to comment on proposed and/or continuing collections of information in accordance with the Paperwork Reduction Act of 1995. This program helps to ensure that requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements on respondents can be properly assessed. The Bureau of Labor Statistics (BLS) is soliciting comments concerning the proposed revision of the “The Consumer Expenditure Surveys: The Quarterly Interview and the Diary.” A copy of the proposed information collection request can be obtained by contacting the individual listed below in the **ADDRESSES** section of this notice.

DATES: Written comments must be submitted to the office listed in the **ADDRESSES** section of this notice on or before October 10, 2017.

ADDRESSES: Send comments to Nora Kincaid, BLS Clearance Officer, Division of Management Systems, Bureau of Labor Statistics, Room 4080, 2 Massachusetts Avenue NE., Washington, DC 20212. Written comments also may be transmitted by

fax to 202-691-5111 (this is not a toll free number).

FOR FURTHER INFORMATION CONTACT: Nora Kincaid, BLS Clearance Officer, at 202-691-7628 (this is not a toll free number). (See **ADDRESSES** section.)

SUPPLEMENTARY INFORMATION:

I. Background

The Consumer Expenditure (CE) Surveys collect data on consumer expenditures, demographic information, and related data needed by the Consumer Price Index (CPI) and other public and private data users. The continuing surveys provide a constant measurement of changes in consumer expenditure patterns for economic analysis and to obtain data for future CPI revisions. The CE Surveys have been ongoing since 1979.

The data from the CE Surveys are used (1) for CPI revisions, (2) to provide a continuous flow of data on income and expenditure patterns for use in economic analysis and policy formulation, and (3) to provide a flexible consumer survey vehicle that is available for use by other Federal government agencies. Public and private users of price statistics, including Congress and the economic policymaking agencies of the Executive branch, rely on data collected in the CPI in their day-to-day activities. Hence, data users and policymakers widely accept the need to improve the process used for revising the CPI. If the CE Surveys were not conducted on a continuing basis, current information necessary for more timely, as well as more accurate, updating of the CPI would not be available. In addition, data would not be available to respond to the continuing demand from the public and private sectors for current information on consumer spending.

In the Quarterly Interview Survey, each consumer unit (CU) in the sample is interviewed every three months over four calendar quarters. The sample for each quarter is divided into three panels, with CUs being interviewed every three months in the same panel of every quarter. The Quarterly Interview

Survey is designed to collect data on the types of expenditures that respondents can be expected to recall for a period of three months or longer. In general the expenses reported in the Interview Survey are either relatively large, such as property, automobiles, or major appliances, or are expenses which occur on a fairly regular basis, such as rent, utility bills, or insurance premiums.

The Diary (or recordkeeping) Survey is completed at home by the respondent family for two consecutive one-week periods. The primary objective of the Diary Survey is to obtain expenditure data on small, frequently purchased items which normally are difficult to recall over longer periods of time.

II. Current Action

Office of Management and Budget clearance is being sought for the proposed revision of the Consumer Expenditure Surveys: The Quarterly Interview and the Diary.

As part of an ongoing effort to improve data quality, maintain or increase response rates, and reduce data collection costs, CE is making the below changes.

Several changes will be implemented in the Quarterly Interview Survey including the addition of a veterans question, point of purchase or outlet questions, and two studies.

One question will be added asking whether members of the consumer unit aged 16 and over have ever served on active duty in the armed forces. The addition of this question will enable CE to publish estimates on expenditures by veteran status.

CE will continue to test the addition of outlet questions, adding in the remaining sections of the Quarterly Interview Survey instrument. These questions will be added beginning July 2018.

CE will test the effect of providing respondents with a Spending Summary Report (SSR) on respondent cooperation and survey experience. The test will be fielded from July through September 2018 and April through May 2019. The test is designed to address response rates, which have been trending

downward over the past twenty years. At the end of the 1st Interview, respondents will be offered the option to receive a SSR. Results of the field test will be used to inform the final design of the CE Gemini Redesign's use of a similar Spending Summary Report.

CE will also test the addition of a Quarterly Interview Survey Worksheet to be fielded April through May 2019 and October through December 2019. CE will evaluate both the feasibility of using this worksheet based on debriefing questions and the effect of using the worksheet on the data.

No changes will be made in Diary.

A full list of the proposed changes to the Quarterly Interview Survey are available upon request.

III. Desired Focus of Comments

The Bureau of Labor Statistics is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility.

- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used.

- Enhance the quality, utility, and clarity of the information to be collected.

- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Title of Collection: The Consumer Expenditure Surveys: The Quarterly Interview and the Diary.

OMB Number: 1220-0050.

Type of Review: Revision, of a currently approved collection.

Affected Public: Individuals or Households.

TOTAL RESPONSE BURDEN FOR THE QUARTERLY INTERVIEW AND DIARY SURVEYS

| | Total respondents | Frequency | Total responses | Average time per response (minutes) | Estimated total burden |
|----------------------------------|-------------------|-----------|-----------------|-------------------------------------|------------------------|
| Quarterly Interview Survey | 6075 | 4.5959 | 27,920 | 59.3897 | 27,636 |
| Diary Survey | 5,680 | 4.2007 | 23,860 | 59.9925 | 23,857 |
| Totals | 11,755 | | 51,780 | | 51,493 |

Comments submitted in response to this notice will be summarized and/or included in the request for Office of Management and Budget approval of the information collection request; they also will become a matter of public record.

Signed at Washington, DC, this 2nd day of August 2017.

Kimberley Hill,

Chief, Division of Management Systems.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (*i.e.*, employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing collections of information in accordance with the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and OSHA's estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 *et seq.*) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires OSHA to obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible

unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The basic purpose of the collections of information in the Ionizing Radiation Standard is to document that employers are providing their workers with protection from ionizing radiation exposure. The collections of information contained in the Standard include: Monitoring worker exposure to ionizing radiation, posting caution signs at radiation areas, reporting worker overexposures to OSHA, maintaining exposure records, and providing exposure records to current and former workers.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed collections of information are necessary for the proper performance of the Agency's functions, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the collections of information, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply, for example, by using automated or other technological information collection and transmission techniques.

III. Proposed Actions

OSHA is requesting an adjustment increase of 6,719 burden hours from 45,217 to 51,936 hours. This increase is the result of an adjustment of the number of establishments and workers used in this analysis based on updated data. The increase is off-set by a reduction in burden hours due to the determination that employers providing training to workers under paragraph (i)(2) is not considered to be a collection of information. Also, the increase is off-set by a reduction in the predicted number of notification of incidents (paragraph (l)) and of overexposure and excessive levels and concentrations (paragraph (m)). The total estimated number of establishments affected by the regulation increased from 12,719 to 13,012, a total adjustment of 293 more establishments.

Type of Review: Extension of a currently approved collection.

Title: Ionizing Radiation Standard (29 CFR 1910.1096).

OMB Control Number: 1218-0103.

Affected Public: Business or other for-profits.

Number of Respondents: 13,012.
