[Docket Nos. CP17-40-000; CP17-40-001]

Spire STL Pipeline Company, LLC; Notice of Schedule for Environmental Review of the Spire STL Pipeline Project

On January 26, 2017, Spire STL Pipeline, LLC (Spire) filed an application in Docket No. CP17-40-000 requesting a Certificate of Public Convenience and Necessity pursuant to Section 7(c) of the Natural Gas Act to

construct and operate certain natural gas pipeline facilities. On April 21, 2017, Spire amended its application to incorporate various changes in project routing. The proposed project is known as the Spire STL Pipeline Project (Project), and would link the greater St. Louis Region to a new supply of gas, through transport of about 400,000 dekatherms per day of natural gas service.

On February 6, 2017, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA—September 29, 2017
90-day Federal Authorization

Decision—Deadline December 28, 2017

If a schedule change becomes necessary, additional notice will be provided so that the relevant agencies are kept informed of the Project's progress.

Project Description

The proposed Project includes (i) about 65 miles of new 24-inch-diameter pipeline in Scott, Greene, and Jersey Counties, Illinois and St. Charles and St. Louis Counties, Missouri, (ii) a new meter station in Scott County, Illinois, (iii) two new meter stations in St. Louis County, Missouri, and (iv) additional piping and pigging facilities at each of the three meter stations.

Background

During the Commission's pre-filing process, on October 26, 2016, the Commission issued a *Notice of Intent to Prepare an Environmental Assessment for the Planned Spire STL Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions*. Subsequent to this notice, Spire filed a potential pipeline route alternative in St. Louis County, Missouri. Therefore, on March 3, 2017, the Commission issued a *Supplemental Notice of Intent to Prepare an Environmental Assessment for the Proposed Spire STL Pipeline Project and Request for Comments on Environmental Issues*. These two notices were published in the **Federal**

Register¹ and mailed to 1,141 and 342 interested parties, respectively, including affected landowners; federal, state, and local government agencies; elected officials; environmental and public interest groups; Native American tribes; other interested parties; and local libraries and newspapers. In response to these two notices, the Commission received comments from The U.S. Environmental Protection Agency, the National Park Service, Missouri Department of Conservation, Missouri Department of Natural Resources, Osage Nation Historic Preservation Office, the Miami Tribe of Oklahoma, the Winnebago Tribe, several labor unions, and 13 landowners. The primary issues raised by the commentors include concerns for the proposed crossing of the Mississippi River regarding contamination of a public water source, construction on steep slopes, opposition to the Chautauqua alternative, concerns for impacts on the Upper Mississippi River Conservation Area, land held in conservation easement/habitat programs (specifically the conservation reserve and quail habitat programs), historic trails, Principia College/Three Rivers Community Farm, and safety.

The U.S. Army Corps of Engineers and Illinois Department of Agriculture are cooperating agencies in the preparation of the EA.

[Docket No. CP17-79-000]

Florida Gas Transmission Company, L.L.C.; Notice of Revised Schedule for Environmental Review of the Wekiva Parkway Relocation Project

This notice identifies the Federal Energy Regulatory Commission staff's revised schedule for the completion of the environmental assessment (EA) for the Florida Gas Transmission Company, L.L.C. (Florida Gas) Wekiva Parkway Relocation Project. The first notice of schedule, issued on June 7, 2017, identified July 28, 2017 as the EA issuance date. However, due to additional environmental information to be filed by Florida Gas since issuance of the June 7, 2017 Scheduling Notice, the Commission staff requires more time to complete our review. As a result, staff has revised the schedule for issuance of the EA, to allow for time to incorporate supplemental information into the final document.
