

*Standard for Sulfur Dioxide (External Review Draft)* should be directed to Dr. Nicole Hagan ([hagan.nicole@epa.gov](mailto:hagan.nicole@epa.gov)), EPA Office of Air and Radiation.

**Availability of Meeting Materials:**

Prior to the meeting, the review documents, agenda and other materials will be available on the CASAC Web page at <http://www.epa.gov/casac/>.

**Procedures for Providing Public Input:** Public comment for consideration by EPA's Federal advisory committees and panels has a different purpose from public comment provided to EPA program offices. Therefore, the process for submitting comments to a Federal advisory committee is different from the process used to submit comments to an EPA program office. Federal advisory committees and panels, including scientific advisory committees, provide independent advice to EPA. Members of the public can submit relevant comments on the topic of this advisory activity, including the charge to the panel and the EPA review documents, and/or the group conducting the activity, for the CASAC to consider as it develops advice for EPA. Input from the public to the CASAC will have the most impact if it provides specific scientific or technical information or analysis for CASAC panels to consider or if it relates to the clarity or accuracy of the technical information. Members of the public wishing to provide comment should follow the instructions below to submit comments.

**Oral Statements:** In general, individuals or groups requesting an oral presentation at a public meeting will be limited to five minutes. Each person making an oral statement should consider providing written comments as well as their oral statement so that the points presented orally can be expanded upon in writing. Interested parties should contact Mr. Aaron Yeow, DFO, in writing (preferably via email) at the contact information noted above by September 12, 2017, to be placed on the list of public speakers.

**Written Statements:** Written statements will be accepted throughout the advisory process; however, for timely consideration by CASAC members, statements should be supplied to the DFO (preferably via email) at the contact information noted above by September 12, 2017. It is the SAB Staff Office general policy to post written comments on the Web page for the advisory meeting or teleconference. Submitters are requested to provide an unsigned version of each document because the SAB Staff Office does not publish documents with signatures on its Web sites. Members of the public should be aware that their personal

contact information, if included in any written comments, may be posted to the CASAC Web site. Copyrighted material will not be posted without explicit permission of the copyright holder.

**Accessibility:** For information on access or services for individuals with disabilities, please contact Mr. Aaron Yeow at (202) 564-2050 or [yeow.aaron@epa.gov](mailto:yeow.aaron@epa.gov). To request accommodation of a disability, please contact Mr. Yeow preferably at least ten days prior to each meeting to give EPA as much time as possible to process your request.

Dated: August 1, 2017.

[FRL-9963-35-Region 3]

**Clean Air Act Operating Permit Program; Petition To Object to Title V Permit for Scrubgrass Generating Company; Pennsylvania**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice of final action.

**SUMMARY:** Pursuant to the Clean Air Act (CAA), the Environmental Protection Agency (EPA) Administrator signed an Order, dated May 12, 2017, granting a petition to object to a state operating permit issued by the Pennsylvania Department of Environmental Protection (PADEP) to the Scrubgrass Generating Company for its facility in Kennerdell, Pennsylvania. The Order responds to a May 4, 2016 petition. The petition was submitted by the Sierra Club (Petitioner). This Order constitutes final action on that petition requesting that the Administrator object to the issuance of the proposed CAA title V permit.

**ADDRESSES:** Copies of the final Order, the petition, and all pertinent information relating thereto are on file at the following location: EPA, Region III, Air Protection Division (APD), 1650 Arch St., Philadelphia, Pennsylvania 19103. EPA requests that if at all possible, you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view copies of the final Order, petition, and other supporting information. You may view the hard copies Monday through Friday, from 9 a.m. to 3 p.m., excluding Federal holidays. If you wish to examine these documents, you should make an appointment at least 24 hours before the

visiting day. The final Order is also available electronically at the following Web site: <https://www.epa.gov/title-v-operating-permits/title-v-petition-database>.

**FOR FURTHER INFORMATION CONTACT:**

David Talley, Air Protection Division, EPA Region III, telephone (215) 814-2117, or by email at [talley.david@epa.gov](mailto:talley.david@epa.gov).

**SUPPLEMENTARY INFORMATION:** The CAA affords EPA a 45-day period to review and object to, as appropriate, operating permits proposed by state permitting authorities. Section 505(b)(2) of the CAA authorizes any person to petition the EPA Administrator within 60 days after the expiration of this review period to object to a state operating permit if EPA has not done so. Petitions must be based only on objections raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period or that the grounds for objection or other issue arose after the comment period.

The May 4, 2016 petition requested that the Administrator object to the proposed title V operating permit issued by PADEP (Permit No. 61-00181), on the grounds that the proposed permit contains a condition whereby Scrubgrass would be improperly permitted a three-year compliance extension for the hydrochloric acid/sulfur dioxide emission limit pursuant to subpart UUUUU (National Emission Standards for Hazardous Air Pollutants: Coal- and Oil-Fired Electric Utility Steam Generating Units) of 40 CFR part 63.

The Order granting the petition to object to the state operating permit to the Scrubgrass Generating Company explains the reasons behind EPA's decision to grant the petition for objection.

Dated: May 19, 2017.

**ENVIRONMENTAL PROTECTION AGENCY**

[FRL-9965-72-Region 2]

**Clean Water Act Section 303(d): Availability of List Decisions**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice and request for comments.

**SUMMARY:** This notice announces EPA's proposed decision to identify certain water quality limited waters and the associated pollutant to be listed, pursuant to Clean Water Act (CWA) Section 303(d)(2), on New York's list of impaired waters, and requests public comment. Section 303(d)(2) of the CWA and EPA's implementing regulations require States to submit, and EPA to approve or disapprove, lists of waters for which technology-based and other controls are not stringent enough to attain or maintain State water quality standards and for which total maximum daily loads (TMDLs) must be established. States are required to establish a priority ranking for waters on the list and to identify waters targeted for TMDL development over the next two years.

New York submitted its 2016 CWA Section 303(d) list (2016 303(d) list) to EPA in correspondence dated December 21, 2016. On July 21, 2017, EPA partially approved and partially disapproved New York's 2016 303(d) list. Specifically, EPA approved New York's 2016 303(d) list with respect to the 792 waterbody/pollutant combinations requiring TMDLs that New York included on its list, the State's priority ranking for these waterbody/pollutant combinations and the waterbody/pollutant combinations targeted for TMDL/Restoration Strategy development in 2017. However, EPA disapproved New York's 2016 303(d) list because EPA determined that it does not include seventy-one waterbody/pollutant combinations that meet CWA Section 303(d) listing requirements.

For a detailed explanation of EPA's partial approval/partial disapproval, please refer to EPA's Support Document (<https://www.epa.gov/tmdl/new-york-impaired-waters-list>). EPA is providing the public the opportunity to review its proposed decision to add these seventy-one waterbody/pollutant combinations to New York's 2016 303(d) list. EPA will consider public comments before transmitting its final listing decision to the State.

**DATES:** Comments must be submitted to EPA on or before September 8, 2017.

**ADDRESSES:** Comments on the proposed decision should be sent to Aimee Boucher, U.S. Environmental Protection Agency Region 2, 290 Broadway, New York, NY 10007, email [boucher.aimee@epa.gov](mailto:boucher.aimee@epa.gov), telephone (212)-637-3837. Oral comments will not be considered. Copies of EPA's letter and support document regarding New York's list can be obtained by calling or emailing Ms. Boucher at the address above. Underlying documents from the

administrative record for these decisions are available for public inspection at the above address. Please contact Ms. Boucher to schedule an inspection.

**FOR FURTHER INFORMATION CONTACT:**

Aimee Boucher at (212) 637-3837 or at [boucher.aimee@epa.gov](mailto:boucher.aimee@epa.gov).

**SUPPLEMENTARY INFORMATION:**

EPA partially disapproved New York's 2016 303(d) list because EPA determined that it does not include seventy-one waterbody/pollutant combinations that meet CWA Section 303(d) listing requirements. These seventy-one waterbody/pollutant combinations include:

(1) Thirty-eight waterbody/pollutant combinations New York previously placed in Integrated Report Category 4b (*i.e.*, impaired waters where a TMDL is not necessary because other required controls will result in attainment of water quality standards within a reasonable period of time) without adequate justification;

(2) one waterbody/pollutant combination New York delisted from its 2014 303(d) list and moved to Integrated Report Category 4b without adequate justification;

(3) four waterbody/pollutant combinations New York delisted from its 2014 303(d) list without data or information indicating New York's applicable water quality standard for dissolved oxygen is met;

(4) twenty-six waterbody/pollutant combinations New York delisted from its 2014 303(d) list without data or information indicating New York's applicable narrative nutrients standard is met; and

(5) two waterbody/pollutant combinations New York did not include on its 2016 303(d) list where data or information indicate that New York's applicable water quality standard for dissolved oxygen is not met.

**Authority:** Clean Water Act, 33 U.S.C. 1251 *et seq.*

**Certain New Chemicals or Significant New Uses; Statements of Findings for June 2017**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** Section 5(g) of the Toxic Substances Control Act (TSCA) requires EPA to publish in the **Federal Register** a statement of its findings after its review of TSCA section 5(a) notices when EPA makes a finding that a new chemical substance or significant new use is not likely to present an unreasonable risk of injury to health or the environment. Such statements apply to premanufacture notices (PMNs), microbial commercial activity notices (MCANs), and significant new use notices (SNUNs) submitted to EPA under TSCA section 5. This document presents statements of findings made by EPA on TSCA section 5(a) notices during the period from June 1, 2017 to June 30, 2017.

**FOR FURTHER INFORMATION CONTACT:** For technical information contact: Greg Schweer, Chemical Control Division (7405M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave. NW., Washington, DC 20460-0001; telephone number: (202) 564-8469; email address: [schweer.greg@epa.gov](mailto:schweer.greg@epa.gov).

For general information contact: The TSCA-Hotline, ABVI-Goodwill, 422 South Clinton Ave., Rochester, NY 14620; telephone number: (202) 554-1404; email address: [TSCA-Hotline@epa.gov](mailto:TSCA-Hotline@epa.gov).

**SUPPLEMENTARY INFORMATION:**

**I. General Information**

*A. Does this action apply to me?*

This action is directed to the public in general. As such, the Agency has not attempted to describe the specific entities that this action may apply to. Although others may be affected, this action applies directly to the submitters of the PMNs addressed in this action.

*B. How can I get copies of this document and other related information?*

The docket for this action, identified by docket identification (ID) number EPA-HQ-OPPT-2017-0141, is available at <http://www.regulations.gov> or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency Docket Center (EPA/DC), West William
