

exposure of domestic swine to CSF, FMD, SVD, and rinderpest from food waste originating from Malta.

Environmental Assessment

The commenter noted that in the supporting documents provided for this notice, the environmental assessment (EA) we used to support this notice was a May 2011 EA for the importation of swine and swine commodities from Slovakia. The commenter also noted that we used an amended finding of no significant impact (FONSI) from importation of swine and swine commodities from Slovakia as the basis for the amended finding related to Malta. The commenter asked us to explain how it is justifiable to use an EA conducted for another country to amend the finding to Malta.

Since 2006, we have recognized the CSF, FMD, SVD, and rinderpest status for EU Member States Latvia, Lithuania, Poland, the Czech Republic, Slovakia, Slovenia, Estonia, and Hungary.

Given that the EU applies and ensures enforcement of the same disease mitigation requirements across all of its Member States, we recognized that the single-state EAs we were conducting were redundant and thus unnecessary with respect to meeting the requirements of the National Environmental Policy Act (NEPA). After consulting with Agency specialists on NEPA compliance, we conducted an environmental impact analysis comparison of the Slovakia EA and similar proposed actions for other EU Member States. We determined that the environmental analysis of the Slovakia EA is sufficiently similar to cover the proposed action for Malta. The 2011 Slovakia EA stated that for any like or similar future regionalization actions proposed for EU Member States, APHIS would incorporate the Slovakia EA by reference in a new FONSI issued for a proposed new action for an EU Member State. That is what we have done for this action regarding Malta.

Additionally, we determined that future proposed actions of this nature pose negligible environmental impacts to each EU Member State or country that has entered into an agricultural equivalency agreement with the EU, provided that a disease assessment finds them to be free of or a low risk for relevant diseases. As Malta is an EU Member State and because we have determined that Malta is free of SVD, FMD, and rinderpest, and at low risk for CSF, we conclude that the “like or similar action” environmental analyses approach as presented in the 2011 Slovakia EA and FONSI is appropriate to use with respect to Malta.

Based on the evaluation and the reasons given in this document in response to comments, we are recognizing Malta as free of FMD, rinderpest, ASF, and SVD, and low risk for CSF. The lists of regions free of or at low risk of these diseases or where these diseases currently exist are available on the APHIS Web site at: https://www.aphis.usda.gov/aphis/ourfocus/animalhealth/animal-and-animal-product-import-information/ct_animal_disease_status or by contacting the person listed under **FOR FURTHER INFORMATION CONTACT**.

ARCHITECTURAL AND TRANSPORTATION BARRIERS COMPLIANCE BOARD

[Docket No. ATBCB–2017–0002]

Proposed Submission of Information Collection for OMB Review; Comment Request; Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery

AGENCY: Architectural and Transportation Barriers Compliance Board.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (PRA), the Architectural and Transportation Barriers Compliance Board (Access Board) invites comment on the proposed extension of its existing generic clearance for the collection of qualitative feedback on agency service delivery, which expires in January 2018 (OMB Control No. 3014–0011, Expiration: Jan. 31, 2018). This information collection was developed as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery. With this notice, the Access Board solicits comments on extension of its existing generic clearance, with proposed revisions to the type (and number) of information collection activities that reflect the agency’s anticipated increasing use of customer feedback surveys over the next

several years to garner qualitative feedback and improve service delivery in a timely and effective manner. Following review of comments received in response to this 60-day notice, the Access Board intends to submit a request to the Office of Management and Budget (OMB) to renew its generic clearance for collection of qualitative feedback for another three-year term.

DATES: Submit comments by October 10, 2017.

ADDRESSES: You may submit comments, by any of the following methods:

- *Federal eRulemaking Portal* <http://www.regulations.gov>. Follow the directions for sending comments.
- *Email:* spiegel@access-board.gov. Include ATBCB–2017–0002 in the subject line of the message.
- *Fax:* 202–272–0081.
- *Mail or Hand Delivery/Courier:*

Frances Spiegel, Office of General Counsel, U.S. Access Board, 1331 F Street NW., Suite 1000, Washington, DC 20004–1111.

Instructions: All submissions received must include the agency name and docket number for this Notice (identified by ATBCB–2017–0002). All comments received, including any personal information provided, will be posted without change to <http://www.regulations.gov>. For this reason, please do not include information of a confidential nature in your comments, such as sensitive personal or proprietary information.

SUPPLEMENTARY INFORMATION:

A. Background

Under the PRA and its implementing regulations (5 CFR part 1320), Federal agencies must obtain approval from OMB for each collection of information they conduct or sponsor (*e.g.*, contractually-required information collection by a third-party). “Collection of information,” within the meaning of the PRA, includes agency requests that pose identical questions to, or impose reporting or record keeping obligations on ten or more persons, regardless of whether response to such request is mandatory or voluntary. *See* 5 CFR 1320.3(c); *see also* 44 U.S.C. 3502(3). Before seeking clearance from OMB, agencies are generally required, among other things, to publish a 60-day notice in the **Federal Register** concerning any proposed information collection—

including extension of a previously-approved collection—and provide an opportunity for comment. See 44 U.S.C. 3506(c)(2)(A); 5 CFR 1320.8(d)(1).

The Access Board initially requested OMB approval of a generic clearance for the collection of qualitative feedback on agency service delivery in 2011. See Notice and Request for Comments, 76 FR 38355 (June 30, 2011) (30-day notice); see also 75 FR 80542 (Dec. 22, 2010) (government-wide 60-day notice published by OMB). In 2014, we requested renewal of this generic clearance for another three-year term. See Notice and Request for Comments, 79 FR 61285 (Oct. 10, 2014) (30-day notice); Notice and Request for Comments, 79 FR 43709 (July 28, 2014) (60-day notice). OMB approved the renewal of our generic clearance, and this extension is set to expire at the end of January 2018.

B. Proposed Information Collection Request

With this notice, the Access Board provides notice of its intent to seek renewal of its existing generic clearance for the collection of qualitative feedback on agency service delivery. We anticipate seeking OMB approval for revisions to the type (and number) of information collection activities relative to our existing generic clearance that expires in January 2018. In particular, the Access Board intends to seek an increase in the number of approved respondents (and burden hours) under the generic clearance, primarily because we expect to solicit feedback from customers across a broader spectrum of agency services relating to technical assistance, training, and other education and outreach initiatives. To date, we have found the feedback garnered through qualitative customer satisfaction surveys (and similar information collections) to be beneficial,

by providing useful insights in experiences, perceptions, opinions, and expectations regarding Access Board services or focusing attention on areas in need of improvement. We thus intend to seek approval for expansion of our current efforts to solicit qualitative customer feedback by seeking input from customers across a broader array of agency programs and services. Online surveys will be used unless the customer contacts the agency by phone for technical assistance or an individual otherwise expresses a preference for another survey format (i.e., fillable form in portable document format or paper survey). In addition, paper surveys may be used to garner feedback from participants at in-person trainings or similar events.

OMB Control Number: 3014–0011.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.

Type of Review: Extension with revisions.

Abstract: The proposed information collection activity facilitates collection of qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with the Federal Government’s commitment to improving service delivery. By qualitative feedback we mean information collections that provide useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. This feedback will provide insight into customer or stakeholder perceptions, experiences and expectations, provide an early warning of issues with service, or focus attention on areas where communication, training, or changes in operations might improve delivery of services. These collections will allow for ongoing, collaborative, and actionable

communications between the Access Board and its customers and stakeholders.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. This type of generic clearance for qualitative information will not be used for quantitative information collections that are designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address: The target population to which generalizations will be made, the sampling frame, the sample design (including stratification and clustering), the precision requirements or power calculations that justify the proposed sample size, the expected response rate, methods for assessing potential non-response bias, the protocols for data collection, and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results from such quantitatively-inclined information collections are likely to have, such collections might still be eligible for submission under another type of other generic clearance.

Respondents/Affected Public: Individuals and Households; Businesses and Organizations; State, Local or Tribal Government.

Burden Estimates: In the table below (Table 1), the Access Board provides estimates for the annual reporting burden under this proposed information collection. (The Access Board does not anticipate incurring any capital or other direct costs associated with this information collection. Nor will there be any costs to respondents, other than their time.)

TABLE 1—ESTIMATED ANNUAL BURDEN HOURS

Type of collection	Number of respondents	Frequency of response (per year)	Average response time (minutes)	Total burden (hours)
Customer feedback survey: Training/Webinar	1,200	1	6	120
Customer feedback survey: Technical Assistance	2,700	1	3	135
Customer feedback survey: Compliance & Enforcement	40	1	4	3
Totals	3,940	n/a	n/a	258

Note: Total burden hours per collection rounded to the nearest full hour.

Request for Comment: The Access Board seeks comment on any aspect of the proposed renewal of its existing generic clearance for the collection of qualitative feedback on agency service delivery, including (a) whether the

proposed collection of information is necessary for the Access Board’s performance; (b) the accuracy of the estimated burden; (c) ways for the Access Board to enhance the quality, utility, and clarity of the information

collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. Comments will be summarized and included in our request for OMB’s

approval of renewal of our existing generic clearance.

David M. Capozzi,
Executive Director.
