ENVIRONMENTAL PROTECTION AGENCY

[FRL–9965–41–Region 10]

Public Notice of State of Idaho National Pollutant Discharge Elimination System (NPDES) Program Submission for EPA Approval

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of availability; request for comment; notice of public hearing.

SUMMARY: The United States Environmental Protection Agency (EPA) is requesting comments on and will hold public hearings for the State of Idaho's National Pollutant Discharge Elimination System (NPDES) program application (to be referred to as the "IPDES program application" or the "application"). The Governor of the State of Idaho submitted the application to the EPA Region 10 Administrator pursuant to section 402 of the Clean Water Act (CWA or 'the Act'). With this submission, the Idaho Department of Environmental Quality (IDEQ) seeks approval to administer the Idaho Pollutant Discharge Elimination System (IPDES) program regulating discharges of pollutants into waters of the United States under its jurisdiction. The State's request includes an implementation plan to transfer from the EPA to IDEQ the administration of specific program components in four phases over a four-year period beginning July 1, 2018, or upon program approval, whichever is later. If the EPA approves the IPDES program, IDEQ will administer this program, subject to continuing EPA oversight and enforcement authority, in place of the NPDES program now administered by the EPA. The EPA will retain permitting authority over all facilities that are located within a tribal reservation and/or facilities that discharge to tribal waters. Today, the EPA is requesting comments on the State's application and providing notice of public hearings that will be held at locations throughout the state. At the close of the public comment period, the EPA will review all the public comments received and will either approve or disapprove the State's request for program approval. If approved, the NPDES program authority will begin to transfer from the EPA to IDEQ on or after July 1, 2018, with the final program phase being transferred to IDEQ on or after July 1, 2021.

DATES: Comments must be received on or before October 10, 2017.

ADDRESSES: *Location of Informational Meetings and Public Hearings:* EPA Region 10 will hold five information meetings, with each followed by a public hearing on the following dates and times. Please check the Web site at <https://www.epa.gov/npdes-permits/idaho-npdes-program-authorization> prior to the scheduled dates for any updates to this information.
