Ultrafiltered Milk in the Production of Standardized Cheeses and Related Cheese Products: Guidance for Industry; Availability

**AGENCY:** Food and Drug Administration, HHS.

**ACTION:** Notification of availability.

**SUMMARY:** The Food and Drug Administration (FDA or we) is announcing the availability of a guidance for industry entitled “Ultrafiltered Milk in the Production of Standardized Cheeses and Related Cheese Products: Guidance for Industry.” The guidance advises manufacturers who wish to use ultrafiltered milk (UF milk) or ultrafiltered nonfat milk (UF nonfat milk) in the production of standardized cheeses and related cheese products that, pending completion of a rulemaking regarding the use of UF milk in the production of these products, we intend to exercise enforcement discretion regarding the use of fluid UF milk and fluid UF nonfat milk in the production of standardized cheeses and related cheese products. We also intend to exercise enforcement discretion regarding the declaration of ingredients in the labeling of standardized cheeses and related cheese products when fluid UF milk and fluid UF nonfat milk are used as ingredients.

**DATES:** The announcement of the guidance is published in the Federal Register on August 14, 2017. Submit either electronic or written comments on FDA guidance at any time.

**ADDRESSES:** You may submit comments as follows:

- **Electronic Submissions**
  - Submit electronic comments in the following way:
    - Federal eRulemaking Portal: https://www.regulations.gov. Follow the instructions for submitting comments. Comments submitted electronically, including attachments, to https://www.regulations.gov will be posted to the docket unchanged.
    - If you wish to submit a comment with confidential information that you do not wish to be made public, you are solely responsible for ensuring that your comment does not include any confidential information that you or a third party may not wish to be posted, such as medical information, your or anyone else’s Social Security number, or confidential business information, such as a manufacturing process. Please note that if you include your name, contact information, or other information that identifies you in the body of your comments, that information will be posted on https://www.regulations.gov. If you want to submit a comment with confidential information that you do not wish to be made available to the public, submit the comment as a written/paper submission and in the manner detailed (see “Written/Paper Submissions” and “Instructions”).

- **Written/Paper Submissions**
  - Submit written/paper submissions as follows:
    - Mail/Hand delivery/Courier (for written/paper submissions): Dockets Management Staff (HFA–305), Food and Drug Administration, 5630 Fishers Lane, Room 1061, Rockville, MD 20852.
    - For written/paper comments submitted to the Dockets Management Staff, FDA will post your comment, as well as any attachments, except for information submitted, marked and identified, as confidential, if submitted as detailed in “Instructions.”

**Instructions:** All submissions received must include the Docket No. FDA–2017–D–4713 for “Ultrafiltered Milk in the Production of Standardized Cheeses and Related Cheese Products: Guidance for Industry.” Received comments will be placed in the docket and, except for those submitted as “Confidential Submissions,” publicly viewable at https://www.regulations.gov or at the Dockets Management Staff between 9 a.m. and 4 p.m., Monday through Friday.

- **Confidential Submissions—To submit a comment with confidential information that you do not wish to be made publicly available, submit your comments only as a written/paper submission. You should submit two copies total. One copy will include the information you claim to be confidential with a heading or cover note that states “THIS DOCUMENT CONTAINS CONFIDENTIAL INFORMATION.” We will review this copy, including the claimed confidential information, in our consideration of comments. The second copy, which will have the claimed confidential information redacted/blacked out, will be available for public viewing and posted on https://www.regulations.gov. Submit both copies to the Dockets Management Staff. If you do not wish your name and contact information to be made publicly available, you can provide this information on the cover sheet and not in the body of your comments and you must identify this information as “confidential.” Any information marked as “confidential” will not be disclosed except in accordance with 21 CFR 10.20 and other applicable disclosure law. For more information about FDA’s posting of comments to public docket s, see 80 FR 56469, September 18, 2015, or access the information at: https://www.gpo.gov/fdsys/pkg/FR-2015-09-18/pdf/2015-23389.pdf. Docket: For access to the docket to read background documents or the electronic and written/paper comments received, go to https://www.regulations.gov and insert the docket number, found in brackets in the heading of this document, into the “Search” box and follow the prompts and/or go to the Dockets Management

Legal text with additional details and annotations relevant to the Federal Register entry.
ultrafiltration. For purposes of this guidance, we consider filtration to be a process whereby milk is passed over a series of semipermeable membranes with varying pore sizes. Ultrafiltration retains macromolecules and particles larger than about 0.001–0.02 micrometers. In dairy processing, ultrafiltration is typically used to retain all protein components of milk, including casein and whey proteins, while some of the lactose, minerals, and water-soluble vitamins present in milk are lost along with water.

For purposes of the guidance, UF milk means raw or pasteurized milk that is passed over one or more semipermeable membranes to partially remove water, lactose, minerals, and water-soluble vitamins without altering the casein:whey protein ratio of the milk and resulting in a liquid product. UF nonfat milk is defined similarly, except that raw or pasteurized nonfat milk is used.

In the Federal Register of October 19, 2005 (70 FR 60751), we issued a proposed rule that would amend our regulations to provide for the use of fluid UF milk in the manufacture of standardized cheeses and related cheese products. We tentatively concluded that the proposed rule, if finalized, would promote honesty and fair dealing in the interest of consumers and, to the extent practicable, achieve consistency with existing international standards of identity for cheeses and related cheese products.

While we have not completed the rulemaking as of August 2017, we are aware of issues regarding UF milk in the United States. In brief, due to recent developments in the export market, the United States dairy industry is experiencing an oversupply of and pricing challenges with domestically produced UF milk (Refs. 1 and 2). Additionally, we have received requests to exercise enforcement discretion while the rulemaking is pending, in part to mitigate the impact on U.S. companies producing UF milk (Ref. 3).

FDA believes that food standards should provide for flexibility in manufacturing procedures and ingredients, provided that the basic nature and essential characteristics of the food are preserved. Given the oversupply of UF milk and the pending rulemaking, through this guidance we are announcing our intent to exercise enforcement discretion regarding the use of UF milk and UF nonfat milk in the production of standardized cheeses and related cheese products under the part in addition to the other required dairy ingredients, provided that the physical, chemical, and organoleptic properties of the cheese or cheese product are not affected. FDA is also announcing its intent to exercise enforcement discretion with respect to the labeling of standardized cheeses and related cheese products, when, in addition to milk or nonfat milk, fluid UF milk or fluid UF nonfat milk is used as an ingredient, but is not declared in the ingredient statement, provided that milk or nonfat milk is declared in the ingredient statement. We are exercising enforcement discretion with respect to the labeling of fluid UF milk and fluid UF nonfat milk in recognition of the costs and logistics involved in label changes; however, we encourage industry to identify these ingredients as “ultrafiltered milk” and “ultrafiltered nonfat milk” to the extent feasible and appropriate. We intend to exercise enforcement discretion until we have completed a rulemaking process amending our regulations with respect to the issues covered by this guidance, or announce in the Federal Register our determination not to proceed with such a rulemaking.

We are issuing this guidance without prior public comment under 21 CFR 10.115(g)(2) because we have determined that prior public participation is not feasible or appropriate, as this guidance implements a temporary enforcement policy to address an oversupply of UF pending the completion of rulemaking regarding the use of UF milk in the production of standardized cheeses and related cheese products. The oversupply of UF milk would be worsened if we deferred exercising enforcement discretion regarding the matters in the guidance while providing an opportunity for prior public comment. (We also note that, as we stated in the preamble to the 2005 proposed rule, we tentatively conclude that fluid UF milk can be used in standardized cheeses while maintaining the essential characteristics of those cheeses specified in the individual standards of identity in part 133 (see 70 FR 60751 at 60756 through 60757).) However, as with all Agency guidance, the public may comment on the guidance at any time. This guidance is not subject to Executive Order 12866.

II. Electronic Access

Persons with access to the internet may obtain the guidance at either https://www.fda.gov/FoodGuidances or https://www.regulations.gov. Use the FDA Web site listed in the previous sentence to find the most current version of the guidance.
III. References

The following references are on display in the Dockets Management Staff (see ADDRESSES) and are available for viewing by interested persons between 9 a.m. and 4 p.m., Monday through Friday; they are also available electronically at https://www.regulations.gov. FDA has verified the Web site addresses, as of the date this document publishes in the Federal Register, but Web sites are subject to change over time.

Dated: August 9, 2017.

Anna K. Abram,
Deputy Commissioner for Policy, Planning, Legislation, and Analysis.

[TD 9777]
RIN 1545–BG41; 1545–BH38

Arbitrage Guidance for Tax-Exempt Bonds; Correction

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Correcting amendment.

SUMMARY: This document contains a correction to final regulations (TD 9777) that were published in the Federal Register on Monday, July 18, 2016 (81 FR 46582). The final regulations relate to the arbitration restrictions under section 148 of the Internal Revenue Code applicable to tax-exempt bonds and other tax-advantaged bonds issued by State and local governments.

DATES: This correction is effective August 14, 2017 and applicable July 18, 2016.

FOR FURTHER INFORMATION CONTACT: Spence Hanemann at (202) 317–6980 (not a toll-free number).

SUPPLEMENTARY INFORMATION:

Background

The final regulations (TD 9777) that are the subject of this correction are under section 148 of the Internal Revenue Code.

Need for Correction

As published, the final regulations (TD 9777) contain an error that may prove to be misleading and are in need of clarification.

List of Subjects in 26 CFR Part 1

Income taxes, Reporting and recordkeeping requirements.

Correction of Publication

Accordingly, 26 CFR part 1 is amended by making the following correcting amendment:

PART 1—INCOME TAXES

§ 1.148–11 [Amended]

Martin V. Franks,
Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel (Procedure and Administration).

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

Approval of California Air Plan Revisions, San Joaquin Valley Unified Air Pollution Control District

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a revision to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD or “the District”) portion of the California State Implementation Plan (SIP). This revised rule concerns emissions of oxides of nitrogen, carbon monoxide, oxides of sulfur, and particulate matter of 10 microns or less from boilers, steam generators and process heaters. We are approving a local rule that regulates these emission sources under the Clean Air Act (CAA or the Act).

DATES: This rule will be effective on September 13, 2017.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–R09–OAR–2017–0034. All documents in the docket are listed on the http://www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available through http://www.regulations.gov, or please contact the person identified in the FOR FURTHER INFORMATION CONTACT section for additional availability information.

FOR FURTHER INFORMATION CONTACT: Nancy Levin, EPA Region IX, (415) 972–3848, levinnancy@epa.gov.

SUPPLEMENTARY INFORMATION: Throughout this document, “we,” “us” and “our” refer to the EPA.
