any potential confusion among Members. The Exchange further believes that the correction to the Fee Schedule is reasonable, equitable, and not unfairly discriminatory because all similar situated Members will be subject to the same fee structure.

The Exchange also believes that it is consistent with the Act and an equitable allocation of reasonable dues, fees and other charges among its members and other persons using its facilities to measure whether the 90% threshold for adding liquidity with displayable orders is reached on an MPID basis. As explained in IEX’s rule change adopting the exception to the Non-Displayed Match Fee, the flexibility is designed to address limited inadvertent liquidity removal by Members who are largely adding displayed liquidity and generally intend to add displayed liquidity on IEX, to further encourage aggressively priced displayed orders.16 The Exchange believes that Members that utilize multiple MPIDs generally use different MPIDs for different trading strategies or customers. Therefore, the Exchange believes that measuring by MPID is a more precise manner of assessing whether a Member’s trading strategy (or that of a customer) is largely adding displayed liquidity and generally intends to add displayed liquidity with displayable orders.

B. Self-Regulatory Organization’s Statement on Burden on Competition

IEX does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The proposed rule change is designed to correct an inadvertent error rather than a competitive issue. The Exchange does not believe the proposed rule change will result on a burden on intramarket competition because all Members will be subject to the Non-Displayed Match Fee in the same manner on a fair and consistent basis. While different fees will be assessed in some circumstances, these different fees are not based on the type of Member entering the order and all Members can submit any type of order. Further, assessing whether the Non-Displayed Match Fee is applicable on a per MPID basis is intended to encourage market participants to enter aggressively priced displayed orders on the Exchange, which enhances price discovery and deepens the Exchange’s liquidity pool to the benefit of all market participants. Further, the Exchange operates in a highly competitive environment in which market participants can readily favor competing venues if fee schedules at other venues are viewed as more favorable.

The Exchange also does not believe that the proposed rule change will result in any burden on intermarket competition because other venues are free to adopt comparable pricing.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.
