SUPPLEMENTARY INFORMATION:

Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, EPA WJC West Building, Room 3334, 1301 Constitution Ave. NW., Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about the EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This ICR is being conducted by the EPA's Office of Air and Radiation to assist the EPA Administrator to fulfill his responsibilities under sections 112(d) and 112(f) of the Clean Air Act (CAA), as amended. The CAA requires a review of each NESHAP following the application of the standard to determine any remaining risk and whether the standard is protective to public health with an ample margin of safety and prevents adverse environmental effects. The CAA also requires that the standard be reviewed and revised, as necessary, taking into account developments in

practices, processes, and control technology. For efficiency and to reduce burden, these reviews are conducted concurrently and known as RTR. The federal emission standard that is the subject of this information collection is the National Emission Standards for Hazardous Air Pollutants: Plywood and Composite Wood Products (PCWP) (40 CFR part 63, subpart DDDD). On March 22, 2017, the EPA was ordered by the United States Court of Appeals for the District of Columbia Circuit to complete the PCWP RTR no later than June 30, 2020. In addition to the CAA reviews, in 2007, the United States Court of Appeals for the District of Columbia Circuit issued a remand requiring the administrator to develop standards for emission units identified in the PCWP NESHAP for which emission limits were not promulgated.

The ICR will provide specific, required information, including emission inventories, compliance demonstrations, process changes, and information about control technologies/practices adopted since the application of maximum achievable control technology (MACT). The ICR will be sent to all known operators of PCWP facilities that are major sources for hazardous air pollutants (HAP) regulated by the PCWP NESHAP and synthetic area sources that may have used technology to avoid major source status triggering NESHAP applicability. The information collection seeks to collect facility-level information (e.g., facility name, location, contact information, and process unit details), emissions information, compliance data, control information, and descriptions of technological innovations.

Form Numbers: None.

Respondents/affected entities: Major sources regulated by the PCWP NESHAP and synthetic area sources that may have used technology to avoid major source status triggering NESHAP applicability.

Respondent's obligation to respond: Mandatory under the authority of section 114 of the CAA.

Estimated number of respondents: 397 (total).

Frequency of response: Once.

Total estimated burden: 59,437 hours (one-time). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$4,199,272 (one-time), which includes \$6,650 in operation and maintenance costs (O&M) to cover mailing hard copies.

Director, Regulatory Support Division.

Total Annual Burden: 57,218 hours.

Total Annual Cost: \$ 2,676,700.

Nature and Extent of Confidentiality: In general there is no need for

confidentiality. The Commission is required to withhold from disclosure certain information about the individual such as date of birth or telephone number. FCC 605 application is a consolidated application form for Ship, Aircraft, Amateur, Restricted and Commercial Radio Operators, and General Mobile Radio Services and is used to collect licensing data for the Universal Licensing System. The Commission is requesting OMB approval for an extension (no change in the reporting, recordkeeping and/or third party disclosure requirements). The Commission is making minor clarifications to the instructions on the main form and schedule B as well as a clarification to Item 3 on the main form. 4 The data collected on this form includes the Date of Birth for Commercial Operator licensees however this information will be redacted from public view.

Privacy Impact Assessment: Yes.

Needs and Uses: The FCC uses the information in FCC Form 605 to determine whether the applicant is legally, technically, and financially qualified to obtain a license. Without such information, the Commission cannot determine whether to issue the licenses to the applicants that provide telecommunication services to the public, and therefore, to fulfill its statutory responsibilities in accordance with the Communications Act of 1934, as amended. The Commission is revising the basic qualifications section of the form to include a question regarding whether an application has been convicted of a felony in any state or federal court. Applicants, answering yes must provide an explanation. This item enables the FCC to determine whether an Applicant is eligible under §§ 310(d) and 308(b) of the Communications Act of 1934, as amended, to hold or have ownership interest in a station license. In addition we are seeking approval to change the ship application form require the applicant provide the official ship number. Coast Guard requests we change this question from optional to required. Obtaining the ship number is the only way to reliably link a license to a specific vessel. The Information provided on this form will also be used to update the database and to provide for proper use of the frequency spectrum as well as enforcement purposes.

Federal Communications Commission.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Patient Safety Organizations: Voluntary Relinquishment From the Specialty Benchmarks PSO

AGENCY: Agency for Healthcare Research and Quality (AHRQ), Department of Health and Human Services (HHS).

ACTION: Notice of delisting.

SUMMARY: The Patient Safety Rule authorizes AHRQ, on behalf of the Secretary of HHS, to list as a PSO an entity that attests that it meets the statutory and regulatory requirements for listing. A PSO can be "delisted" by the Secretary if it is found to no longer meet the requirements of the Patient Safety Act and Patient Safety Rule, when a PSO chooses to voluntarily relinquish its status as a PSO for any reason, or when a PSO's listing expires. AHRQ has accepted a notification of voluntary relinquishment from the Specialty Benchmarks PSO of its status as a PSO, and has delisted the PSO accordingly.

DATES: The directories for both listed and delisted PSOs are ongoing and
