### VIII. Other Information

The Public Health Service strongly encourages all cooperative agreement and contract recipients to provide a smoke-free workplace and promote the non-use of all tobacco products. In addition, Public Law 103-227, the Pro-Children Act of 1994, prohibits smoking in certain facilities (or in some cases, any portion of the facility) in which regular or routine education, library, day care, health care, or early childhood development services are provided to children. This is consistent with the HHS mission to protect and advance the physical and mental health of the American people.

### Coast Guard

[Docket No. USCG-2017-0464]

#### Imposition of Conditions of Entry for Certain Vessels Arriving at the United States From the Federated States of Micronesia

**AGENCY:** Coast Guard, DHS.

**ACTION:** Notice.

**SUMMARY:** The Coast Guard announces that it will impose conditions of entry

on vessels arriving from the Federated States of Micronesia. Conditions of entry are intended to protect the United States from vessels arriving from countries that have been found to have deficient port anti-terrorism measures in place.

**DATES:** The policy announced in this notice will become applicable September 5, 2017.

**FOR FURTHER INFORMATION CONTACT:** For information about this document call or email Juliet Hudson, International Port Security Evaluation Division, United States Coast Guard, telephone 202-372-1173, [Juliet.J.Hudson@uscg.mil](mailto:Juliet.J.Hudson@uscg.mil).

### SUPPLEMENTARY INFORMATION:

#### Discussion

The authority for this notice is 5 U.S.C. 552(a) (“Administrative Procedure Act”), 46 U.S.C. 70110 (“Maritime Transportation Security Act”), and Department of Homeland Security Delegation No. 0170.1(II)(97.f). As delegated, section 70110(a) authorizes the Coast Guard to impose conditions of entry on vessels arriving in U.S. waters from ports that the Coast Guard has not found to maintain effective anti-terrorism measures.

On May 3, 2016 the Coast Guard found that ports in the Federated States of Micronesia failed to maintain effective anti-terrorism measures and that the Federated States of Micronesia’s designated authority oversight, access control, security monitoring, security training programs, and security plans drills and exercises are all deficient.

On July 7, 2016, as required by 46 U.S.C. 70109, the Federated States of Micronesia was notified of this determination and given recommendations for improving antiterrorism measures and 90 days to respond. To date, we cannot confirm that the Federated States of Micronesia has corrected the identified deficiencies.

Accordingly, beginning September 5, 2017, the conditions of entry shown in Table 1 will apply to any vessel that visited a port in the Federated States of Micronesia in its last five port calls.

TABLE 1—CONDITIONS OF ENTRY FOR VESSELS VISITING PORTS IN THE FEDERATED STATES OF MICRONESIA

No.	Each vessel must:
1	Implement measures per the vessel’s security plan equivalent to Security Level 2 while in a port in the Federated States of Micronesia. As defined in the ISPS Code and incorporated herein, “Security Level 2” refers to the “level for which appropriate additional protective security measures shall be maintained for a period of time as a result of heightened risk of a security incident.”
2	Ensure that each access point to the vessel is guarded and that the guards have total visibility of the exterior (both landside and water-side) of the vessel while the vessel is in ports in the Federated States of Micronesia.
