[Docket No. CP17-481-000]

Notice of Application: DCP Operating Company, LP

Take notice that on August 2, 2017, DCP Operating Company, LP (DCP), 370 17th Street, Suite 2500, Denver, Colorado 80202, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations requesting authorization to construct and operate approximately 8.4 miles of 20-inch-diameter natural gas pipeline with a maximum capacity of 253million cubic feet per day (MMcf/d) in Weld County, Colorado (Mewbourn 3 Residue East Pipeline), all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions concerning this application may be directed to Tyler Culbertson, Manager, Regulatory Affairs, DCP Operating Company, LP, 370 17th Street, Suite 2500, Denver, Colorado 80202, at (303) 605-2278.

Further, DCP asks for clarification about the applicability of the Part 157, Subpart F blanket certificate program to Mewbourn 3 Residue East Pipeline. DCP also seeks waivers of certain regulatory requirements, including the Commission's interstate natural gas pipeline open access, tariff, posting, accounting, and reporting requirements, like similar residue pipeline owner/operators. DCP wants confirmation that the Commission's assertion of jurisdiction over the Mewbourn 3 Residue East Pipeline in no way jeopardizes the non-jurisdictional status

of DCP's otherwise non-jurisdictional gathering and processing facilities.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to

¹ Notice of Exemption from Licensing, *Claremont Hydro Associates*, 21 FERC 62,216 (1982).

² Order Granting Exemption from Licensing of a Small Hydroelectric Project (5 MW or Less), *ECH Hydro Associates*, 18 FERC 62,419 (1982).

³ Order Granting Exemption from Licensing of a Small Hydroelectric Project of 5 Megawatts or Less and Denying Competing Application for Preliminary Permit, *New England Hydro, Inc. Woodsville Fire District*, 18 FERC 62,158 (1982).

⁴ Order Granting Exemption from Licensing of a Small Hydroelectric Project of 5 MW or Less, *Frank M. Biber and Steven Spellenberg*, 22 FERC ¶ 62,182 (1983).
