

associated health effects. The rule also requires state and local governments to notify EPA before commencing any asbestos abatement project. State and local governments must maintain medical surveillance and monitoring records and training records on their employees, must establish a set of written procedures for respirator programs and must maintain procedures and records of respirator fit tests. EPA will use the information to monitor compliance with the asbestos worker protection rule. This request addresses these reporting and recordkeeping requirements.

Respondents/Affected Entities: State and local government employers in 24 states, DC, and certain U.S. Territories that have employees engaged in asbestos-related construction, custodial and brake and clutch repair activities without OSHA-approved state plans.

Respondent's obligation to respond: Mandatory (see 40 CFR 763 Subpart G). Respondents may claim all or part of a notice confidential. EPA will disclose information that is covered by a claim of confidentiality only to the extent permitted by, and in accordance with, the procedures in TSCA section 14 and 40 CFR part 2.

Estimated total number of potential respondents: 23,437.

Frequency of response: On occasion.

Estimated total burden: 372,969 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Estimated total costs: \$ 15,763,007 (per year), includes no annualized capital investment or maintenance and operational costs.

Changes in the estimates: There is a net increase of 9,452 hours in the total estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects an increase of 24,371 hours to account for updates made from previous ICRs to standardize methodology, and a decrease of 14,919 hours due to Maine's new status of having an OSHA-approved state plan whereby its entities are no longer covered under this ICR. This change is an adjustment.

Supporting documents which explain in detail the information that the EPA will be collecting are available in the public docket for this ICR. The docket can be viewed online at <http://www.regulations.gov>, or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW., Washington, DC. Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 60, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 60, subparts KKK and LLL. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Owners or operators of onshore natural gas processing plants.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subparts KKK and LLL).

Estimated number of respondents: 484 (total).

Frequency of response: Initially, semiannually, and occasionally.

Total estimated burden: 102,000 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$10,800,000 (per year), includes \$68,400 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an adjustment decrease in the estimated labor hours and number of responses as currently identified in the OMB Inventory of Approved Burdens. The decrease is due to a projected decline in the number of sources subject to the regulation, as new and modified sources will become subject to NSPS Subpart OOOO. We expect on average 27 existing facilities under Subpart KKK and 3 facilities under Subpart LLL will undergo modifications each year such

that they will become subject to Subpart OOOO. The burden of NSPS Subpart OOOO is accounted for under EPA ICR Number 2437.04 (OMB Control Number 2060-0673).
