Federal Energy Regulatory Commission

Grieve Pipeline, LLC; Notice of Petition for Declaratory Order

Take notice that on August 11, 2017, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207(a)(2) (2016), Grieve Pipeline, LLC, a subsidiary of Elk Petroleum, Inc., filed a petition for a declaratory order seeking approval of open season procedures, rate structure, key contract and tariff terms, as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary

link and is available for review in the Commission's Public Reference Room in Washington, DC. There is an eSubscription link on the Web site that enables subscribers to receive email notification when a document is added to a subscribed docket(s). [Project No. 2100-180—California]

California Department of Water Resources; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and the Federal Energy Regulatory Commission's (Commission or FERC's) regulations, 18 Code of Federal Regulations Part 380, the Office of Energy Projects has reviewed an application filed by the California Department of Water Resources on May 17, 2017, and supplemented June 16 and June 20, 2017, to permanently reroute three existing primary transmission lines at the Feather River Project No. 2100 between the Hyatt Pumping-Generating Plant and the Table Mountain Substation. The proposal would allow California Department of Water Resources to continuously deliver electricity along a different route away from repair activities at the project's damaged main spillway and emergency spillway area. The Feather River Project is located on the Feather River in Butte County, California.

Staff prepared an environmental assessment (EA) for the application which analyzes the potential environmental effects of approving the requested transmission line modification. In the EA, staff concludes that such an approval, with specified environmental protection measures, would not constitute a major federal action that would significantly affect the quality of the human environment.

A copy of the EA is available for review at the Commission's Public Reference Room or it may be viewed on the Commission's Web site at www.ferc.gov using the eLibrary link.
