Specifically, the Administrator has denied the July 7, 2016 petition (Petition), submitted by the Climate Change Law Foundation, Association of Irrigated Residents, Center for Biological Diversity, and Sierra Club to object to SJVUAPCD's proposed issuance of the Permit for the Chevron USA Inc.—7Z Steam Plant in Kern County, California.

SUPPLEMENTARY INFORMATION:

SJVUAPCD Rule 2201 affords the EPA a 45-day period to review and object to, as appropriate, a proposed permit. Rule 2201 § 5.9.1. If the EPA does not object, Rule 2201 allows any person to petition the EPA, within 60 days, to object to the proposed permit. Petitions must be based only on objections to the permit that were raised with reasonable specificity during the public comment period, unless the petitioner demonstrates that it was impracticable to raise these issues during the comment period, or the grounds for the issue arose after this period.

The EPA received the Petition dated July 7, 2016, requesting that the EPA object to the proposed issuance of the Permit to Chevron USA Inc., for modifications to its 7Z Steam Plant, located in Kern County, California. In summary, the Petition claimed that certain emission reduction credits used in the permitting process were invalid.

On April 24, 2017, the Administrator issued an order denying the Petition. The EPA's rationale for denying the claims raised in the petition are described in the Order.

Dated: August 11, 2017.

Alexis Strauss,

Acting Regional Administrator, Region IX.
