[Docket No. OSHA–2009–0026]

Curtis-Strauss LLC: Grant of Expansion of Recognition

AGENCY: Occupational Safety and Health Administration (OSHA), Labor.

ACTION: Notice.

SUMMARY: In this notice, OSHA announces its final decision to expand the scope of recognition for Curtis-Strauss LLC as a Nationally Recognized Testing Laboratory (NRTL).

DATES: The expansion of the scope of recognition becomes available on September 5, 2017.

FOR FURTHER INFORMATION CONTACT: Information regarding this notice is available from the following sources:

OSHA’s Web page includes information about the NRTL Program (see <http://www.osha.gov/dts/otpca/nrtl/index.html>).

SUPPLEMENTARY INFORMATION:

I. Notice of Final Decision

OSHA hereby gives notice of the expansion of the scope of recognition of Curtis-Strauss LLC (CSL) as a NRTL. CSL’s expansion covers the addition of five test standards to its scope of recognition.

OSHA recognition of a NRTL signifies that the organization meets the requirements specified by 29 CFR 1910.7. Recognition is an acknowledgment that the organization can perform independent safety testing and certification of the specific products covered within its scope of recognition and is not a delegation or grant of government authority. As a result of recognition, employers may use products properly approved by the NRTL to meet OSHA standards that require testing and certification of the products.

The Agency processes applications by a NRTL for initial recognition, or for expansion or renewal of this recognition, following requirements in Appendix A to 29 CFR 1910.7. This appendix requires that the Agency publish two notices in the **Federal Register** in processing an application. In the first notice, OSHA announces the application and provides its preliminary finding and, in the second notice, the Agency provides its final decision on the application. These notices set forth the NRTL’s scope of recognition or modifications of that scope. OSHA

maintains an informational Web page for each NRTL that details its scope of recognition. These pages are available from the Agency’s Web site at: <http://www.osha.gov/dts/otpca/nrtl/index.html>.

CSL submitted an application, dated December 30, 2016, (OSHA–2009–0026–0073) to expand its recognition to include five additional test standards. OSHA staff performed a comparability analysis of the application packet and reviewed other pertinent information. OSHA did not perform any on-site reviews in relation to this application.

OSHA published the preliminary notice announcing CSL’s expansion application in the **Federal Register** on June 21, 2017 (82 FR 28356). The Agency requested comments by July 6, 2017, but it received no comments in response to this notice. OSHA now is proceeding with this final notice to grant expansion of CSL’s scope of recognition.

To obtain or review copies of all public documents pertaining to CSL’s application, go to: www.regulations.gov or contact the Docket Office, Occupational Safety and Health Administration, U.S. Department of Labor, 200 Constitution Avenue NW., Room N–2625, Washington, DC 20210. Docket No. OSHA–2009–0026 contains all materials in the record concerning CSL’s recognition.

II. Final Decision and Order

OSHA staff examined CSL’s expansion application, its capability to meet the requirements of the test standards, and other pertinent information. Based on its review of this evidence, OSHA finds that CSL meets the requirements of 29 CFR 1910.7 for expansion of its recognition, subject to the limitation and conditions listed below. OSHA, therefore, is proceeding with this final notice to grant CSL’s scope of recognition. OSHA limits the expansion of CSL’s recognition to testing and certification of products for demonstration of conformance to the test standards listed in Table 1 below.
