

DTV Delay Act included the extension of applicable 700 MHz construction benchmarks and reporting requirements by a period of 116 days.

On October 29, 2013, the Commission issued a Report and Order and Order of Proposed Modification in WT Docket No. 12–69 and WT Docket No. 12–332, FCC 13–136 (700 MHz Interoperability Order), in which it revised certain technical rules and extended or waived construction deadlines for certain licenses in order to resolve issues resulting from the lack of interoperability in the Lower 700 MHz Band. The Report and Order did not revise any of the information collection requirements that are contained in this collection. It simply waived or revised the dates on which the information collection requirements are required.

Obligation to Respond: Required to obtain or retain benefits. Statutory authority for this information collection (IC) is contained in 47 U.S.C. 10(a) of the Communications Act of 1934, as amended.

Total Annual Burden: 60,878 hours.

Nature and Extent of Confidentiality: Respondents are not being asked to submit confidential information to the Commission. If the Commission requests respondents to submit information which respondents believe are confidential, respondents may request confidential treatment of such information under 47 CFR 0.459 of the Commission's rules.

Needs and Uses: The Commission has developed standardized Tariff Review Plans (TRPs) that set forth the summary material that incumbent LECs (ILECs) file to support revisions to the rates in their interstate access service tariffs. The TRPs display basic data on rate development in a consistent manner, thereby facilitating review of the ILEC rate revisions by the Commission and interested parties. The TRPs have served this purpose effectively in past years.

On April 20, 2017, the Commission adopted the *Business Data Services Order*, FCC 17–43, reforming the business data services/special access regulations for incumbent and competitive LECs by detariffing certain business data services and modifying the regulatory obligations for those business data services that will remain tariffed. Additionally, the *Business Data*

Services Order adopted an X-factor of two percent and required price cap ILECs to make a one-time filing to revise their TRPs to implement the new X-factor to become effective on December 1, 2017. In particular, the Commission amended section 61.45(b)(1)(iv) of its rules to state that the X-factor shall equal 2 percent effective December 1, 2017. To ease the burden on industry, the only factor that changes in the revised TRPs is the X-factor. Base period demand and the value of GDP-PI will stay constant for this particular filing.
