

Columbia proposes to install one (1) Cat 3520/Ariel high-speed reciprocating compressor unit, rated at 1,480 horsepower. Additionally, Columbia proposes to designate as standby units two (2) existing Waukesha reciprocating compressor units, rated at 250 hp each (Units 2 and 3), which are currently utilized for counterstorage compression. The project will also involve the construction of a new compressor building, new dehydration system, new gas cooler, new separators and scrubbers, new control room building, and new station piping. The project will result in an increase in counterstorage compression of 980 hp. The certificated physical parameters of the Crawford Storage Field will remain unchanged by the proposed modifications. The estimated cost of the project is approximately \$20 million.
