

for more effective HMS management, despite lacking an immediate need. NMFS has listed as a medium priority for all Atlantic HMS species “[examination of] the influence of climate change on range, migration, nursery/pupping grounds, and prey species for Atlantic HMS in general” in Chapter 7 (which itemizes Research Needs) because EFH as a management tool is not useful if the EFH boundaries do not account for shifts in the distribution of managed species.

Comment 26: NMFS should conduct focused research or provide funding to evaluate impacts to Atlantic HMS EFH in the western Gulf of Mexico (specifically, Flower Garden Banks National Marine Sanctuary) and for restoration.

Response: Funding to evaluate EFH impacts to degraded habitats and for habitat restoration is beyond the scope of this Amendment. NOAA staff from the Flower Garden Banks National Marine Sanctuary conduct sanctuary implemented and sanctuary facilitated ecological and biological research, including research focused on habitat. It is beyond the scope of this amendment for the Atlantic HMS Management Division to directly conduct focused research, or for the Atlantic HMS Management Division to direct the Sanctuary to conduct focused research, on Atlantic HMS EFH within Flower Garden Banks National Marine Sanctuary. Interested persons should visit the Flower Garden Banks National Marine Sanctuary Web page for more information on current research programs: <https://flowergarden.noaa.gov/science/research.html>

Title of Collection: Experimental Sites Initiative Reporting Tool 2017.

OMB Control Number: 1845-NEW.

Type of Review: A new information collection.

Respondents/Affected Public: Private Sector; State, Local, and Tribal Governments.

Total Estimated Number of Annual Responses: 300.

Total Estimated Number of Annual Burden Hours: 5,100.

Abstract: The Secretary of the US Department of Education is authorized under Sec. 487A(b) to periodically select a limited number of institutions for voluntary participation as experimental sites under the Experimental Sites Initiatives (ESI) to provide recommendations on the impact and effectiveness of proposed regulations or new management initiatives. The Department approved nine experiments to test ways to address federal objectives and meet the needs of financial aid administrators and federal financial aid recipients. Under the experiments, institutions are given the flexibility to test alternatives to existing requirements so that the Department can analyze the data obtained from participating institutions to validate current practices or to obtain information supportive of regulatory changes or recommendations for legislative change. The collection of this data and the results of these experiments will help the Department in its continuing efforts to improve Title IV program administration.
