

placement sites, measures to reduce the need to dredge and avoidance, minimization, and mitigation measures as needed. As the non-federal sponsors of the Plan, the Sponsor Ports are required to obtain permits for the dredged material placement sites. To satisfy the requirements of NEPA and SEPA, the Corps and Sponsor Ports will be jointly preparing an integrated EIS for the Plan.

Alternatives. The Plan will be developed in accordance with Corps policy to accomplish channel maintenance, including dredged material placement, in the least costly manner that is consistent with sound engineering practice and meets all federal environmental laws. In addition to the No Action Alternative, in which case existing channel maintenance practices will continue in the absence of the Plan, dredged material management alternatives to be considered include: Management of existing sites to extend or expand capacity; various combinations of new sites involving different placement methods, locations and periods of use; measures to reduce dredging requirements, including hydraulic control works and changes to maintenance dimensions. Potential beneficial uses of dredged material (such as fish and wildlife habitat creation and ecosystem restoration) will be assessed. Additional alternatives could be developed during the scoping and evaluation process.

Scoping Process/Public Involvement. The Corps and Sponsor Ports invite all affected federal, state, and local agencies, affected Native American Tribes, and other interested parties to participate in the NEPA and SEPA process during development of the Plan and EIS. The purpose of the public scoping process is to provide information to the public, narrow the scope of analysis to significant environmental issues, and serve as a mechanism to solicit agency and public input on alternatives and issues of concern, and ensure full and open participation in scoping of the Draft EIS. A series of public scoping meetings is scheduled for October 2017. The specific dates, times, and locations of the meetings are provided below.

Public Scoping Meetings:

- Monday, October 2, 2017, 4:00 p.m. to 7:00 p.m., Cowlitz County Event Center, 1900 7th Avenue, Longview, Washington.
- Thursday, October 5, 2017, 4:00 p.m. to 7:00 p.m., Marshall Community Center, 1009 East McLoughlin Boulevard, Vancouver, Washington.
- Friday, October 6, 2017, 4:00 p.m. to 7:00 p.m., Charles Jordan Community

Center, 9009 North Foss Avenue, Portland, Oregon.

- Monday, October 16, 2017, 4:00 p.m. to 7:00 p.m., Meriwether Place, 1070 Columbia Boulevard, St. Helens, Oregon.
- Tuesday, October 17, 2017, 4:00 p.m. to 7:00 p.m., Columbia River Maritime Museum Barbey Maritime Center, 1792 Marine Drive, Astoria, Oregon.
- Thursday, October 19, 2017, 4:00 p.m. to 7:00 p.m., Norse Hall, 444 State Route 4, Puget Island, Cathlamet, Washington.

Upon completion of the scoping process, the Draft Plan/Draft EIS will be developed. The DEIS will then be circulated for public review and comment. The Corps and Sponsor Ports expect to release the Draft EIS for public review and comment in 2018. The Corps will issue a Notice of Availability in the **Federal Register** announcing the release of the Draft EIS for public comment. The Sponsor Ports will publish a Notice of Availability of the Draft EIS for public comment in accordance with SEPA regulations. Documents and other important information related to the Plan/EIS will be available for review on the Corps' project Web site.
