**DEPARTMENT OF JUSTICE**

**Notice of Lodging of Proposed Second Modification to Consent Decree Under The Clean Air Act**

On August 31, 2017, the Department of Justice lodged a proposed second modification to consent decree with the United States District Court for the Southern District of West Virginia in the lawsuit entitled *United States v. Bayer CropScience LP*, Civil Action No. 2:15–cv–13331.

The United States filed this lawsuit under the Clean Air Act. The United States’ complaint alleges that Bayer CropScience violated section 112(r) of the Clean Air Act, 42 U.S.C. 7412(r), which addresses the prevention of accidental releases. The claims arise out of a 2008 explosion at the Methomyl production unit at Bayer CropScience’s plant in Institute, West Virginia. The original consent decree, which was entered by the court on August 9, 2016, required the defendant, Bayer CropScience LP, to pay a civil penalty of \$975,000, to perform injunctive relief to reduce the likelihood of future accidents at the Institute Plant and several other chemical processing plants, and to perform supplemental environmental projects valued collectively at \$4.23 million. The proposed modification replaces one of the supplemental environmental projects, which entailed expanding a wastewater sump, with another project that entails purchasing emergency response equipment. As a result, the total cost of the supplemental environmental projects will decrease to \$3.05 million.

The publication of this notice opens a period for public comment on the proposed second modification to consent decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural

Resources Division, and should refer to *United States v. Bayer CropScience LP*, D.J. Ref. No. 90–5–2–1–10802. All comments must be submitted no later than thirty (30) days after the publication date of this notice. Comments may be submitted either by email or by mail:

**SUPPLEMENTARY INFORMATION:** This ICR seeks to extend PRA authority for the Hoist Operators’ Physical Fitness information collection requirements codified in regulations 30 CFR 56.19057 and 57.19057 that require the annual examination and certification of a hoist operator’s fitness by a qualified, licensed physician that includes documentation and recordkeeping requirements. The safety of all metal and nonmetal miners riding hoist conveyances is largely dependent upon the attentiveness and physical capabilities of the hoist operator. Improper movements, over-speed, and over-travel of a hoisting conveyance can result in serious physical harm or death to all passengers. Federal Mine Safety and Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a) and 813(h).

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is

generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219-0049.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on September 30, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the **Federal Register** on April 12, 2017 (82 FR 17695).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219-0049. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
