

The first page of any filing should include docket number P-13407-004.

k. *Description of currently authorized project:* The authorized but unconstructed project works consist of: (a) An existing 840-foot-long, 18-foot-high timber crib and concrete dam that contains a full-length, uncontrolled spillway having a crest elevation of 607.06 feet North American Vertical Datum of 1988; (b) an existing 628-acre impoundment with a volume of 4,492 acre-feet at the crest elevation of the dam; (c) a new 215-foot-long by 165-foot-wide by 23-foot-deep intake channel to be excavated upstream of the dam to convey flows to be used for generation into the powerhouse; (d) a new 37-foot-long by 80-foot-wide by 52-foot-high intake structure equipped with trashracks containing 2-inch clear bar spacing; (e) a new 160-foot-long by 75-foot-wide by 66-foot-high concrete powerhouse located immediately downstream of the dam on the north river bank containing two 2.5-megawatt horizontal Kaplan turbine/generator units; (f) a new 143.5-foot-long dam abutment located adjacent to the powerhouse to serve as an overflow weir to maintain the existing overflow capacity of the dam; (g) a new 100-foot-long by 125-foot-wide by 24-foot-deep tailrace channel located immediately downstream of the powerhouse to return flows exiting the powerhouse to the Muskingum River; (h) a new 40-foot-long by 40-foot-wide substation located adjacent to the north end of the dam; (i) a new 135-foot-long, 4.16-kilovolt (kV) transmission cable that connects the powerhouse to the substation; (j) a new 1,200-foot-long, 69-kV overhead transmission line that connects the substation to a local utility distribution line; (k) a new 150-foot-long access road and a new 1,800-square-foot parking lot located at the south end of the dam; and (l) appurtenant facilities.

1. *Description of Amendment:* The licensee proposes certain design changes to the project's works as follows: (1) Change the location of the project works from the north side to the south side of the dam; (2) the tailrace channel will be 255-foot-long by 170-foot-wide by 28-foot-deep; and (3) the transmission line will be a 150-foot-long, 4.16-kV transmission line that connects the powerhouse to the substation and a 2,375-foot-long, 69-kV transmission line that connects the substation to the local utility distribution line. Most of the 69-kV transmission line will be submerged behind the dam.

m. *Location of the Application:* A copy of the application is available for inspection and reproduction at the

Commission's Public Reference Room, located at 888 First Street NE., Room 2A, Washington, DC 20426, or by calling (202) 502-8371. The filing may also be viewed on the Commission's Web site at <http://www.ferc.gov/docs-filing/elibrary.asp>. Enter the docket number excluding the last three digits in the docket number field to access the document. You may also register online at <http://www.ferc.gov/docs-filing/esubscription.asp> to be notified via email of new filings and issuances related to this or other pending projects. For assistance, call 1-866-208-3676 or email FERCOnlineSupport@ferc.gov, for TTY, call (202) 502-8659. A copy is also available for inspection and reproduction at the address in item (h) above. Agencies may obtain copies of the application directly from the applicant.

n. Individuals desiring to be included on the Commission's mailing list should so indicate by writing to the Secretary of the Commission.

o. *Comments, Motions to Intervene, or Protests:* Anyone may submit comments, a motion to intervene, or a protest in accordance with the requirements of Rules of Practice and Procedure, 18 CFR 385.210, .211, and .214. In determining the appropriate action to take, the Commission will consider all protests or other comments filed, but only those who file a motion to intervene in accordance with the Commission's Rules may become a party to the proceeding. Any comments, motions to intervene, or protests must be received on or before the specified comment date for the particular application.

p. *Filing and Service of Responsive Documents:* Any filing must (1) bear in all capital letters the title "COMMENTS", "MOTION TO INTERVENE", or "PROTEST" as applicable; (2) set forth in the heading the name of the applicant and the project number of the application to which the filing responds; (3) furnish the name, address, and telephone number of the person protesting or intervening; and (4) otherwise comply with the requirements of 18 CFR 385.2001 through 385.2005. All comments, motions to intervene, or protests must set forth their evidentiary basis. Any filing made by an intervener must be accompanied by proof of service on all persons listed in the service list prepared by the Commission in this proceeding, in accordance with 18 CFR 385.2010.

Electronic Tariff Filings; Notice Regarding Footnotes, Headers, or Footers in Tariff Text in the Commission's E-Tariff System

Take notice that the Commission's electronic tariff system (eTariff) does not reproduce footnotes, headers, or footers in the Real-Text-Format (RTF) tariff text posted on the Commission's Web site (<http://etariff.ferc.gov/TariffList.aspx>).¹ To the extent footnotes, headers or footers are needed in tariff text, filers should enter them separately in the body of the document on each page where needed rather than by using automatic features of the word processing program.

Dated: September 6, 2017.

[Docket No. CP17-491-000]

Perryville Gas Storage LLC; Notice of Application

Take notice that on June 23, 2017, Perryville Gas Storage LLC (Perryville), having its principal place of business at Three Riverway, Suite 1350, Houston, Texas 77056, filed in the above referenced docket an application pursuant to section 7(c) of the Natural Gas Act (NGA), and Part 157 of the Commission's regulations for an order amending the certificate of public convenience and necessity issued in Docket No. CP09-418-000, and amended in Docket Nos. CP11-159-000, CP12-460-000 and CP13-23-000, to authorize Perryville to make certain

¹ This applies to footnotes created programmatically by the word processing software, such as the Insert Footnote Tool in Microsoft Word, and text added to the header or footer areas of a document, such as using the Insert Header or Footer Tool in Microsoft Word or clicking in the header or footer areas of the document.

changes to its certificated project. Perryville proposes to amend its certificate for natural gas storage caverns, located in Franklin and Richland Parishes, Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at FERCOnlineSupport@ferc.gov or call toll-free, (886) 208-3676 or TYY, (202) 502-8659.

Any questions concerning this application may be directed to J. Gordon Pennington, Attorney at Law, 1101 30th Street NW., Suite 500, Washington, DC 20007, at (202) 625-4330, or by email at pennington5@verzion.net.

Specifically, the applicant proposes to amend the requirements of Engineering Condition No. 5 related to periodic sonar survey found in Appendix B of the Certificate issued in Docket No. CP09-418-000 on January 26, 2010 by replacing periodic sonar surveys with the alternative proposed Well and Cavern Integrity Monitoring Program.

Pursuant to section 157.9 of the Commission's rules (18 CFR 157.9), within 90 days of this Notice, the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE., Washington, DC 20426,

a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit seven copies of filings made in the proceeding with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commentators will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commentators will not be required to serve copies of filed documents on all other parties. However, the non-party commentators will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 7 copies of the protest or intervention to the Federal Energy regulatory Commission, 888 First Street NE., Washington, DC 20426.

Comment Date: 5:00 p.m. Eastern Time on September 20, 2017.

Dated: September 5, 2017.

Kimberly D. Bose,
Secretary.
