40 CFR Parts 52, 62, and 70

State of Iowa; Approval and Promulgation of the State Implementation Plan, the 111(d) Plan, and the Operating Permits Program

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve revisions to the Iowa's State Implementation Plan (SIP), the 111(d) plan, and the Operating Permits Program. These revisions update and clarify rules and make minor revisions and corrections. Approval of these revisions will ensure consistency between the state and Federally-approved rules, and ensure Federal enforceability of the state's revised air program rules. In the "Rules and Regulations" section of this Federal Register, we are approving the state's SIP revisions as a direct final rule without a prior proposed rule. EPA is taking direct final action in view of this as a noncontroversial action and anticipate no relevant adverse comment. We have explained our reasons for these actions in the Technical Support Document that is included with this docket. If we receive no adverse comment, we will not take further action on this proposed rule. If we receive adverse comment, we will withdraw the direct final rule and it will not take effect. We will address all public comments in any subsequent final rule based on this proposed rule. We do not intend to institute a second comment period on this action. Any parties interested in commenting must do so at this time. For further information, please see the information provided in the ADDRESSES section of this document.

SUPPLEMENTARY INFORMATION: In the July 20, 2017, issue of the Federal Register (82 FR 33470), the United States Army Corps of Engineers published a document to solicit input from the public to inform evaluation of the United States Army Corps of Engineers existing regulations by the Task Force's United States Army Corps of Engineers Subgroup. Several entities have requested an extension of the comment period. The Corps finds that an extension of the comment period is warranted. Therefore, the comment period for this proposed rule is extended until October 18, 2017.
