

Clean Air Act related to the handling of ammonia, butane, and chlorine at the facility. Finally, the complaint also alleges violations of the CAA, EPCRA, and RCRA that the defendants disclosed to EPA following an audit.

The proposed consent decree requires the defendants to perform injunctive relief, pay a \$6,300,000 civil penalty, and perform a Supplemental Environmental Project benefitting local first responders. The injunctive relief includes: Installing and operating upgrades to the facility's wastewater treatment system; upgrading the facility's oil storage tanks; making improvements to the facility's ammonia refrigeration system to prevent and minimize potential releases; discontinuing use of chlorine gas and a butane filling station at the facility; implementing an environmental management system for the facility; and performing annual third-party compliance audits. The Supplemental Environmental Project requires defendants to purchase and donate certain emergency response equipment to the American Samoa Fire Department.

The publication of this notice opens a period for public comment on the proposed consent decree.
