Abstract: Federal Student Aid has developed the Integrated Partner Management (IPM) system. IPM is the new solution for application processing and financial reporting, that will replace 3 legacy applications. Consolidation of these applications will improve timeliness, data integrity and Department's analysts' ability to get a comprehensive view from one application as opposed to the current disjointed views across multiple applications. The new IPM system will include the application for approval for institutions and financial partners (including lenders) to participate in Federal Student Financial Aid programs. The IPM system will also allow institutions and financial partners participating in the Title IV HEA programs to submit the required audited financial statements and compliance audits. IPM includes significant advances to both partners and FSA analysts in the process used for providing oversight to FSA partners in the Title IV and improvements in the tools and technologies currently in place. IPM will transition a process that is currently heavily paper based to an easy to navigate, automated work-flow process. Under the IPM system the institutions log into a secure Department Web site, enter information pertaining to their eligibility, audit and finances and attach electronic documents to support eligibility, audit and financial statement submissions.
