On April 26, 2017, Texas Gas Transmission, LLC (Texas Gas) filed an application in Docket No. CP17–256–000 requesting authorization pursuant

to Section 7(b) of the Natural Gas Act, to abandon in-place certain compression facilities. The proposed project is known as the Morgan City and Youngsville Compressor Station Abandonment Project (Project), and would consist of abandoning in-place certain facilities at the Morgan City Compressor Station in Assumption Parish, Louisiana, and the Lafayette (referred to as “Youngsville”) Compressor Station in Lafayette Parish, Louisiana. In addition, Texas Gas would relinquish the firm design capacity associated with the Project facilities.

On May 9, 2017, revised on May 19, 2017, the Federal Energy Regulatory Commission (Commission or FERC) issued its Notice of Application for the Project. Among other things, that notice alerted agencies issuing federal authorizations of the requirement to complete all necessary reviews and to reach a final decision on a request for a federal authorization within 90 days of the date of issuance of the Commission staff's Environmental Assessment (EA) for the Project. This instant notice identifies the FERC staff's planned schedule for the completion of the EA for the Project.

Schedule for Environmental Review

Issuance of EA, September 25, 2017
90-day Federal Authorization Decision

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice of Intended Transfer of Confidential Business Information to Contractor.

SUMMARY: The Environmental Protection Agency (EPA) intends to transfer confidential business information (CBI) collected from the steam electric power generating industry to ICF International (ICF). Transfer of the information will allow the contractor to support EPA in its reconsideration of effluent limitations guidelines and standards promulgated for the Steam Electric Power Generating Point Source Category on November 3, 2015. The information being transferred was or will be collected under the authority of section 308 of the Clean Water Act (CWA). Interested persons may submit

comments on this intended transfer of information to the address noted below.

DATES: Comments on the transfer of data are due September 27, 2017.

ADDRESSES: Comments may be sent to M. Ahmar Siddiqui, Document Control Officer, Engineering and Analysis Division (4303T), U.S. EPA, 1200 Pennsylvania Ave. NW., Washington, DC 20460.

FOR FURTHER INFORMATION CONTACT: M. Ahmar Siddiqui, Document Control Officer, at (202) 566-1044, or via email at siddiqui.ahmar@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has transferred CBI to various contractors and subcontractors over the history of the effluent guidelines program under 40 CFR 2.302(h). EPA determined that this transfer was necessary to enable the contractors and subcontractors to perform their work in supporting EPA in planning, developing, and reviewing effluent guidelines and standards for certain industries.

Today, pursuant to 40 CFR 2.302(h)(2), EPA is giving notice that it will be transferring CBI to ICF (located in Fairfax, VA), which operates under contract number EP-C-16-011. The purpose of this transfer is to support economic analysis support for EPA in its reconsideration of effluent limitations guidelines and standards for the Steam Electric Power Generating Point Source Category established in 2015.

All EPA contractor, subcontractor, and consultant personnel are bound by the requirements and sanctions contained in their contracts with EPA and in EPA's confidentiality regulations found at 40 CFR part 2, subpart B. ICF will adhere to an EPA-approved security plan which describes procedures to protect CBI. ICF will apply the procedures in this plan to CBI previously gathered by EPA and to CBI that may be gathered in the future. The security plan specifies that contractor personnel are required to sign non-disclosure agreements and are briefed on appropriate security procedures before they are permitted access to CBI. No person is automatically granted access to CBI: A need to know must exist.

The information that will be transferred to ICF consists of information previously collected by EPA to support the development of effluent limitations guidelines and standards under the CWA for the Steam Electric Power Generating Point Source Category and any that may be collected in the future under the authority of section 308 of the CWA or voluntarily submitted (*e.g.*, in comments in

response to a **Federal Register** notice), as is necessary to enable ICF to support EPA's reconsideration of the aforementioned effluent limitations guidelines and standards.
