BILLING CODE 6560–50–P
treaty citations and web addresses. Over the course of several decades, through various laws, Congress has undertaken the task of codifying U.S. shipping laws into positive law. The two most significant of these acts were Public Law 98–89 (1986), which codified subtitle II of Title 46 into positive law, and Public Law 109–304 (2006), which completed the process of codifying all of Title 46 into positive law. Due to the recodification of Title 46, several 46 CFR part 67 regulations currently contain inaccurate statutory citations. A crosswalk between pre-codified and codified provisions of Title 46 is available in the disposition tables in 46 U.S.C. 2

The changes made by this rule also reflect the elimination of citizenship requirements for mortgagees by Public Law 104–324, section 1113 (1996). Since the issuance of Public Law 104–324, the National Vessel Documentation Center (NVDC) has allowed vessel owners to mortgage their vessels to non-citizens, and it has not restricted the eligibility of a vessel mortgaged to a non-citizen to earn registry or coastwise endorsements, even though 33 CFR 67.17(c) and 67.19(d)(3) continue to explicitly state these restrictions. Therefore, amending these sections will align regulatory text with the current and longstanding 20-year practice of the NVDC, consistent with the statutory requirements, and these changes will result in no impact on industry.

This rule also makes changes to reflect the elimination of renewal decals and address labels for CODs issued by the NVDC. In 2001, the NVDC began to use a new database, Vessel Documentation System 1.0, and introduced the current version of the COD (66 FR 15625, March 20, 2001). This information technology system and recordkeeping form made the use of decals and labels unnecessary; therefore, the NVDC stopped requiring them, even though the relevant sections of part 67 continued to reference them. Amending 46 CFR 67.163(c) and 67.311 will align regulatory text with NVDC’s current practice, and these changes will result in no impact on industry.

The following table shows the complete list of sections in 46 CFR part 67 that we are amending, the changes we are making, the reasons for those changes, and their impacts.

In association with the changes made by the recodification of title 46, the Coast Guard is updating its list of authority citations for 46 CFR part 67. V. Regulatory Analyses

We developed this rule after considering numerous statutes and Executive orders related to rulemaking. Below we summarize our analyses based on these statutes or Executive orders.

A. Regulatory Planning and Review

Executive Orders 12866 (“Regulatory Planning and Review”) and 13563 (“Improving Regulation and Regulatory Review”) direct agencies to assess the costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. Executive Order 13771 (“Reducing Regulation and Controlling Regulatory Costs”) directs agencies to reduce regulation and control regulatory costs and provides that “for every one new regulation identified for elimination, and that the cost of planned regulations be prudently managed and controlled through a budgeting process.” The Office of Management and Budget (OMB) has not designated this rule a significant regulatory action under section 3(f) of Executive Order 12866. Accordingly, OMB has not reviewed it. As this rule is not a significant regulatory action, this rule is exempt from the requirements of Executive Order 13771. See OMB’s Memorandum “Guidance Implementing Executive Order 13771, Titled ‘Reducing Regulation and Controlling Regulatory Costs’” (April 5, 2017). This rule involves non-substantive changes and internal agency practices and procedures; it will not impose any additional costs on the public. The benefit of the non-substantive changes is increased clarity of regulations.

B. Small Entities

This rule is not preceded by a notice of proposed rulemaking and, therefore, is exempt from the requirements of the Regulatory Flexibility Act (5 U.S.C. 601–612). The Regulatory Flexibility Act does not apply when notice and comment rulemaking is not required.

C. Assistance for Small Entities

Under section 213(a) of the Small Business Regulatory Enforcement Fairness Act of 1996 (Pub. L. 104–121), we want to assist small entities in understanding this rule so that they can better evaluate its effects on them. The Coast Guard will not retaliate against small entities that question or complain about this rule or any policy or action of the Coast Guard. Small businesses may send comments on the actions of Federal employees who enforce, or otherwise determine compliance with, Federal regulations to the Small Business and Agriculture Regulatory Enforcement Ombudsman and the Regional Small Business Regulatory Fairness Boards. The Ombudsman evaluates these actions annually and rates each agency’s responsiveness to small business. If you wish to comment on actions by employees of the Coast Guard, call 1–888–REG–FAIR (1–888–734–3247).

D. Collection of Information

This rule calls for no new or modified collection of information under the Paperwork Reduction Act of 1995, 44 U.S.C. 3501–3520.

E. Federalism

A rule has implications for federalism under Executive Order 13132 (“Federalism”) if the rule has a substantial direct effect on State or local governments and would either preempt State law or impose a substantial direct cost of compliance on them. We have analyzed this rule under Executive Order 13132 and have determined that it does not have implications for federalism.

F. Unfunded Mandates Reform Act

The Unfunded Mandates Reform Act of 1995, 2 U.S.C. 1531–1538, requires Federal agencies to assess the effects of their discretionary regulatory actions. In particular, the Act addresses actions that may result in the expenditure by a State, local, or tribal government, in the aggregate, or by the private sector of $100,000,000 (adjusted for inflation) or more in any one year. Though this rule will not result in such an expenditure, we do discuss the effects of this rule elsewhere in this preamble.

3 The most recent disposition tables for Title 46 are available at https://www.gpo.gov/fdsys/pkg/USCODE-2015-title46/pdf/USCODE-2015-title46-front.pdf; Historical and Revision notes for each section are available in the U.S.C. following the code section they accompany.
G. Taking of Private Property

This rule will not cause a taking of private property or otherwise have taking implications under Executive Order 12630, Governmental Actions and Interference with Constitutionally Protected Property Rights.

H. Civil Justice Reform

This rule meets applicable standards in sections 3(a) and 3(b)(2) of Executive Order 12988 (“Civil Justice Reform”), to minimize litigation, eliminate ambiguity, and reduce burden.

I. Protection of Children

We have analyzed this rule under Executive Order 13045 (“Protection of Children from Environmental Health Risks and Safety Risks”). This rule is not an economically significant rule and would not create an environmental risk to health or risk to safety that might disproportionately affect children.

J. Indian Tribal Governments

This rule does not have tribal implications under Executive Order 13175 (“Consultation and Coordination with Indian Tribal Governments”), because it does not have substantial direct effects on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes.

K. Energy Effects

We have analyzed this rule under Executive Order 13211 (“Actions Concerning Regulations That Significantly Affect Energy Supply, Distribution, or Use”). We have determined that it is not a “significant energy action” under that order because it is not a “significant regulatory action” under Executive Order 12866 and is not likely to have a significant adverse effect on the supply, distribution, or use of energy. The Administrator of OMB’s Office of Information and Regulatory Affairs has not designated it as a significant energy action.

L. Technical Standards

The National Technology Transfer and Advancement Act, codified as a note to 15 U.S.C. 272, directs agencies to use voluntary consensus standards in their regulatory activities unless the agency provides Congress, through OMB, with an explanation of why using these standards would be inconsistent with applicable law or otherwise impractical. Voluntary consensus standards are technical standards (e.g., specifications of materials, performance, design, or operation; test methods; sampling procedures; and related management systems practices) that are developed or adopted by voluntary consensus standards bodies. This rule does not use technical standards. Therefore, we did not consider the use of voluntary consensus standards.

M. Environment

We have analyzed this rule under Department of Homeland Security Management Directive 023–01 and Commandant Instruction M16475.1D (COMDTINST M16475.1D), which guide the Coast Guard in complying with the National Environmental Policy Act of 1969 (42 U.S.C. 4321–4370), and have made a determination that this action is one of a category of actions that do not individually or cumulatively have a significant effect on the human environment. A Record of Environmental Consideration supporting this determination is available in the docket. This rule is categorically excluded under Chapter 2, Section B, Paragraph 2 (Categorical Exclusions), and Figure 2–1 (Coast Guard Categorical Exclusions), paragraph 34(a) and 34(d) of the Instruction.

This final rule involves technical amendments to the Coast Guard’s vessel documentation regulations. Certificates of Documentation allow the operation of vessels in certain trades, provide evidence of vessel nationality, and permit vessels to be subject to preferred mortgages. The technical amendments presented in this rulemaking entail editorial or procedural changes that: (1) Align Coast Guard regulations with current vessel documentation statutes; (2) correct non-substantive typographical errors; and (3) harmonize procedural requirements with current Coast Guard practice. These amendments collectively promote the Coast Guard’s maritime safety, security, and environmental protection missions by rendering the Coast Guard’s vessel documentation system more effective.

List of Subjects in 46 CFR Part 67

Reporting and recordkeeping requirements, Vessels.

For the reasons discussed in the preamble, the Coast Guard amends 46 CFR part 67 as follows:

PART 67—DOCUMENTATION OF VESSELS
