AGENCY: Office of Innovation and Improvement, Department of Education.

ACTION: Notice.

SUMMARY: The Acting Assistant Deputy Secretary for Innovation and Improvement extends, for certain prospective eligible applicants described elsewhere in this notice, the deadline date for transmittal of applications for new awards for fiscal year (FY) 2017 under the Promise Neighborhoods program, Catalog of Federal Domestic Assistance Number 84.215N. The Acting Assistant Deputy Secretary takes this action to allow more time for the preparation and submission of applications by prospective eligible applicants affected by the severe storms and flooding beginning on August 25, 2017, in Texas or Louisiana.

The extension of the application deadline date for this competition is intended to help affected eligible applicants compete fairly with other eligible applicants under this competition.

If you use a telecommunications device for the deaf (TDD) or a text telephone (TTY), call the Federal Relay Service (FRS), toll free, at 1–800–877–8339.

SUPPLEMENTARY INFORMATION: On July 21, 2017, we published in the Federal Register (82 FR 33861) a notice inviting applications for new awards for FY 2017 for the Promise Neighborhoods competition (NIA). The application deadline in the NIA was September 5, 2017. We are extending this competition for applicants in Texas or Louisiana in order to allow applicants more time to prepare and submit their applications.

Eligibility: The extension of the application deadline date in this notice applies to eligible applicants under the Promise Neighborhoods program that are located in Texas or Louisiana.

In accordance with the NIA, an eligible applicant for the Promise Neighborhoods program:

(1) Is representative of the geographic area proposed to be served;
(2) Is one of the following:
(a) A nonprofit organization that meets the definition of a nonprofit under 34 CFR 77.1(c), which may include a faith-based nonprofit organization.

Notice of Petition for Waiver of Johnson Controls, Inc. (JCI) From the Department of Energy Central Air Conditioners and Heat Pumps Test Procedure, and Granting of Interim Waiver

ACTION: Notice of petition for waiver, notice of grant an interim waiver, and request for comment.

SUMMARY: This notice announces receipt of and publishes a petition for waiver from JCI seeking an exemption from specified portions of the U.S. Department of Energy (DOE) test procedure for determining the efficiency of central air conditioners (CAC) and heat pumps (HP). According to JCI, testing its CAC and HP basic models that use variable-speed, oil-injected scroll compressors (VSS systems) with only a 20-hour break-in period produces results unrepresentative of their true energy consumption characteristics, and would provide materially inaccurate comparative data. JCI requests that in lieu of the 20-hour break-in limit, it be permitted to test its VSS systems with a 72-hour break-in period. This notice also grants JCI an interim waiver from the DOE CAC and HP test procedure for its specified basic models, subject to use of the alternative test procedure as set forth in this notice. DOE solicits comments, data, and information concerning JCI’s petition and its suggested alternate test procedure.

DATES: DOE will accept comments, data, and information with respect to the JCI Petition until October 20, 2017.

Title III, Part B 1 of the Energy Policy and Conservation Act of 1975 (EPCA), Public Law 94–163 (42 U.S.C. 6291–6309, as codified) established the Energy Conservation Program for Consumer Products Other Than Automobiles, which includes central air conditioners and heat pumps.2 Part B includes definitions, test procedures, labeling provisions, energy conservation standards, and the authority to require information and reports from manufacturers. Further, Part B requires the Secretary of Energy to prescribe test procedures that are reasonably designed to produce results that measure energy efficiency, energy use, or estimated operating costs during a representative average-use cycle, and that are not unduly burdensome to conduct. (42 U.S.C. 6293(b)(3)) The test procedure for central air conditioners and heat pumps is contained in 10 CFR part 430, subpart B, appendix M (referred to in this notice

1 For editorial reasons, upon codification in the U.S. Code, Part B was redesignated as Part A.
