[EPA-R07-OAR-2017-0512; FRL-9967-96-Region 7]

Air Plan Promulgation and Approval; Kansas; Revisions to the Construction Permits and Approvals Program**AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Proposed rule.

SUMMARY: Environmental Protection Agency (EPA) is proposing to approve revisions to the Kansas State Implementation Plan (SIP) and the 112(l) program submitted on December 5, 2016, by the State of Kansas. In the “Rules and Regulations” section of this **Federal Register**, we are approving the State’s SIP revisions as a direct final rule without a prior proposed rule. If we receive no adverse comment, we will not take further action on this proposed rule. The submission revises Kansas’ construction permit rules. Specifically, these revisions implement the revised National Ambient Air Quality Standard (NAAQS) for fine particulate matter; clarify and refine applicable criteria for sources subject to the construction permitting program; update the construction permitting program fee structure and schedule; and make minor revisions and corrections. Approval of these revisions will not impact air quality, ensures consistency between the State and Federally-approved rules, and ensures Federal enforceability of the State’s rules.
