[Docket No. CP17-257-000]

WBI Energy Transmission, Inc.; Notice of Availability of the Environmental Assessment for the Proposed Valley Expansion Project

The staff of the Federal Energy Regulatory Commission (FERC or Commission) has prepared an environmental assessment (EA) for the Valley Expansion Project, proposed by WBI Energy Transmission, Inc. (WBI Energy) in the above-referenced docket. WBI Energy requests authorization to construct, operate, and maintain new natural gas facilities in Clay County, Minnesota and Cass, Barnes, Stutsman, and Burleigh Counties, North Dakota.

The EA assesses the potential environmental effects of the construction and operation of the Valley Expansion Project in accordance with the requirements of the National Environmental Policy Act (NEPA). The FERC staff concludes that approval of the proposed project, with appropriate mitigating measures, would not constitute a major federal action significantly affecting the quality of the human environment.

The proposed Valley Expansion Project includes the following facilities:

- About 37.3 miles of 16-inch-diameter pipeline in Clay County, Minnesota and Cass County, North Dakota;
- a new interconnect at the tie-in with the existing Viking Gas Transmission Company Pipeline in Clay County, Minnesota;
- a new 3,000-horsepower compressor station to tie into WBI

Energy's existing Mapleton Town Border Station and Line Section No. 24 in Cass County, North Dakota;

- a new regulator station in Barnes County, North Dakota;
- replacement of the existing Jamestown Town Border Station in Stutsman County, North Dakota; and
- replacement of the Apple Valley Town Border Station in Burleigh County, North Dakota.

The FERC staff mailed copies of the EA to federal, state, and local government representatives and agencies; elected officials; Native American tribes; potentially affected landowners and other interested individuals and groups; and newspapers and libraries in the project area. In addition, the EA is available for public viewing on the FERC's Web site (www.ferc.gov) using the eLibrary link. A limited number of copies of the EA are available for distribution and public inspection at: Federal Energy Regulatory Commission, Public Reference Room, 888 First Street NE., Room 2A, Washington, DC 20426 (202) 502-8371.

Any person wishing to comment on the EA may do so. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. The more specific your comments, the more useful they will be. To ensure that the Commission has the opportunity to consider your comments prior to making its decision on this project, it is important that we receive your comments in Washington, DC on or before October 20, 2017.

For your convenience, there are three methods you can use to file your comments with the Commission. In all instances, please reference the project docket number (CP17-257-000) with your submission. The Commission encourages electronic filing of comments and has expert staff available to assist you at (202) 502-8258 or FercOnlineSupport@ferc.gov.

(1) You can file your comments electronically using the eComment feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. This is an easy method for submitting brief, text-only comments on a project;

(2) You can also file your comments electronically using the eFiling feature on the Commission's Web site (www.ferc.gov) under the link to Documents and Filings. With eFiling, you can provide comments in a variety of formats by attaching them as a file with your submission. New eFiling users must first create an account by clicking on eRegister.
