the Integrated Safety Analysis are submitted annually.

6. *Who will be required or asked to respond:* Applicants for and holders of specific and General Licenses to receive title to, own, acquire, deliver, receive, possess, use, or initially transfer special nuclear material.

7. *The estimated number of annual responses:* 1,620.

10. *Abstract:* Part 70 of title 10 of the *Code of Federal Regulations* (10 CFR), establishes requirements for licensees to own, acquire, receive, possess, use, and transfer special nuclear material. The information in the applications, reports, and records is used by the NRC to make licensing and or regulatory determinations concerning the use of special nuclear material.
