SUPPLEMENTARY INFORMATION:

Background: The Advisory Board was
established under the Energy Employees
Occupational Illness Compensation
Program Act of 2000 to advise the
President on a variety of policy and
technical functions required to
implement and effectively manage the
new compensation program. Key
functions of the Advisory Board include
providing advice on the development of
probability of causation guidelines that
have been promulgated by the
Department of Health and Human
Services (HHS) as a final rule; advice on
methods of dose reconstruction, which
have also been promulgated by HHS as
a final rule; advice on the scientific
validity and quality of dose estimation
and reconstruction efforts being
performed for purposes of the
compensation program; and advice on
petitions to add classes of workers to the
Special Exposure Cohort (SEC).

In December 2000, the President
delegated responsibility for funding,
staffing, and operating the Advisory
Board to HHS, which subsequently
delegated this authority to CDC. NIOSH
implements this responsibility for CDC.
The charter was issued on August 3,
2001, renewed at appropriate intervals,
rechartered on March 22, 2016,
