### SUPPLEMENTARY INFORMATION:

#### A. Purpose

In December 2015, the Fixing America’s Surface Transportation (FAST) Act outlined a set of fundamental requirements designed to change the way Federal government agencies carry out their permitting and environmental review responsibilities for major infrastructure projects. Section 41003(a)(1)(A) of the FAST Act states that a “project sponsor of a covered project shall submit to the Executive Director and the facilitating agency

notice of the initiation of a proposed covered project.” The statute goes on to describe the required information to be contained in this notice of initiation.

In order to accommodate this statutory requirement, the Federal Permitting Improvement Steering Council (FPISC) has developed the Notice of Initiation form. The information collected via the Notice of Initiation form will be reviewed by the facilitating agency, as identified for the particular type of project under consideration, as well as the Executive Director of the FPISC in order to verify that the project in question qualifies to be considered a “covered project.” If the project outlined in the Notice of Initiation is accepted as a covered project, the project will be added to the online Permitting Dashboard and a series of steps will be taken by the facilitating agency and the Executive Director as outlined in Title XLI of the FAST Act.
