

for those roads and trails that does not require redundant analysis.

Collectively, these changes will be analyzed and incorporated into the revised DEIS, which will be circulated for public comment. The previous public comments and analysis will be used as the foundation for this revision. At the time that the revised DEIS is circulated, the public will have the opportunity to comment on the entire DEIS, including portions that have not been revised.

Preliminary Issues

The Forest analyzed all scoping comments received in 2007 to identify issues, which are defined as cause-effect relationships directly or indirectly caused by implementing the proposed action. The issues defined as within the scope of the project, and directly or indirectly caused by implementing the proposal, were used to develop the range of action alternatives. Four issues were identified: (1) Restricting motorized access for dispersed camping; (2) restricting motorized big game retrieval; (3) impacts to resources from motorized use; and, (4) economics: loss of revenues and jobs.

Proposed Action

The revised proposed action would designate a system of roads, trails, and areas for motorized use as well as motorized access for dispersed camping and motorized access for big game retrieval. The road system would have 15 percent fewer roads and 68 percent more motorized trails than the current system. That would result in 2,890 miles of NFS roads open to public motorized travel, including 2,143 miles of roads that are open to both highway legal and off-highway vehicles. Also, this would result in 270 miles of motorized trails across the Forests, with 20 miles open to all vehicles and 182 miles open to vehicles less than 50 inches wide.

The proposed action would designate 300 feet from either side of around 35 percent of the designated open roads (1,027 miles) for the sole purpose of accessing dispersed camping locations with motor vehicles. Motorized big game retrieval would be allowed within a 1-mile distance off the designated road and motorized trail system (1.2 million acres) for elk. No other species would be retrieved using motor vehicles. There would be one motorized use area designated (17 acres). All other cross country travel would be prohibited.

Possible Alternatives

The revised DEIS will analyze three alternatives in detail. These revised

alternatives used the 2010 DEIS as a foundation and the public comments received from that DEIS.

Alternative 1 (no action) represents the existing transportation system and proposes no changes. The existing system includes 3,418 miles of open roads and 127 miles of motorized trails. Cross-country travel off system roads on around 1.6 million acres would continue, except where currently prohibited. This alternative is not be compliant with the travel management rule because it does not designate a system of roads, trails and areas for motorized use.

Alternative 2 is the Proposed Action, which would designate a system of roads, trails, and areas for motorized use as well as motorized access for dispersed camping and motorized access for big game retrieval. The road system would have 15 percent fewer roads and 68 percent more motorized trails than the current system. That would result in 2,890 miles of NFS roads open to public motorized travel, including 2,143 miles of roads that are open to both highway legal and off-highway vehicles.

Alternative 3 is being designated to address the following issues: (1) Restricting motorized access for dispersed camping; (2) restricting motorized big game retrieval; and, (3) impacts to resources from motorized use.

Scoping Process

The proposed action outlined in this revised NOI is identical to the scope of the proposed action that was originally scoped, and therefore a new scoping period is not required. The original scoping process solicited over 20,000 public comments, which are being used to guide the development of the revised DEIS. Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. Comments submitted anonymously will also be accepted and considered.

Responsible Official

The Responsible Official is the Forest Supervisor of the Apache-Sitgreaves National Forests, P.O. Box 640, Springerville, AZ 85938.

Nature of Decision To Be Made

Based on the effects to social, natural, and cultural resources, the Forest Supervisor will decide what changes to make to the current motorized travel system to be compliant with the Travel Management Rule. The decision will also include whether to provide

motorized access for dispersed camping, whether to designate motorized use areas, and whether to provide access for motorized big game retrieval. The Record of Decision, which will be published after analyzing the public's comments, will document the decision with the rationale.

Dated: September 15, 2017.

Jeanne M. Higgins,

Acting Associate Deputy Chief, National Forest System.

BILLING CODE 3411-15-P

DEPARTMENT OF AGRICULTURE

Forest Service

Kemmerer Ranger District; Bridger-Teton National Forest; Wyoming; Kemmerer Grazing and Rangeland Vegetation Management Project

AGENCY: Forest Service, USDA.

ACTION: Revised Notice of Intent to prepare an Environmental Impact Statement.

SUMMARY: The Bridger-Teton National Forest will prepare an Environmental Impact Statement (EIS) to analyze the effects of continued authorization of grazing on 17 sheep allotments on the Kemmerer Ranger District in southwest Wyoming.

DATES: Although comments are accepted at any time, two designated comment periods concerning the scope of the analysis were established: June 26, 2017 through July 26, 2017 and November 17, 2008 through January 2, 2009. Comments will be accepted for an additional 30 days after October 2, 2017. The Draft EIS is expected in June 2018. Following its release, an opportunity to comment on the Draft EIS will be provided. The Final EIS is expected June 2019.

ADDRESSES: Send written comments to Kemmerer Ranger District, 308 U.S. Highway 189 North, Kemmerer, WY 83101. Comments may also be sent via email to comments-intermtn-bridger-teton-kemmerer@fs.fed.us, or via facsimile to 307-828-5135. Please put "Comments on Kemmerer Grazing" in the subject line.

It is important that reviewers provide their comments at such times and in such a way that they are useful to the Agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

FOR FURTHER INFORMATION CONTACT: R. Aaron Zobell, Rangeland Management Specialist, Kemmerer Ranger District, 307-828-5100, richardzobell@fs.fed.us. Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

Ongoing information related to the proposed project can be found on the the project Web page at: <http://www.fs.usda.gov/project/?project=26874>.

SUPPLEMENTARY INFORMATION:

Purpose and Need for Action

A Notice of Intent (NOI) to prepare an EIS was published on November 17, 2008 (73 FR 67835) and April 9, 2010 (75 FR 10144). This NOI updates and supplements the previously published NOI to prepare an EIS and adds one additional allotment, Trespass Creek Allotment. The project area encompasses 181,227 acres of National Forest System lands within Lincoln County of western Wyoming. The 17 allotments included in the analysis are: Aspen Springs; Basin Creek; Buckskin Knoll; Devils Hole; Elk Creek; Green Knoll; Indian Creek; Lake Alice; Lake Mountain; Lower Salt Creek; Pole Creek; Porcupine Creek; Sams-Allen Creek; Smiths Fork; South Fontenelle; Spruce Creek; and Trespass Creek allotments. The analysis contained in the EIS will be used by the responsible official to decide whether or not, and if so, how to authorize livestock grazing and manage rangeland vegetation within the project area.

The purpose of the Kemmerer Grazing and Rangeland Vegetation Management project is to authorize livestock grazing in a manner that will maintain desired conditions or improve resource conditions towards desired conditions. There is a need for continued livestock grazing on the Bridger-Teton National Forest to meet the direction provided by the Bridger Teton Land and Resource Management Plan (Forest Plan) to contribute to the prosperity of communities (Goal 1.1) and provide forage for about 260,000 animal unit months of livestock grazing annually (Objective 1.1(h)). There is also a need to avoid unacceptable effects from livestock use as outlined in the Forest Plan (Goal 4.7) which directs that grazing use of the National Forest sustain or improve overall range, soils, water, wildlife, and recreation values or experiences. The difference between the existing condition and desired condition in terms of livestock grazing

and resource conditions describes the need for federal action. Desired conditions are defined by the Forest Plan, Forest Service Manual, and applicable laws. This effort is undertaken to comply with the 1995 Rescissions Act (Pub. L. 104-19).

Proposed Action

The proposed action is to authorize livestock grazing on 17 allotments within the project area (Aspen Springs; Basin Creek; Buckskin Knoll; Devils Hole; Elk Creek; Green Knoll; Indian Creek; Lake Alice; Lake Mountain; Lower Salt Creek; Pole Creek; Porcupine Creek; Sams-Allen Creek; Smiths Fork; South Fontenelle; Spruce Creek; and Trespass Creek allotments) with updated domestic sheep grazing and rangeland vegetation management direction. Desired conditions are identified. Grazing practices addressing frequency of grazing and rest from grazing would be guided by the amount and diversity of vegetation given the capability of soils, as well as indicators of soil quality such as amount of ground cover, sign of active erosion and healing of headcuts. Other best management practices addressing the timing, duration, and in specific settings the intensity, of use are identified. Adaptive management is part of the proposed action. Identified are: Criteria to guide management, pre-determined optional courses of action used to make adaptive changes in management over time, and the focused monitoring which provides the basis for adjusting management to attain desired resource conditions. Allotment management plans would become part of a term grazing permit and contain the livestock grazing and rangeland vegetation management direction identified by the responsible official's decision.

Possible Alternatives

To date the Bridger-Teton National Forest has identified two alternatives to the proposed action: Alternative A—No Domestic Livestock Grazing, and Alternative B—Continuation of Current Livestock Management. Alternative A would discontinue sheep grazing on the 17 allotments over the next five years with the exception of sheep trailing to other allotments on the Bridger-Teton National Forest and the Caribou National Forest. This alternative will demonstrate the effects of eliminating livestock grazing on the environment and more clearly illustrate the potential effects of implementing any grazing and rangeland vegetation management alternative. Alternative B would continue current grazing management practices including annual adjustments

in authorized livestock numbers and season of use, as needed.

Responsible Official

Kemmerer District Ranger Adrienne Holcomb

Nature of the Decision To Be Made

Whether domestic sheep grazing should be allowed to continue on all, part, or none of the 17 allotments within the project area; and if so, under what management strategy.

Preliminary Issues

Preliminary issues associated with the proposed action include:

- (1) The amount and diversity of vegetation in some locations is less than the current capability of soils;
- (2) Sediment delivery to drainages supporting fisheries, and retention of precipitation on uplands, as evidenced by headcutting/gullies and sign of active erosion; and
- (3) Wildlife values within some aspen stands are minimized by a lack of diverse aspen age classes; in some locations the diversity of herbaceous and shrub species in the understory is also diminished.

Permits or Licenses Required

If a decision is made to authorize regularly scheduled livestock grazing, such grazing must be authorized under a term grazing permit.

Scoping Process

Pursuant to 36 CFR 218.7(a)(2), this proposed project implements the land management plan and is subject to § 218 subparts A and B. Those who submit specific written comments regarding the proposed project during this scoping period or other designated opportunity for public comment in accordance with § 218.5(a) are eligible to object. Issues raised in objections must be based on previously submitted timely, specific written comments regarding the proposed project unless based on new information arising after the designated comment opportunities.

Specific written comments as defined by § 218.2 should be within the scope of the proposed action, have a direct relationship to the proposed action, and must include supporting reasons for the responsible official to consider. It is the responsibility of all individuals and organizations to ensure that their comments are received in a timely manner.

Comments received, including names and addresses of those who comment, will be considered part of the public record on these proposed actions and will be available for public inspection.

Comments submitted anonymously will be accepted and considered; however, anonymous comments will not provide the agency with the ability to provide the respondent with subsequent environmental documents nor provide the respondent with standing to object the subsequent draft decision. Only those who respond to the request for comments or request to be placed on the mailing list will be added to the mailing list for this project.

An objection period will follow the regulation found in § 218.7. For objection eligibility (§ 218.5), only those who have submitted timely, specific written comments during any designated opportunity for public comment may file an objection.

Issues to be raised in objections must be based on previously submitted specific written comments regarding the proposed project and attributed to the objector, unless the issue is based on new information that arose after a designated opportunity to comment (§ 218.8(c)).

Dated: September 12, 2017.

Jeanne M. Higgins,

Acting Associate Deputy Chief, National Forest System.

BILLING CODE 3411-15-P

THE BROADCASTING BOARD OF GOVERNORS

Notice of Public Availability of the Broadcasting Board of Governors FY-2015 Service Contract Analysis and FY-2016 Service Contract Inventory

AGENCY: The Broadcasting Board of Governors.

ACTION: Notice.

SUMMARY: In accordance with Section 743 of Division C of the Consolidated Appropriations Act of 2010, the Broadcasting Board of Governors (BBG) is publishing this notice to advise the public of the availability of its FY-2015 Service Contract Analysis and FY 2016 Service Contract Inventory. They are available on the BBG Web site, through the following link: <https://www.bbg.gov/strategy-and-performance/research-reports/bbg-service-contract-inventory/>. The service contract inventory provides information on service contract actions over \$25,000 made in FY-2016. The information is organized by function to show how contracted resources are distributed throughout the Agency. The inventory has been developed in accordance with guidance on service contract inventories issued on November 5, 2010 and on December 19,

2011 by the Office of Management and Budget, Office of Federal Procurement Policy (OFPP).

FOR FURTHER INFORMATION CONTACT: James McGuirk, Senior Procurement Analyst, IBB Office of Contracts via email at jmcguirk@bbg.gov or at telephone number (202) 382-7840.

Dated: September 27, 2017.

Chris Luer,

Chief, IBB Office of Administration.

BILLING CODE 8610-01-P

COMMISSION ON CIVIL RIGHTS

Notice of Public Meeting of the New Hampshire Advisory Committee

AGENCY: Commission on Civil Rights.

ACTION: Announcement of meeting.

SUMMARY: Notice is hereby given, pursuant to the provisions of the rules and regulations of the U.S. Commission on Civil Rights (Commission), and the Federal Advisory Committee Act (FACA), that a meeting of the New Hampshire Advisory Committee to the Commission will convene by conference call at 11:00 a.m. (EDT) on: Thursday October 26, 2017. The purpose of the meeting is to begin the work on the Valley Street project, including potential panelists, venue, and other details for a future briefing on the project.

DATES: Thursday, October 26, 2017, at 11:00 a.m. EDT.

Public Call-In Information:
Conference call-in number: 1-888-539-3624 and conference call 6145125.

FOR FURTHER INFORMATION CONTACT: Evelyn Bohor, at ero@usccr.gov or by phone at 202-376-7533.

SUPPLEMENTARY INFORMATION: Interested members of the public may listen to the discussion by calling the following toll-free conference call-in number: 1-888-539-3624 and conference call 6145125. Please be advised that before placing them into the conference call, the conference call operator will ask callers to provide their names, their organizational affiliations (if any), and email addresses (so that callers may be notified of future meetings). Callers can expect to incur charges for calls they initiate over wireless lines, and the Commission will not refund any incurred charges. Callers will incur no charge for calls they initiate over land-line connections to the toll-free conference call-in number.

Persons with hearing impairments may also follow the discussion by first

calling the Federal Relay Service at 1-800-977-8339 and providing the operator with the toll-free conference call-in number: 1-888-539-3624 and conference call 6145125.

Members of the public are invited to make statements during the open comment period of the meeting or submit written comments. The comments must be received in the regional office approximately 30 days after each scheduled meeting. Written comments may be mailed to the Eastern Regional Office, U.S. Commission on Civil Rights, 1331 Pennsylvania Avenue, Suite 1150, Washington, DC 20425, faxed to (202) 376-7548, or emailed to Evelyn Bohor at ero@usccr.gov. Persons who desire additional information may contact the Eastern Regional Office at (202) 376-7533.

Records and documents discussed during the meeting will be available for public viewing as they become available at <https://www.facadatabase.gov/committee/meetings.aspx?cid=262>; click the "Meeting Details" and "Documents" links. Records generated from this meeting may also be inspected and reproduced at the Eastern Regional Office, as they become available, both before and after the meetings. Persons interested in the work of this advisory committee are advised to go to the Commission's Web site, www.usccr.gov, or to contact the Eastern Regional Office at the above phone numbers, email or street address.

Agenda

October 26, 2017

- Open—Rollcall
- Project Discussion: Valley Street Jail Venues, Panelists, Other Details
- Open Comment
- Adjourn

Dated: September 27, 2017.

David Mussatt,

Supervisory Chief, Regional Programs Unit.
