

the Northwest Power Act addresses power rates, not transmission rates.²⁴ Thus, Northern California Utilities' arguments that Bonneville's filing is deficient for failing to meet the statutory standards of section 7(k) of the Northwest Power Act and the Commission's regulations promulgated pursuant to section 7(k), specifically 18 CFR 300.14 (2017) and by incorporation 18 CFR 35.13(a)(2) (2017), are irrelevant to our approval on an interim basis of Bonneville's transmission rates for the Southern Intertie.²⁵ The proposed rates therefore will be approved on an interim basis pending our further review. In addition, we note that interim approval allows Bonneville's rates to go into effect subject to refund with interest; the Commission may order refunds with interest if the Commission later determines in its final decision not to approve the rates.²⁶

14. In addition, we will provide an additional period of time for parties to file comments and reply comments on issues related to final confirmation and approval of Bonneville's proposed rates. This will ensure that the record in this proceeding is complete and fully developed. Specifically, if parties wish to file additional comments, they will be due within 30 days of the date of this order. Reply comments are due 20 days thereafter.

The Commission Orders

(A) Interim approval of Bonneville's proposed IS Rates is hereby granted, to become effective on October 1, 2017, through September 30, 2019, subject to refund with interest as set forth in section 300.20(c) of the Commission's regulations, 18 CFR 300.20(c) (2017), pending final action and either their approval or their disapproval.

(B) Within 30 days of the date of this order, parties who wish to do so may file additional comments regarding final confirmation and approval of

can reliably plan on producing, based on estimates that water levels used for power generation will at times be low or critical. That is, nonfirm energy is energy that is available to Bonneville as the result of it [] having water available for power generation. . . .").

²⁴ See 16 U.S.C. 839e(k) (2012) ("Notwithstanding any other provision of this chapter, all rates or rate schedules for the sale of nonfirm electric power. . . ." (emphasis added)).

²⁵ Because section 7(k) of the Northwest Power Act does not govern our review of the rates at issue in this proceeding, section 7(k)'s allowance for a further trial-type evidentiary hearing does not provide a basis for such a trial-type evidentiary hearing here.

²⁶ See 18 CFR 300.20(c) (2017). We further find that Northern California Utilities' arguments that our refund condition will not protect them to be speculative, and their request for the Commission to stay implementation of the rates to be unsupported.

Bonneville's proposed rates. Parties who wish to do so may file reply comments within 20 days thereafter.

(C) The Secretary shall promptly publish this order in the **Federal Register**.

By the Commission.

Issued: September 25, 2017.

Secretary.
