operational complexity and impacting air traffic control as it manages surface movements. The FAA expects continuing discussions with LAWLA, airlines, and other stakeholders on ways to reduce congestion and delay and manage operations more efficiently. LAWLA conducts monthly meetings on construction and other operational issues that include local FAA air traffic control facilities, airlines, and other stakeholders. Such meetings may be the best regular source of construction project updates and the anticipated impacts.

In 2016, the FAA found it could not justify continued Level 3 slot controls at EWR as the operations were consistently below the allocated limits and the airport was underutilized. The FAA changed EWR from Level 3 to Level 2 effective with the winter 2016 scheduling season. The FAA anticipated as a result of the Level 2 decision, an increase in flights which could provide competitive and economic benefits. The FAA also anticipated that with the increase in flights, delays would increase above 2016 levels but would remain within the levels accepted when the FAA established Level 3 in summer 2008. In reviewing schedules for summer 2018, as well as any new requests for winter 2017, the FAA will consider the recent operational performance metrics including the average hourly runway throughput trends.2

Our review of the average adjusted airport runway capacity indicates an average of 79 hourly operations, which is below the limit in the FAA 2008 Order, and below the levels currently scheduled in some hours. For the winter 2016 season, the FAA goal was up to 79 movements in an hour with some reduced levels in adjacent hours to provide recovery periods. This was meant to allow a transition from Level 3 to the first scheduling season as Level 2. For the summer 2018 season, the performance data suggest a similar approach may improve performance. The FAA has determined a scheduling limit of up to 79 flights an hour is appropriate. The FAA will accept flights above that limit provided they were typically operated by the same airline for the summer 2017 season. At the same time, the FAA plans to work with airlines to retain some flights to less congested periods and have some hours to provide recovery periods. The mix of arrivals and departures, offsets for hours that may be above the limits, and the distribution of flights within an hour or adjacent hours will be considered. Beyond baseline flights, the FAA does not intend to approve new flights unless they can be accommodated within the limit. Based on demand for the summer 2017 scheduling season, the FAA anticipates the 1100 to 1259 and 1800 to 0059 UTC hours will be the peak periods without available capacity for new flights. Consistent with the WSG, carriers should be prepared to adjust schedules to meet available capacity in order to minimize potential congestion and delay.

The Level 2 airports also have a separate schedule facilitation process managed by the airport operator or a designated representative for certain types of flights, such as international passenger flights, or at particular terminals or gates. Those processes with the individual airports or terminals will continue separately from, and in addition to, the FAA review of schedules based on runway capacity. Airlines should submit schedule information directly to the airport operator representatives in accordance with the local procedures. The FAA may consider the need to harmonize terminal and runway availability in the schedule review process.

Petition for Exemption; Summary of Petition Received

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of petition for exemption received.

SUMMARY: This notice contains a summary of a petition seeking relief from specified requirements of title 14, Code of Federal Regulations. The purpose of this notice is to improve the public’s awareness of, and participation in, this aspect of the FAA’s regulatory activities. Neither publication of this
notice nor the inclusion or omission of information in the summary is intended to affect the legal status of the petition or its final disposition.

DATES: Comments on this petition must identify the petition docket number involved and must be received on or before October 12, 2017.

ADDRESSES: Send comments identified by docket number FAA–2017–0849 using any of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov and follow the online instructions for sending your comments electronically.
• Mail: Send comments to Docket Operations, M–30; U.S. Department of Transportation (DOT), 1200 New Jersey Avenue SE., Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.
• Hand Delivery or Courier: Take comments to Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.
• Fax: Fax comments to Docket Operations at 202–493–2251.

Privacy: In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to http://www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at http://www.dot.gov/privacy.

Docket: Background documents or comments received may be read at http://www.regulations.gov at any time. Follow the online instructions for accessing the docket or go to the Docket Operations in Room W12–140 of the West Building Ground Floor at 1200 New Jersey Avenue SE., Washington, DC, between 9 a.m. and 5 p.m., Monday through Friday, except Federal holidays.

Thirty Sixth RTCA SC–216 Aeronautical Systems Security Plenary

AGENCY: Federal Aviation Administration (FAA), U.S. Department of Transportation (DOT).

SUMMARY: The FAA is issuing this notice to advise the public of a meeting of Thirty Sixth RTCA SC–216 Plenary.

DATES: The meeting will be held November 13–17, 2017 9:00 a.m.–5:00 p.m. CDT.

ADDRESSES: The meeting will be held at: EASA (Mon–Thu), Avenue de Cortenbergh 100, 1040 Brussels, Belgium, EUROCONTROL (Fri), Rue de la Fusee, 96, 1130 Bruxelles (Haren), Brussels, Belgium.

SUPPLEMENTARY INFORMATION: Pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463, 5 U.S.C., App.), notice is hereby given for a meeting of the Thirty Sixth RTCA SC–216 Plenary. The agenda will include the following:

Monday, November 13, 2017—9:00 a.m.–5:00 p.m. (EASA)
1. Welcome and Administrative Review
2. Introductions
3. Agenda Review
4. Meeting-Minutes Review
5. Review Joint Action List
6. Continuation of Plenary or Working Group Sessions

Tuesday, November 14, 2017—9:00 a.m.–5:00 p.m. (EASA)
Continuation of Plenary or Working Group Sessions

Wednesday, November 15, 2017—9:00 a.m.–5:00 p.m. (EASA)
Continuation of Plenary or Working Group Sessions

Thursday, November 16, 2017—9:00 a.m.–5:00 p.m. (EASA)
Continuation of Plenary or Working Group Sessions

Friday, November 17, 2017—9:00 a.m.–12:00 p.m. (EUROCONTROL)
1. Schedule Update
2. Date, Place and Time of Next Meeting
3. New Business
4. Adjourn Plenary

Attendance is open to the interested public but limited to space availability. With the approval of the chairman, members of the public may present oral statements at the meeting. Persons wishing to present statements or obtain information should contact the person listed in the FOR FURTHER INFORMATION CONTACT section. Members of the public may present a written statement to the committee at any time.

Issued in Washington, DC, on September 27, 2017.
