The notice must include the specific reasons for such suspension, a general description of the plan provisions authorizing the suspension, a copy of the relevant plan provisions, and a statement indicating where the applicable regulations may be

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Powered Platforms for Building Maintenance Standard information collection. Requirements codified in regulations 29 CFR 1910.66 provide that an Occupational Safety and Health Act (OSH Act) covered employer subject to the Standard develop and implement a written emergency action plan for each type of powered platform operation. The plan must explain the emergency procedures to follow upon encountering a disruption of the power supply, equipment failure, or other emergency. More specifically, the Standard requires the employer to develop and maintain a written emergency action plan and work plan for training; affix a load rating plate to each suspended unit; label each emergency electric operating device with instructions for use; attach a tag to one of the fastenings holding a suspension wire rope; and prepare and maintain a written certification record of the inspection and testing of each building-support structure component of a powered platform, powered platform facility, and suspension wire rope.
