

information collection request (ICR) that is described below. The Department of Education is especially interested in public comment addressing the following issues: (1) Is this collection necessary to the proper functions of the Department; (2) will this information be processed and used in a timely manner; (3) is the estimate of burden accurate; (4) how might the Department enhance the quality, utility, and clarity of the information to be collected; and (5) how might the Department minimize the burden of this collection on the respondents, including through the use of information technology. Please note that written comments received in response to this notice will be considered public records.

Title of Collection: Annual Progress Reporting Form for the American Indian Vocational Rehabilitation Services (AIVRS) Program.

OMB Control Number: 1820-0655.

Type of Review: A revision of an existing information collection.

Respondents/Affected Public: State, Local, and Tribal Governments

Total Estimated Number of Annual Responses: 88.

Total Estimated Number of Annual Burden Hours: 968.

Abstract: The Rehabilitation Services Administration (RSA) of the U.S. Department of Education's (ED) Office of Special Education and Rehabilitative Services (OSERS) will use this data collection form to capture the performance data from grantees funded under the American Indian Vocational Rehabilitation Services (AIVRS) program (CFDA # 84.250). RSA and ED will use the information gathered annually to: (a) Comply with reporting requirements under the Education Department General Administration Regulations (EDGAR) 34 CFR part 75.118, (b) provide information annually to Congress on activities conducted under this program, and (c) measure performance on the program in accordance with the program indicators identified in the Government Performance Result Act (GPRA). The proposed changes to the existing form will improve user friendliness, clarity of data questions, and accuracy of data reported. Since the ED no longer collects data regarding common measures, the entire section of the report that collects this data is deleted, further reducing burden. These revisions are not significantly different from the original collection, but are proposed to provide clarity, consistency, and usability. In many areas, the data element language has been modified with direct language instead of passive terminology.
