Texas Eastern Transmission, LP; Notice of Request Under Blanket Authorization

Take notice that on September 28, 2017, Texas Eastern Transmission, LP (Texas Eastern), 5400 Westheimer Court, Houston, Texas 77056–5310, filed in Docket No. CP17–496–000 a prior notice request pursuant to sections 157.205 and 157.208 of the Commission’s regulations under the Natural Gas Act (NGA), and Columbia’s blanket certificate issued in Docket No. CP82–535–000, to offset and replace a segment of its 20-inch-diameter Line 1 pipeline in Linden and Woodbridge, New Jersey at a crossing of the Rahway River (Rahway River Pipe Replacement Project).

Specifically, Texas Eastern proposes to install a new, approximate 1,250-foot section of 20-inch diameter pipeline beneath the Rahway River. The new segment will replace the existing segment of Line 1 pipeline, only a small portion of which will be removed.

Texas Eastern states that the Rahway River Pipe Replacement Project is designed to ensure the continued safe operation of Texas Eastern’s pipeline

facilities. Texas Eastern asserts that the project will have no impact on the certificated capacity of its system, and there will be no abandonment or reduction in service to its customers. Texas Eastern estimates the cost of the project to be approximately \$20 million, all as more fully set forth in the application which is on file with the Commission and open to public inspection. The filing of the EA in the Commission’s public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the

completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff’s FEIS or EA.
