ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R04-OAR-2016-0462; FRL-9969-26—Region 4]

Air Plan Approval; Kentucky; Regional Haze Progress Report

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing approval of a State Implementation Plan (SIP) revision submitted by the Commonwealth of Kentucky through the Kentucky Energy and Environment Cabinet, Division of Air Quality (KDAQ) on September 17, 2014. Kentucky’s September 17, 2014, SIP revision (Progress Report) addresses requirements of the Clean Air Act (CAA or Act) and EPA’s rules that require each state to submit periodic reports describing progress towards reasonable progress goals (RPGs) established for regional haze and a determination of the adequacy of the state’s existing SIP addressing regional haze (regional haze

plan). EPA is finalizing approval of Kentucky’s determination that the Commonwealth’s regional haze plan is adequate to meet these RPGs for the first implementation period covering through 2018 and requires no substantive revision at this time.

DATES: This rule will be effective November 13, 2017.

ADDRESSES: EPA has established a docket for this action under Docket Identification No. EPA-R04-OAR-2016-0462. All documents in the docket are listed on the www.regulations.gov Web site. Although listed in the index, some information may not be publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through www.regulations.gov or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to

schedule your inspection. The Regional Office’s official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

FOR FURTHER INFORMATION CONTACT: Michele Notarianni, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. Ms. Notarianni can be reached by phone at (404) 562-9031 and via electronic mail at notarianni.michele@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

States are required to submit a progress report in the form of a SIP revision during the first implementation period that evaluates progress towards the RPGs for each mandatory Class I federal area¹ (Class I area) within the state and for each Class I area outside the state which may be affected by emissions from within the state. 40 CFR 51.308(g). In addition, the provisions of 40 CFR 51.308(h) require states to submit, at the same time as the 40 CFR

¹ Areas designated as mandatory Class I federal areas consist of national parks exceeding 6000 acres, wilderness areas and national memorial parks exceeding 5000 acres, and all international parks that were in existence on August 7, 1977 (42 U.S.C. 7472(a)). These areas are listed at 40 CFR part 81, subpart D.

51.308(g) progress report, a determination of the adequacy of the state's existing regional haze plan. The progress report is due five years after submittal of the initial regional haze plan. On September 17, 2014, Kentucky submitted its Progress Report which, among other things, detailed the progress made in the first period toward implementation of the long term strategy outlined in the Commonwealth's regional haze plan; the visibility improvement measured at Mammoth Cave National Park (Mammoth Cave), the only Class I area within Kentucky, and at Class I areas outside of the Commonwealth potentially impacted by emissions from Kentucky; and a determination of the adequacy of the Commonwealth's existing regional haze plan.

In a notice of proposed rulemaking (NPRM) published on August 7, 2017 (82 FR 36707), EPA proposed to approve Kentucky's Progress Report. The details of Kentucky's submission and the rationale for EPA's actions are explained in the NPRM. Comments on the proposed rulemaking were due on or before September 6, 2017. EPA received no adverse comments on the proposed action.

II. Final Action

EPA is finalizing approval of Kentucky's September 17, 2014, Progress Report as meeting the applicable regional haze requirements set forth in 40 CFR 51.308(g) and (h).

III. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the Act. Accordingly, this action merely approves state law as meeting federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735,

October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General

of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a "major rule" as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 11, 2017. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. See section 307(b)(2).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen oxides, Particulate matter, Reporting and recordkeeping requirements, Sulfur dioxide, Volatile organic compounds.

Dated: September 28, 2017.

Onis "Trey" Glenn, III,
Regional Administrator, Region 4.

40 CFR part 52 is amended as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart S—Kentucky

■ 2. Section 52.920(e), is amended by adding an entry for "September 2014 Regional Haze Progress Report" at the end of the table to read as follows:

§ 52.920 Identification of plan.

Approval and Promulgation of Air Quality Implementation Plans; Colorado; Revisions to Regulation Number 3

AGENCY: Environmental Protection Agency (EPA).
ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a portion of the State Implementation Plan (SIP) revisions submitted by the State of Colorado on February 25, 2015. The revisions are to Colorado Air Quality Control Commission (Commission) Regulation Number 3, Parts A, B and D. The amendments the EPA is taking final action on include: Revisions to provisions for permitting emissions for particulate matter less than 2.5 micrograms (PM_{2.5}) in Part D, modifications to the provisions for filing revised Air Pollution Emission Notices (APEN) in Part A and updates to public notice publication requirements in Part B. This action is being taken under section 110 of the Clean Air Act (CAA).
DATES: This final rule is effective on November 13, 2017.

ADDRESSES: The EPA has established a docket for this action under Docket Identification Number EPA-R08-OAR-2017-0446. All documents in the docket are listed on the <http://www.regulations.gov> index. Although listed in the index, some information may not be publicly available, e.g., Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, will be publicly available only in hard copy. Publicly available docket materials are available either electronically through <http://www.regulations.gov> or in hard copy at

the Air Program, Environmental Protection Agency (EPA), Region 8, 1595 Wynkoop Street, Denver, Colorado, 80202-1129. The EPA requests that you contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section to view the hard copy of the docket. You may view the hard copy of the docket Monday through Friday, 8:00 a.m. to 4:00 p.m., excluding federal holidays.
FOR FURTHER INFORMATION CONTACT: Kevin Leone, Air Program, U.S. Environmental Protection Agency, Region 8, Mailcode 8P-AR, 1595 Wynkoop, Denver, Colorado 80202-1129, (303) 312-6227, leone.kevin@epa.gov.

SUPPLEMENTARY INFORMATION:

I. Background

Revisions to PM_{2.5} Significant Impact Level (SIL) and Significant Monitoring Concentration (SMC) Provisions

Colorado’s SIP submittal revises the SIL and SMC provisions for PM_{2.5} in the State’s Prevention of Significant Deterioration (PSD) permitting program. Our proposed rulemaking, which was published on August 18, 2017, details the relevant court decisions and the EPA’s corresponding rulemakings regarding PM_{2.5} SILs and SMCs (See 82 FR 39396). As explained in our proposal notice, Colorado’s submittal is consistent with EPA’s revised rules.

Revisions to APEN Reporting

Colorado has revised its APEN reporting requirements to clarify when a revised APEN is required due to a significant change in annual actual emissions. The revision would clarify that the thresholds for determining significant changes are based on an individual emission unit’s actual emissions on a pollutant-by-pollutant basis, not on facility-wide emissions. This revision simplifies and streamlines the requirements for filing revised APENs because the source’s actual annual emissions are the relevant information for inventory and fee purposes when reporting past years’ emissions or reporting significant changes in annual actual emissions. Our proposed rulemaking outlines the

rationale for this revision and provides a detailed example of the revision.

Revisions to Public Notice Requirements

Previously Part B, Section III.C.4., required the State to publish public notice of certain proposed minor source construction permit applications, including sources that apply for a permit to limit the potential to emit criteria pollutants, in a newspaper of general distribution in the area where the proposed project will be located or by other such method reasonably designed to ensure effective public notice. We are approving Colorado’s revision to include other means authorized by state statute and federal regulation that are designed to provide public notice of the applicable permitting action. Please see the notice for our proposed rulemaking for details.

II. Response to Comment

No comments were received on our August 18, 2017 notice of proposed rulemaking.

III. What are the changes that EPA is taking final action to approve?

The EPA is taking final action to approve a portion of the SIP revisions as submitted by Colorado on February 25, 2015, pertaining to PM_{2.5} SILs and SMCs. As explained in our proposed rulemaking, these changes meet the requirements under CAA section 110(l), which states that the EPA cannot approve a SIP revision that interferes with any requirement concerning attainment, reasonable further progress, or any other applicable requirement of the Act. The revisions to the PSD program in Part D, Regulation Number 3 comply with the requirements of 40 CFR 51.166 as revised by the EPA in response to the D.C. Circuit Court of Appeals decision regarding PM_{2.5} SILs and SMCs. See 78 FR 73698.

The EPA is taking final action to approve a portion of the SIP revisions as submitted by Colorado on February 25, 2015, pertaining to revisions to Colorado’s APEN requirements. These revisions, as outlined in our proposed rulemaking, comply with section 110(l) because the revisions are limited to the
