

describing the progress toward reasonable progress goals (RPGs) established for regional haze and a determination of adequacy of the State's existing regional haze SIP. This action is being taken in accordance with the Clean Air Act.

**DATES:** The direct final rule published on August 16, 2017 (82 FR 38834), is withdrawn effective October 13, 2017.

**FOR FURTHER INFORMATION CONTACT:** Anne K. McWilliams, Air Quality Planning Unit, U.S. Environmental Protection Agency, New England Regional Office, 5 Post Office Square—Suite 100, (Mail code OEP05-2), Boston, MA 02109-3912, telephone (617) 918-1697, facsimile (617) 918-0697, email [mcwilliams.anne@epa.gov](mailto:mcwilliams.anne@epa.gov).

**SUPPLEMENTARY INFORMATION:** In the direct final rule, EPA stated that if adverse comments were submitted by September 15, 2017, the rule would be withdrawn and not take effect. EPA received an adverse comment prior to the close of the comment period and, therefore, is withdrawing the direct final rule. EPA will address the comment in a subsequent final action based upon the proposed rule also published on August 16, 2017 (82 FR 38864). EPA will not institute a second comment period on this action.

Dated: September 27, 2017.

**Deborah A. Szaro,**

*Acting Regional Administrator, EPA New England.*

## PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ Accordingly, the amendments to 40 CFR 52.2370 published in the **Federal Register** on August 16, 2017 (82 FR 38834), on page 38838 are withdrawn effective October 13, 2017.

[FR Doc. 2017-22123 Filed 10-12-17; 8:45 am]

**BILLING CODE 6560-50-P**

## ENVIRONMENTAL PROTECTION AGENCY

### 40 CFR Part 52

[EPA-R04-OAR-2017-0436; FRL-9969-36-Region 4]

### Air Plan Approval; AL; VOC Definitions and Particulate Emissions

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Final rule.

**SUMMARY:** The Environmental Protection Agency (EPA) is taking final action to approve changes to the Alabama State

Implementation Plan (SIP) to revise the definition of “volatile organic compounds” (VOCs), correct a typographical error, and remove control of particulate emissions and opacity limits for Talladega County. EPA is approving the SIP revisions submitted by the State of Alabama, through the Alabama Department of Environmental Management (ADEM), on May 19, 2017. This action is being taken pursuant to the Clean Air Act (CAA or Act).

**DATES:** This rule is effective November 13, 2017.

**ADDRESSES:** EPA has established a docket for this action under Docket Identification No. EPA-R04-OAR-2017-0436. All documents in the docket are listed on the [www.regulations.gov](http://www.regulations.gov) Web site. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available either electronically through [www.regulations.gov](http://www.regulations.gov) or in hard copy at the Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. EPA requests that if at all possible, you contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section to schedule your inspection. The Regional Office's official hours of business are Monday through Friday 8:30 a.m. to 4:30 p.m., excluding Federal holidays.

**FOR FURTHER INFORMATION CONTACT:** Richard Wong, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. The telephone number is (404) 562-8726. Mr. Wong can be reached via electronic mail at [wong.richard@epa.gov](mailto:wong.richard@epa.gov).

### SUPPLEMENTARY INFORMATION:

#### I. What action is the Agency taking?

In this rulemaking, EPA is approving changes to the Alabama SIP, submitted by the State on May 19, 2017. The submission revises ADEM Rule 335-3-1-.02—*Definitions* and Rule 335-3-4-.08—*Wood Waste Boilers*. Specifically, this rulemaking revises the definition of VOCs, corrects a typographical error and

removes particulate emission and opacity limits for Talladega County.

## II. Background

On August 16, 2017 (82 FR 38865), EPA proposed to approve the aforementioned changes, among others, to the SIP. This proposed rule accompanied a direct final rule published on the same day in the **Federal Register** (82 FR 38841). EPA received an adverse comment on the direct final rulemaking only on the changes made to Rule 335-3-1-.02 and Rule 335-3-4-.08. Accordingly, EPA is withdrawing the direct final action through a separate action published elsewhere in this issue of the **Federal Register** and is taking final action on the changes to Rule 335-3-1-.02 and Rule 335-3-4-.08 in this final rule.

### A. Rule 335-3-1-.02—*Definitions*

On November 29, 2004, and August 1, 2016, EPA issued final rules revising the definition of VOCs by adding new compounds (tertiary butyl acetate (or t-Butyl acetate) and 1,1,2,2-Tetrafluoro-1-(2,2,2-trifluoroethoxyl) ethane) to the list of those that are considered to be negligibly reactive compounds, and on February 25, 2016 (81 FR 9339), EPA issued a final rule removing recordkeeping, emissions reporting, photochemical dispersion modeling, and inventory requirements for t-Butyl acetate. The State's May 19, 2017, SIP revision adds these compounds to the list of negligibly reactive compounds under ADEM Rule 335-3-1-.02 subpart (gggg). The SIP revision also removes the recordkeeping, emissions reporting, photochemical dispersion modeling, and inventory requirements requirement for t-Butyl acetate. Additionally, the submittal makes a typographical correction under subpart (gggg)(iii). EPA proposes to approve these revisions because they are consistent with the definition of VOC at 40 CFR 51.100(s).

The State's addition of exemptions from the definition of VOCs and removal of recordkeeping, emissions reporting, photochemical dispersion modeling, and inventory requirements for t-butyl acetate are approvable under section 110(l) because they reflect changes to Federal regulations based on findings that the exempted compounds are negligibly reactive. The typographical error correction makes ministerial changes for consistency.

### B. Rule 335-3-4-.08—*Wood Waste Boilers*

Rule 335-3-4-.08—*Wood Waste Boilers* was adopted into the Alabama SIP on April 23, 1974 (39 FR 14338), to provide emission limits based on

available control technologies and included a 0.30 grain per dry standard cubic foot (gr/dscf) emissions limit for boilers burning a combination of wood waste and fossil fuels. On November 24, 1981 (46 FR 57484), EPA finalized a SIP revision allowing pulp mills to operate boilers that burn only wood waste in Talladega County. This change allowed a particulate matter emissions concentration of 0.45 gr/dscf when burning wood waste alone (but total emissions would remain the same provided boilers operate on a reduced rate). On July 11, 1986 (51 FR 25198), EPA approved a revision adding a new paragraph 3 at Rule 335-3-4-.08 that relaxed the allowable emission limit to 0.60 gr/dscf for wood waste boiler sources that operate up to 300 million British thermal unit per hour and tightened allowable emissions for other types of sources in Talladega County. Compliance with the emission limit was determined by an annual stack test. Additionally, an opacity limit of 76 percent was established and would be measured by a transmissometer.

The May 19, 2017, SIP revision removes paragraph 3, applicable only to sources in Talladega County, because the type of source no longer exists in the County or anywhere else in the State. Moreover, if such a source were to begin operating in the future, it would be subject to more stringent requirements under Rule 335-3-4-.08 paragraph 2.

EPA believes that these changes to the regulatory portion of the SIP are consistent with section 110 of the CAA and meet the regulatory requirements pertaining to SIPs. Pursuant to CAA section 110(l), the Administrator shall not approve a revision of a plan if the revision would interfere with any applicable requirement concerning attainment and reasonable further progress (as defined in CAA section 171), or any other applicable requirement of the Act. The State's removal of emissions and opacity requirements for Talladega County is an approvable change under section 110(l) because, should these sources start operating, they would fall under more stringent rules in the SIP.

### III. Response to Comments

*Comment:* EPA received one adverse comment on the direct final rule published on August 16, 2017 (82 FR 38841), and this comment has been included in the Docket for this action. The Commenter stated that EPA should not remove t-Butyl acetate (TBAC) from the list of "volatile organic compounds because "this compound is particularly dangerous and can cause deformations and brain injuries." The Commenter

stated that EPA should maintain the recordkeeping and reporting provisions "to determine whether states are causing deformations or brain injuries in nearby communities." The Commenter also stated EPA should not remove wood burning rules.

*Response:* The State is merely updating the SIP to align with EPA's past rulemakings and reflect the definitions in 40 CFR 51.100(s). EPA issued a final rulemaking on November 29, 2004 (69 FR 69298) that revised the definition of VOC to exclude TBAC as a negligibly reactive compound. Additionally, EPA issued a final rule on February 25, 2016 (81 FR 9339), that removed TBAC recordkeeping, emissions reporting, photochemical dispersion modeling, and inventory requirements for TBAC. EPA acknowledges the comments regarding the health risks associated with TBAC and is continuing to take steps to assess potential risks associated with this compound. In the 2016 EPA rule, EPA discussed the efforts surrounding any future determinations about the health risks associated with TBAC, including noting that data collected through the recordkeeping and reporting requirements did not appear relevant to any such future determinations and that EPA was assessing the health risks from TBAC through its Integrated Risk Information System. This effort is ongoing, and we refer the Commenter to EPA's previous 2016 rulemaking (81 FR 9339, 9341) for more information regarding health risks.

The State removes Rule 335-3-4-.08 paragraph 3, particulate matter emissions limit for wood waste boilers applicable only to Talladega County because such sources no longer operate in the County. If such a source were to begin operating in the future, it would be subject to more stringent requirements under Rule 335-3-4-.08 paragraph 2, applicable statewide. Therefore, the Commenter's statement that such sources should be subject to tighter requirements is true, and EPA has determined that any new source would be subjected to tighter emissions limits, currently approved in the SIP.

### IV. Incorporation by Reference

In this rule, EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is finalizing the incorporation by reference of Rule 335-3-1-.02—*Definitions* and Rule 335-3-4-.08—*Wood Waste Boilers*, effective June 9, 2017. EPA has made, and will continue to make, these materials generally available through [www.regulations.gov](http://www.regulations.gov)

and/or at the EPA Region 4 Office (please contact the person identified in the "For Further Information Contact" section of this preamble for more information). Therefore, these materials have been approved by EPA for inclusion in the SIP, have been incorporated by reference by EPA into that plan, are fully federally-enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of EPA's approval, and will be incorporated by reference by the Director of the Federal Register in the next update to the SIP compilation.<sup>1</sup>

### V. Final Action

EPA is taking final action to approve portions of Alabama's May 19, 2017, submission submitted by the State of Alabama through ADEM. The submission revises Rule 335-3-1-.02—*Definitions* and Rule 335-3-4-.08—*Wood Waste Boilers*.

### VI. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. See 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. This action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);
- is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);
- does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Public Law 104-4);
- does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);
- is not an economically significant regulatory action based on health or

<sup>1</sup> 62 FR 27968 (May 22, 1997).

safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- is not subject to requirements of section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications as specified by Executive Order 13175 (65 FR 67249, November 9, 2000), nor will it impose substantial direct costs on tribal governments or preempt tribal law.

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides

that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by December 12, 2017. Filing a petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. *See* section 307(b)(2).

**List of Subjects in 40 CFR Part 52**

Environmental protection, Air pollution control, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Ozone, Particulate matter, Reporting and recordkeeping requirements, Volatile organic compounds.

Dated: September 29, 2017.

**ENVIRONMENTAL PROTECTION AGENCY****40 CFR Part 52**

[EPA-R04-OAR-2017-0388; FRL-9969-31-Region 4]

**Air Plan Approval: South Carolina; Standards for Volatile Organic Compounds and Oxides of Nitrogen****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Withdrawal of direct final rule.

**SUMMARY:** Due to the receipt of an adverse comment, the Environmental Protection Agency (EPA) is withdrawing a portion of the August 16, 2017, direct final rule that approves changes to South Carolina's state implementation plan (SIP) related to the regulation of volatile organic compounds (VOC) and oxides of nitrogen (NO<sub>x</sub>). EPA will address the comment in a separate final action based upon the proposed rulemaking action, also published on August 16, 2017. EPA will not institute a second comment period on this action.

**DATES:** The amendment to 40 CFR 52.2120(c) at Regulation 62.5, Standard No. 5.2 (amendatory instruction 2.b) published at 82 FR 38828, on August 16, 2017, is withdrawn, effective October 13, 2017.

**FOR FURTHER INFORMATION CONTACT:**

D. Brad Akers, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. Mr. Akers can be reached via telephone at (404) 562-9089 or via electronic mail at [akers.brad@epa.gov](mailto:akers.brad@epa.gov).

**SUPPLEMENTARY INFORMATION:** On August 16, 2017 (82 FR 38825), EPA published a direct final rule approving portions of several SIP revisions submitted by the State of South Carolina, through the South Carolina Department of Health and Environmental Control, on October 1, 2007, June 17, 2013, and January 20, 2016. EPA took a direct final action to approve portions of the October 1, 2007, June 17, 2013, and January 20, 2016, submissions that made changes to Regulation 61-62.5, Standard No. 5—"Volatile Organic Compounds," and Regulation 61-62.5, Standard No. 5.2—"Control of Oxides of Nitrogen (NO<sub>x</sub>)."

In the direct final rule, EPA explained that the Agency was publishing the rule without prior proposal because the Agency viewed the submittal as a non-controversial SIP amendment and anticipated no adverse comments.

Further, EPA explained that the Agency was publishing a separate document in the proposed rules section of the **Federal Register** to serve as the proposal to approve the SIP revisions should an adverse comment be filed. EPA also noted that the rule would be effective generally 30 days after the close of the public comment period, without further notice unless the Agency received adverse comment by the close of the public comment period. EPA explained that if the Agency received such comments, then EPA would publish a document withdrawing the final rule and informing the public that the rule would not take effect. EPA specified, however, that if a comment were received on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. It was also explained that all public comments received would then be addressed in a subsequent final rule based on the proposed rule, and that EPA would not institute a second comment period on this action.

EPA received one adverse comment from a single Commenter on the portion of the direct final rule that made changes to Regulation 61-62.5, Standard No. 5.2 only. As a result of the comment received, EPA is withdrawing only the portion of the direct final rule approving changes to the South Carolina SIP at Regulation 61-62.5, Standard No. 5.2, as submitted in the October 1, 2007, SIP revision. The EPA will address the comment in a separate final action based on the proposed action also published on August 16, 2017 (82 FR 38865). EPA will not open a second comment period for this action.

**List of Subjects in 40 CFR Part 52**

**Air Plan Approval; North Carolina; Air Curtain Burners****AGENCY:** Environmental Protection Agency (EPA).**ACTION:** Withdrawal of direct final rule.

**SUMMARY:** Due to receipt of an adverse comment, the Environmental Protection Agency (EPA) is withdrawing the August 17, 2017, direct final rule that approves portions of North Carolina State Implementation Plan (SIP) revisions related to changes to an air curtain burner regulation. EPA stated in the direct final rules that if EPA received adverse comments by the close of the public comment period, the rules would be withdrawn and not take effect. EPA will address the comment in a subsequent final action based upon the proposed rulemaking action, also published on August 17, 2017.

**DATES:** The direct final rule published August 17, 2017 at 82 FR 39027 is withdrawn, effective October 13, 2017.

**FOR FURTHER INFORMATION CONTACT:**

Nacosta C. Ward, Air Regulatory Management Section, Air Planning and Implementation Branch, Air, Pesticides and Toxics Management Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW., Atlanta, Georgia 30303-8960. Ms. Ward can be reached via telephone at (404) 562-9140, or via electronic mail at [ward.nacosta@epa.gov](mailto:ward.nacosta@epa.gov).

**SUPPLEMENTARY INFORMATION:** On August 17, 2017 (82 FR 39027), EPA published a direct final rulemaking approving portions of SIP revisions submitted by State of North Carolina through the North Carolina Department of Environmental Quality (formerly the North Carolina Department of Environment and Natural Resources), Division of Air Quality. Specifically, EPA took direct final action to approve portions of North Carolina's October 14, 2004, March 24, 2006, and January 31, 2008 submissions that make changes to Regulation 15A NCAC Subchapter 2D—Air Pollution Control Requirements, Section .1904, *Air Curtain Burners*. These SIP revisions were submitted to make changes to the requirements for permits obtained for air curtain burners as defined by 40 CFR 60.2245 through 60.2265, permanent burning sites or materials transported from burning site to burning site; make clarifications to
