

DEPARTMENT OF AGRICULTURE**Agricultural Marketing Service**

[Docket No. AMS-DA-17-0062]

Revision of a Currently Approved Collection**AGENCY:** Agricultural Marketing Service, USDA.**ACTION:** Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Agricultural Marketing Service's (AMS) intention to request approval from the Office of Management and Budget, for a revision of a currently approved collection for the Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Recordkeeping (Subpart B).

DATES: Comments received by December 12, 2017 will be considered.

Additional Information or Comments: Contact Camia Lane, Dairy Grading and Standardization Division, Dairy Programs, Agricultural Marketing Service, U.S. Department of Agriculture, Room 2968—South Building, 1400 Independence Avenue SW., Washington, DC 20250-0230; Telephone: 202-720-1671, Fax: 202-720-2643, Camia.Lane@ams.usda.gov.

SUPPLEMENTARY INFORMATION:

Title: Regulations Governing the Inspection and Grading of Manufactured or Processed Dairy Products—Record Keeping (Subpart B).

OMB Number: 0581-0110.

Expiration Date of Approval: April 30, 2018.

Type of Request: Revision of a currently approved collection.

Abstract: The Agricultural Marketing Act (AMA) of 1946 (7 U.S.C. 1621 *et seq.*) directs the Department to develop programs which will provide for and facilitate the marketing of agricultural products. One of these programs is the USDA voluntary inspection and grading program for dairy products (7 CFR part 58).

Dairy products are graded according to U.S. grade standards by a USDA grader. Dairy processors, buyers, retailers, institutional users, and consumers have requested that such a program be developed to assure the uniform quality of dairy products purchased. In order for any service program to perform satisfactorily, there are regulations for the provider and user. For these reasons, the dairy inspection and grading program regulations were developed and issued

under the authority of the AMA. These regulations are essential to administer the program to meet the needs of the user and to carry out the purposes of the AMA.

The information collection requirements in this request are essential to carry out the intent of the AMA to ensure that dairy products are produced under sanitary conditions and buyers are purchasing a quality product. In order for the General Specifications for Dairy Plants Approved for USDA Inspection and Grading Service to serve the government, industry, and the consumer, laboratory test results must be recorded.

Respondents are not required to submit information to the agency. The records are to be evaluated by a USDA inspector at the time of an inspection. These records include quality tests of each producer, plant records of required tests and analysis, and starter and cheese make records. As an offsetting benefit, the records required by USDA are also records that are routinely used by the inspected facility for their own supervisory and quality control purposes.

Estimate of Burden: Public recordkeeping burden for this collection of information is estimated to average 2.73 hours per response.

Respondents: Dairy products manufacturing facilities.

Estimated Number of Respondents: 369.

Estimated Number of Responses: 369.

Estimated Number of Responses per Respondent: 1.

Estimated Total Annual Burden on Respondents: 1007.

Comments are invited on: (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.

Dated: October 6, 2017.

Bruce Summers,*Acting Administrator, Agricultural Marketing Service.*

Notice of Request for Revision to and Extension of Approval of an Information Collection; Importation of Fresh Blueberry Fruit From Morocco Into the Continental United States

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the regulations for the importation of fresh blueberry fruit from Morocco into the continental United States.

DATES: We will consider all comments that we receive on or before December 12, 2017.

ADDRESSES: You may submit comments by either of the following methods:

- *Federal eRulemaking Portal:* Go to <http://www.regulations.gov/#!docketDetail;D=APHIS-2017-0078>.

- *Postal Mail/Commercial Delivery:* Send your comment to Docket No. APHIS-2017-0078, Regulatory Analysis and Development, PPD, APHIS, Station 3A-03.8, 4700 River Road Unit 118, Riverdale, MD 20737-1238.

Supporting documents and any comments we receive on this docket may be viewed at <http://www.regulations.gov/#!docketDetail;D=APHIS-2017-0078> or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799-7039 before coming.

FOR FURTHER INFORMATION CONTACT: For information on the regulations related to the importation of fresh blueberries from Morocco into the continental United States, contact Ms. Dorothy Wayson, Senior Regulatory Specialist,

Plant Health Programs, Plant Protection and Quarantine, APHIS, 4700 River Road Unit 40, Riverdale, MD 20737–1236; (301) 851–2036. For copies of more detailed information on the information collection, contact Ms. Kimberly Hardy, APHIS' Information Collection Coordinator, at (301) 851–2483.

SUPPLEMENTARY INFORMATION:

Title: Importation of Fresh Blueberry Fruit from Morocco Into the Continental United States.

OMB Control Number: 0579–0421.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. As authorized by the PPA, the Animal and Plant Health Inspection Service regulates the importation of fruits and vegetables into the United States from certain parts of the world as provided in “Subpart—Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–80).

In accordance with § 319.56–69, blueberries from Morocco may be imported into the continental United States under certain conditions to prevent the introduction of plant pests into the United States. These conditions require the use of certain information collection activities, including application for permits to import plants and plant products, appeal of denial or revocation of permit, emergency action notification, notice of arrival, registration of production sites, inspections of crops, and remedial actions by production sites. Also, each consignment of blueberries must be accompanied by a phytosanitary certificate issued by the national plant protection organization (NPPO) of Morocco with an additional declaration stating that the provisions of § 319.56–69 have been met, and that the consignment was inspected prior to export and found free of *Monilinia fructigena*. These actions allow the importation of blueberries from Morocco while continuing to protect the United States against the introduction of plant pests.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as

affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; *e.g.*, permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.63 hours per response.

Respondents: Growers and importers of blueberry fruit from Morocco and the NPPO of Morocco.

Estimated annual number of respondents: 15.

Estimated annual number of responses per respondent: 9.

Estimated annual number of responses: 130.

Estimated total annual burden on respondents: 82 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 6th day of October 2017.

Michael C. Gregoire,

Acting Administrator, Animal and Plant Health Inspection Service.
