

The following individuals will serve as members of the NRC PRB Panel that was established to review appraisals and make recommendations to the appointing and awarding authorities for NRC PRB members:

Brooke P. Clark, Director, Office of Commission Appellate Adjudication
Daniel H. Dorman, Regional Administrator, Region I
Andrea D. Veil, Executive Director, Advisory Committee on Reactor Safeguards

All appointments are made pursuant to Section 4314 of Chapter 43 of Title 5 of the United States Code.

Dated at Rockville, Maryland, this 5th day of October 2017.

For the Nuclear Regulatory Commission.

Miriam L. Cohen,
Secretary, Executive Resources Board.

BILLING CODE 7590-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-81842; File No. SR-NYSEArca-2017-87

Self-Regulatory Organizations; NYSE Arca, Inc.; Notice of Filing of Proposed Rule Change To List and Trade Shares of the JPMorgan Equity Long/Short ETF Under NYSE Arca Rule 8.600-E

October 10, 2017.

Pursuant to Section 19(b)(1)¹ of the Securities Exchange Act of 1934 (“Act”)² and Rule 19b-4 thereunder,³ notice is hereby given that, on September 26, 2017, NYSE Arca, Inc. (the “Exchange” or “NYSE Arca”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the self-regulatory organization. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to list and trade shares of the following under NYSE Arca Equities 8.600-E (“Managed Fund Shares”): JPMorgan Equity Long/Short ETF. The proposed change is available on the Exchange’s Web site at www.nyse.com, at the principal office of

the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the self-regulatory organization included statements concerning the purpose of, and basis for, the proposed rule change and discussed any comments it received on the proposed rule change. The text of those statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant parts of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to list and trade shares (“Shares”) of the following under NYSE Arca Rule 8.600-E, which governs the listing and trading of Managed Fund Shares⁴ on the Exchange:⁵ JPMorgan Equity Long/Short ETF (the “Fund”).⁶

⁴ A Managed Fund Share is a security that represents an interest in an investment company registered under the Investment Company Act of 1940 (15 U.S.C. 80a-1) (“1940 Act”) organized as an open-end investment company or similar entity that invests in a portfolio of securities selected by its investment adviser consistent with its investment objectives and policies. In contrast, an open-end investment company that issues Investment Company Units, listed and traded on the Exchange under NYSE Arca Rule 5.2-E(j)(3), seeks to provide investment results that correspond generally to the price and yield performance of a specific foreign or domestic stock index, fixed income securities index or combination thereof.

⁵ The Commission has previously approved listing and trading on the Exchange of other series of the Trust that are actively managed funds under Rule 8.600-E. *See, e.g.*, Securities Exchange Act Release Nos. 79683 (December 23, 2016) (SR-NYSEArca-2016-82) (order approving a proposed rule change to list and trade shares of the JPMorgan Diversified Event Driven ETF under NYSE Arca Equities Rule 8.600); 77904 (May 25, 2016) (SR-NYSEArca-2016-17) (order approving a proposed rule change to list and trade of shares of the JPMorgan Diversified Alternatives ETF under NYSE Arca Equities Rule 8.600).

⁶ The Trust is registered under the 1940 Act. On July 18, 2017, the Trust filed with the Commission an amendment to its registration statement on Form N-1A under the Securities Act of 1933 (15 U.S.C. 77a) (“Securities Act”) and the 1940 Act relating to the Fund (File Nos. 333-191837 and 811-22903) (the “Registration Statement”). The description of the operation of the Trust and the Fund herein is based, in part, on the Registration Statement. In addition, the Commission has issued an order granting certain exemptive relief to the Trust under the 1940 Act. *See* Investment Company Act Release No. 31990 (February 9, 2016) (“Exemptive Order”). Investments made by the Fund will comply with the conditions set forth in the Exemptive Order.

The Fund is a series of J.P. Morgan Exchange-Traded Fund Trust (“Trust”), a Delaware statutory trust. J.P. Morgan Investment Management Inc. (“Adviser” or “Administrator”) will be the investment adviser to the Fund and also provide administrative services for and oversee the other service providers for the Fund. The Adviser is a wholly-owned subsidiary of JPMorgan Asset Management Holdings Inc., which is an indirect, wholly-owned subsidiary of JPMorgan Chase & Co. (“JPMorgan Chase”), a bank holding company. JPMorgan Distribution Services, Inc. (“Distributor”) will be the distributor of the Fund’s Shares.

Commentary .06 to Rule 8.600-E provides that, if the investment adviser to the investment company issuing Managed Fund Shares is affiliated with a broker-dealer, such investment adviser shall erect a “fire wall” between the investment adviser and the broker-dealer with respect to access to information concerning the composition and/or changes to such investment company portfolio.⁷ In addition, Commentary .06 further requires that personnel who make decisions on the open-end fund’s portfolio composition must be subject to procedures designed to prevent the use and dissemination of material nonpublic information regarding the open-end fund’s portfolio. The Adviser is not registered as a broker-dealer but is affiliated with a broker-dealer and has implemented and will maintain a fire wall with respect to such broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. In the event (a) the Adviser becomes registered as a broker-dealer or

⁷ An investment adviser to an open-end fund is required to be registered under the Investment Advisers Act of 1940 (the “Advisers Act”). As a result, the Adviser and its related personnel are subject to the provisions of Rule 204A-1 under the Advisers Act relating to codes of ethics. This Rule requires investment advisers to adopt a code of ethics that reflects the fiduciary nature of the relationship to clients as well as compliance with other applicable securities laws. Accordingly, procedures designed to prevent the communication and misuse of non-public information by an investment adviser must be consistent with Rule 204A-1 under the Advisers Act. In addition, Rule 206(4)-7 under the Advisers Act makes it unlawful for an investment adviser to provide investment advice to clients unless such investment adviser has (i) adopted and implemented written policies and procedures reasonably designed to prevent violation, by the investment adviser and its supervised persons, of the Advisers Act and the Commission rules adopted thereunder; (ii) implemented, at a minimum, an annual review regarding the adequacy of the policies and procedures established pursuant to subparagraph (i) above and the effectiveness of their implementation; and (iii) designated an individual (who is a supervised person) responsible for administering the policies and procedures adopted under subparagraph (i) above.

¹ 15 U.S.C. 78s(b)(1).

² 15 U.S.C. 78a.

³ 17 CFR 240.19b-4.

newly affiliated with one or more broker-dealers, or (b) any new adviser or sub-adviser is a registered broker-dealer or becomes affiliated with a broker-dealer, it will implement and maintain a fire wall with respect to its relevant personnel or its broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio, and will be subject to procedures designed to prevent the use and dissemination of material non-public information regarding such portfolio.

JPMorgan Equity Long/Short ETF

According to the Registration Statement, the Fund will seek to provide long-term total return. The Fund will seek to profit by exploiting pricing inefficiencies between equity securities by maintaining long and short positions. It will do so based on a systematic investment process. The Adviser believes it has identified (and will continue to identify) a set of investment return sources that have a low correlation to each other and to traditional markets and have distinct risk and return profiles (each a “return factor”).

Under normal market conditions,⁸ the Fund will employ the “Equity Long/Short” strategy to access certain return factors. The strategy will involve simultaneously investing in equities (*i.e.*, investing long) that the Adviser believes are attractive based on relevant return factors and selling equities (selling short) that the Adviser believes are unattractive based on the relevant return factors.

Each return factor represents a potential source of investment return that results from, among other things, assuming a particular risk or taking advantage of a behavioral bias. According to the Registration Statement, the Adviser believes that, in general, the Fund’s investment returns are attributable to the individual contributions of the various return factors. By employing this return factor based approach, the Fund seeks to provide positive total returns over time while maintaining a relatively low correlation with traditional markets.

The exposure to individual return factors may vary based on the market opportunity of the individual return factors. For example, the return factors that the Adviser may utilize include, but are not limited to, the following:

- Value—seek to purchase “cheap” stocks and sell short “expensive” stocks

- Momentum—seek to purchase companies with positive earnings revisions and strong price momentum and sell short stocks with negative earnings revisions and weak price momentum
- Size—seek to purchase small cap stocks and sell short large cap stocks
- Quality—seek to buy high quality stocks and sell short lower ranked stocks

Additional return factors may be identified over time.

The Fund will generally invest its assets globally to gain exposure, either directly or through the use of derivatives, to equity securities (across market capitalizations) in developed markets. The Fund may use both long positions (held directly or through the use of derivative instruments) and short positions (achieved primarily through the use of derivative instruments). The Fund generally will maintain a total net long market exposure under normal market conditions, meaning that the Fund’s aggregate exposure will be greater to instruments that the Adviser expects to outperform. However, the Fund may have net long or net short exposure to one or more industry sectors, individual markets and/or currencies. To the extent that the Fund hedges its currency exposure into the U.S. dollar, it may reduce the effects of currency fluctuations.

The Adviser will make use of derivatives, including swaps, futures, options and forward contracts, in implementing its strategy (see “The Fund’s Use of Derivatives”, below). Under normal market conditions, the Adviser currently expects that a significant portion of the Fund’s exposure will be attained through the use of derivatives in addition to its exposure through direct investment. Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, will primarily be used as an efficient means of implementing a particular strategy in order to gain exposure to a desired return factor. For example, the Fund may use a total return swap to establish both long and short positions in order to gain the desired exposure rather than physically purchasing and selling short each instrument. Derivatives may also be used to increase gain, to effectively gain targeted exposure from its cash positions, to hedge various investments and/or for risk management. As a result of the Fund’s use of derivatives and to serve as collateral, the Fund may hold significant amounts of U.S. Treasury obligations, including Treasury bills, bonds and notes and other obligations

issued or guaranteed by the U.S. Treasury, obligations of other sovereign governments or supranational entities, other short-term investments, including money market funds and foreign currencies in which certain derivatives are denominated.

Under normal market conditions, at least 80% of the Fund’s assets will be invested in equity securities and in derivative instruments that provide exposure to equity securities. “Assets” means net assets, plus the amount of borrowings for investment purposes. The amount that may be invested in any one instrument will vary and generally depend on the return factors employed by the Adviser at that time. As long as the Fund meets its 80% requirement, there are no other stated percentage limitations on the amount that can be invested in any one type of instrument, and the Adviser may, at times, focus on a smaller number of instruments.⁹ The Fund is generally unconstrained by any particular capitalization, style or sector and may invest in any developed region or country. The Fund may have both long and short exposure to these instruments. Given the complexity of the investments and strategies of the Fund, the Adviser will make use of quantitative models and information and data supplied by third parties to, among other things, help determine the portfolio’s weightings among various investments and construct sets of transactions and investments.

The Fund will purchase a particular instrument when the Adviser believes that such instrument will allow the Fund to gain the desired exposure to a return factor. Conversely, the Fund will consider selling a particular instrument when it no longer provides the desired exposure to a return factor. In addition, investment decisions will take into account a return factor’s contribution to the Fund’s overall volatility. In allocating assets, the Adviser seeks to approximately balance risk to the individual return factors over the long term, although the exposure to individual return factors will vary based on, among other things, the opportunity the Adviser sees in each individual return factor.

Principal Investments

For purposes of calculating the percentage of principal investments under this proposed rule change, under normal market conditions, at least 80% of the Fund’s assets will be invested in U.S. and foreign exchange-traded equity

⁸ The term “normal market conditions” is defined in NYSE Arca Rule 8.600–E(c)(5).

⁹ The Fund’s investments would be subject to any applicable percentage limitations in Commentary .01 to NYSE Arca Rule 8.600–E.

securities, derivatives instruments that provide exposure to such equity securities, and currency forward transactions.

The Fund may invest in the following exchange-listed equity securities: U.S. and foreign exchange-listed common stocks of U.S. and foreign corporations, U.S. and foreign exchange-listed preferred stocks of U.S. and foreign corporations, U.S. and foreign exchange-listed warrants of U.S. and foreign corporations, U.S. and foreign exchange-listed rights of U.S. and foreign corporations, and U.S. and foreign exchange-listed master limited partnerships (“MLPs”).

The Fund may purchase and sell U.S. exchange-traded futures on U.S. and foreign equities, U.S. exchange-traded options on U.S. and foreign equity futures, and U.S. exchange-traded futures on U.S. and foreign stock indexes.

The Fund may invest in over-the-counter (“OTC”) and U.S. exchange-traded call and put options on equity securities and equity securities indexes.

The Fund may invest in OTC total return swaps on U.S. and foreign equities and U.S. and foreign equity indexes.

The Fund may invest in forward currency transactions. Such investments consist of non-deliverable forwards (“NDFs”), foreign forward currency contracts,¹⁰ caps and floors.

The Fund may invest in exchange-traded real estate investment trusts (“REITs”). Exchange-listed REITs will be traded on U.S. national securities exchanges and on non-U.S. exchanges.

The Fund may invest in U.S. and foreign exchange-listed and OTC Depository Receipts.¹¹

¹⁰ A foreign currency forward contract is a negotiated agreement between the contracting parties to exchange a specified amount of currency at a specified future time at a specified rate. The rate can be higher or lower than the spot rate between the currencies that are the subject of the contract.

¹¹ Depository Receipts include American Depository Receipts (“ADRs”), Global Depository Receipts (“GDRs”) and European Depository Receipts (“EDRs”). ADRs are receipts typically issued by an American bank or trust company that evidence ownership of underlying securities issued by a foreign corporation. EDRs are receipts issued by a European bank or trust company evidencing ownership of securities issued by a foreign corporation. GDRs are receipts issued throughout the world that evidence a similar arrangement. ADRs, EDRs and GDRs may trade in foreign currencies that differ from the currency the underlying security for each ADR, EDR or GDR principally trades in. Generally, ADRs, in registered form, are designed for use in the U.S. securities markets. EDRs, in registered form, are used to access European markets. GDRs, in registered form, are tradable both in the United States and in Europe and are designed for use throughout the world. No more than 10% of the net assets of the Fund will be invested in ADRs that are not exchange-listed.

The Fund may invest in OTC-traded convertible securities (bonds or preferred stock that can convert to common stock).

The Fund may engage in short sales of equity securities.

Other Investments

While the Fund, under normal market conditions, will invest at least eighty percent (80%) of its assets in the securities and financial instruments described above, the Fund may invest its remaining assets in other assets and financial instruments, as described below.

The Fund may invest in cash and cash equivalents which are investments in money market funds (including funds for which the Adviser and/or its affiliates may serve as investment adviser or administrator), bank obligations,¹² and commercial paper.¹³

The Fund may invest in OTC-traded contingent value rights (“CVRs”).

The Fund may invest in U.S. Government obligations, which may include direct obligations of the U.S. Treasury, including Treasury bills, notes and bonds, all of which are backed as to principal and interest payments by the full faith and credit of the United States, and separately traded principal and interest component parts of such obligations that are transferable through the Federal book-entry system known as Separate Trading of Registered Interest and Principal of Securities (STRIPS) and Coupons Under Book Entry Safekeeping (“CUBES”).

The Fund may invest in U.S. and foreign corporate debt.

The Fund may invest in sovereign obligations, which are investments in debt obligations issued or guaranteed by a foreign sovereign government or its agencies, authorities or political subdivisions. The Fund may also invest in obligations of supranational entities including securities designated or supported by governmental entities to promote economic reconstruction or development of international banking institutions and related government agencies.

The Fund may invest in spot currency transactions.

¹² Bank obligations include the following: Bankers' acceptances, certificates of deposit and time deposits. Bankers' acceptances are bills of exchange or time drafts drawn on and accepted by a commercial bank. Maturities are generally six months or less. Certificates of deposit are negotiable certificates issued by a bank for a specified period of time and earning a specified return. Time deposits are non-negotiable receipts issued by a bank in exchange for the deposit of funds.

¹³ Commercial paper consists of secured and unsecured short-term promissory notes issued by corporations and other entities. Maturities generally vary from a few days to nine months.

The Fund may invest in repurchase and reverse repurchase agreements.

The Fund may invest in Rule 144A securities and Regulation S securities.

Other Restrictions

The Fund's investments, including derivatives, will be consistent with the Fund's investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, while the Fund will be permitted to borrow as permitted under the 1940 Act, the Fund's investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2Xs and 3Xs) of the Fund's primary broad-based securities benchmark index (as defined in Form N-1A).¹⁴

The Fund's Use of Derivatives

The Fund proposes to seek certain exposures through transactions in the specific derivative instruments described above. The derivatives to be used are futures, swaps, forwards and call and put options. Derivatives, which are instruments that have a value based on another instrument, exchange rate or index, may also be used as substitutes for securities in which the Fund can invest. The Fund may use these derivative instruments to increase gain, to effectively gain targeted exposure from its cash positions, to hedge various investments and/or for risk management.

Investments in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies. To limit the potential risk associated with such transactions, the Fund will segregate or “ earmark ” assets determined to be liquid by the Adviser in accordance with procedures established by the Trust's Board of Trustees (the “ Board ”) and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations under derivative instruments. These procedures have been adopted consistent with Section 18 of the 1940 Act and related Commission guidance. In addition, the Fund will include appropriate risk disclosure in its offering documents, including leveraging risk. Leveraging risk is the risk that certain transactions of the Fund, including the Fund's use of derivatives, may give rise to leverage, causing the Fund to be more volatile

¹⁴ The Fund's broad-based securities benchmark index will be identified in a future amendment to the Registration Statement following the Fund's first full calendar year of performance.

than if it had not been leveraged.¹⁵ Because the markets for certain assets, or the assets themselves, may be unavailable or cost prohibitive as compared to derivative instruments, suitable derivative transactions may be an efficient alternative for the Fund to obtain the desired asset exposure.

Creation and Redemption of Shares

The consideration for a purchase of Creation Units will generally be cash, but may consist of an in-kind deposit of a designated portfolio of equity securities and other investments (the "Deposit Instruments") and an amount of cash computed as described below (the "Cash Amount") under some circumstances. The Cash Amount together with the Deposit Instruments, as applicable, are referred to as the "Portfolio Deposit," which represents the minimum initial and subsequent investment amount for a Creation Unit of the Fund. The size of a Creation Unit will be 50,000 Shares and will be subject to change.

In the event the Fund requires Deposit Instruments and a Cash Amount in consideration for purchasing a Creation Unit, the function of the Cash Amount is to compensate for any differences between the net asset value ("NAV") per Creation Unit and the Deposit Amount (as defined below). The Cash Amount would be an amount equal to the difference between the NAV of the Shares (per Creation Unit) and the "Deposit Amount," which is an amount equal to the aggregate market value of the Deposit Instruments. If the Cash Amount is a positive number (the NAV per Creation Unit exceeds the Deposit Amount), the Authorized Participant will deliver the Cash Amount. If the Cash Amount is a negative number (the NAV per Creation Unit is less than the Deposit Amount), the Authorized Participant will receive the Cash Amount. The Administrator, through the National Securities Clearing Corporation ("NSCC"), will make available on each business day, immediately prior to the opening of business on the Exchange (currently 9:30 a.m. Eastern time ("E.T.")), the list of the names and the required number of shares of each Deposit Instrument to be included in the current Portfolio Deposit (based on information at the end of the previous business day), as well as information regarding the Cash Amount for the Fund. Such Portfolio Deposit is applicable, subject to any

adjustments as described below, in order to effect creations of Creation Units of the Fund until such time as the next-announced Portfolio Deposit composition is made available.

The identity and number of the Deposit Instruments and Cash Amount required for the Portfolio Deposit for the Fund changes as rebalancing adjustments and corporate action events are reflected from time to time by the Adviser with a view to the investment objective of the Fund. In addition, the Trust reserves the right to accept a basket of securities or cash that differs from Deposit Instruments or to permit the substitution of an amount of cash (*i.e.*, a "cash in lieu" amount) to be added to the Cash Amount to replace any Deposit Instrument which may, among other reasons, not be available in sufficient quantity for delivery, not be permitted to be re-registered in the name of the Trust as a result of an in-kind creation order pursuant to local law or market convention or for other reasons as described in the Registration Statement, or which may not be eligible for trading by a Participating Party (defined below). In light of the foregoing, in order to seek to replicate the in-kind creation order process, the Trust expects to purchase the Deposit Instruments represented by the cash in lieu amount in the secondary market.

Procedures for Creation of Creation Units

To be eligible to place orders with the Distributor to create Creation Units of the Fund, an entity or person either must be (1) a "Participating Party," *i.e.*, a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the NSCC; or (2) a Depository Trust Company ("DTC") Participant, which, in either case, must have executed an agreement with the Distributor (as it may be amended from time to time in accordance with its terms) ("Participant Agreement"). A Participating Party and DTC Participant are collectively referred to as an "Authorized Participant." All orders to create Creation Units must be received by the Distributor no later than the closing time of the regular trading session on the Exchange ("Closing Time") (ordinarily 4:00 p.m. E.T.), in each case on the date such order is placed in order for creation of Creation Units to be effected based on the NAV of the Fund as determined on such date.

Redemption of Creation Units

Shares may be redeemed only in Creation Units at their NAV next determined after receipt of a redemption request in proper form by the

Distributor, only on a business day and only through a Participating Party or DTC Participant who has executed a Participant Agreement. The Trust will not redeem Shares in amounts less than Creation Units. All orders to redeem Creation Units must be received by the Distributor no later than the Exchange Closing Time (ordinarily 4:00 p.m. E.T.).

Although the Fund will generally pay redemption proceeds in cash, there may be instances when it will make redemptions in-kind. In these instances, the Administrator, through NSCC, makes available immediately prior to the opening of business on the Exchange (currently 9:30 a.m. E.T.) on each day that the Exchange is open for business, the identity of the Fund's assets and/or an amount of cash that will be applicable (subject to possible amendment or correction) to redemption requests received in proper form on that day. With respect to redemptions in-kind, the redemption proceeds for a Creation Unit generally consist of "Redemption Instruments" (which are securities received on redemption) as announced by the Administrator on the business day of the request for redemption, plus cash in an amount equal to the difference between the NAV of the Shares being redeemed, as next determined after a receipt of a request in proper form, and the value of the Redemption Instruments, less the redemption transaction fee and variable fees described below.

Should the Redemption Instruments have a value greater than the NAV of the Shares being redeemed, a compensating cash payment to the Trust equal to the differential plus the applicable redemption transaction fee will be required to be arranged for by or on behalf of the redeeming shareholder. The Fund reserves the right to honor a redemption request by delivering a basket of securities or cash that differs from the Redemption Instruments if, among other reasons, such instruments are not permitted to be re-registered in the name of the customer as a result of an in-kind redemption order pursuant to local law or market convention or for other reasons as described in the Registration Statement, or which may not be eligible for trading by a Participating Party.¹⁶

¹⁵ To mitigate leveraging risk, the Adviser will segregate or "earmark" liquid assets or otherwise cover the transactions that may give rise to such risk.

¹⁶ The Adviser represents that, to the extent the Trust effects the creation or redemption of Shares in cash, such transactions will be effected in the same manner for all Authorized Participants.

Derivatives Valuation Methodology for Purposes of Determining Intra-Day Indicative Value

On each business day, before commencement of trading in Fund Shares on NYSE Arca, the Fund will disclose on its Web site the identities and quantities of the portfolio instruments and other assets held by the Fund that will form the basis for the Fund's calculation of NAV at the end of the business day.

In order to provide additional information regarding the intra-day value of Shares of the Fund, one or more major market data vendors will disseminate every 15 seconds, during the Exchange's Core Trading Session, through the facilities of the Consolidated Tape Association ("CTA") or other widely disseminated means, an updated Portfolio Indicative Value ("PIV") for the Fund as calculated by a third party market data provider.

A third party market data provider will calculate the PIV for the Fund. The third party market data provider may use market quotes if available or may fair value securities against proxies (such as swap or yield curves).

With respect to specific derivatives:

- NDFs and foreign forward currency contracts may be valued intraday using market quotes, or another proxy as determined to be appropriate by the third party market data provider.
- Futures may be valued intraday using the relevant futures exchange data, or another proxy as determined to be appropriate by the third party market data provider.
- Total return swaps may be valued intraday using the underlying asset price, or another proxy as determined to be appropriate by the third party market data provider.
- Exchange listed options may be valued intraday using the relevant exchange data, or another proxy as determined to be appropriate by the third party market data provider.
- OTC options may be valued intraday through option valuation models (e.g., Black-Scholes) or using exchange traded options as a proxy, or another proxy as determined to be appropriate by the third party market data provider.

Disclosed Portfolio

The Fund's disclosure of derivative positions in the applicable Disclosed Portfolio includes information that market participants can use to value these positions intraday. On a daily basis, the Fund will disclose the information regarding the Disclosed Portfolio required under NYSE Arca

Rule 8.600-E (c)(2) to the extent applicable. The Fund's Web site information will be publicly available at no charge.

Impact on Arbitrage Mechanism

The Adviser believes there will be minimal impact to the arbitrage mechanism as a result of the use of derivatives. Market makers and participants should be able to value derivatives as long as the positions are disclosed with relevant information. The Adviser believes that the price at which Shares trade will continue to be disciplined by arbitrage opportunities created by the ability to purchase or redeem creation Shares at their NAV, which should ensure that Shares will not trade at a material discount or premium in relation to their NAV.

The Adviser does not believe there will be any significant impacts to the settlement or operational aspects of the Fund's arbitrage mechanism due to the use of derivatives. Because derivatives generally are not eligible for in-kind transfer, they will typically be substituted with a "cash in lieu" amount when the Fund processes purchases or redemptions of creation units in-kind.

Application of Generic Listing Requirements

The Exchange is submitting this proposed rule change because the portfolio for the Fund will not meet all of the "generic" listing requirements of Commentary .01 to NYSE Arca Rule 8.600-E applicable to the listing of Managed Fund Shares. The Fund's portfolio would meet all such requirements except for those set forth in Commentary .01(e) to NYSE Arca Rule 8.600-E¹⁷ and Commentary .01(b)(3) to NYSE Arca Rule 8.600-E.¹⁸

With respect to Commentary .01(e), the aggregate gross notional value of the

¹⁷ Commentary .01(e) to NYSE Arca Rule 8.600-E provides that a portfolio may hold OTC derivatives, including forwards, options and swaps on commodities, currencies and financial instruments (e.g., stocks, fixed income, interest rates, and volatility) or a basket or index of any of the foregoing; however, on both an initial and continuing basis, no more than 20% of the assets in the portfolio may be invested in OTC derivatives. For purposes of calculating this limitation, a portfolio's investment in OTC derivatives will be calculated as the aggregate gross notional value of the OTC derivatives.

¹⁸ Commentary .01(b)(3) to NYSE Arca 8.600-E provides that an underlying portfolio (excluding exempted securities) that includes fixed income securities shall include a minimum of 13 non-affiliated issuers, provided, however, that there shall be no minimum number of non-affiliated issuers required for fixed income securities if at least 70% of the weight of the portfolio consists of equity securities as described in Commentary .01(a) to Rule 8.600-E.

Fund's investments in OTC derivatives may exceed 20% of Fund assets, calculated based on the aggregate gross notional value of such OTC derivatives.

The Adviser represents that it intends to engage in strategies that utilize foreign currency forward transactions, total return swaps on equities (which swaps may be traded OTC) and OTC options (as described above) based on its investment strategies. Depending on market conditions, the exposure due to these strategies may exceed 20% of the Fund's assets. The Adviser represents further that the foreign exchange forward market is OTC and total return swaps will be traded OTC, and, as such, it is not possible to implement these strategies efficiently using listed derivatives. In addition, use of OTC options on equity securities and equity securities indexes may be an important means to reduce risk in the Fund's equity investments, or, depending on market conditions, to enhance returns of the such investments. If the Fund were limited to investing up to 20% of assets in OTC derivatives, the Fund would have to exclude or underweight these strategies and would be less diversified, concentrating risk in the other strategies it will utilize.

The Adviser represents that the Fund will follow an investment strategy utilized within the JP Morgan Diversified Alternatives ETF, shares of which have previously been approved by the Commission for Exchange listing and trading.¹⁹ As noted above, the Fund may use the derivative instruments described above to increase gain, to effectively gain targeted exposure from its cash positions, to hedge various investments and/or for risk management.

With respect to Commentary .01(b)(3), the Fund's investment in fixed income securities, including corporate debt and OTC-traded convertible securities, will not meet the requirement that a portfolio (excluding exempted securities) that includes fixed income securities shall include a minimum of 13 non-affiliated issuers. The Fund's investment in corporate debt will not exceed 5% of the Fund's assets and the Fund's investment in OTC-traded convertible securities also will not exceed 5% of the Fund's assets. The Adviser believes that it is appropriate to permit a small investment in corporate debt and OTC-traded convertible securities in order to permit the Fund to diversify its investments to enhance investor returns. Because such investments would be de minimis, it would be difficult for the Fund to

¹⁹ See note 5, *supra*.

diversify such investments in order to comply with the requirement that fixed income securities include at least 13 non-affiliated issuers.

The Exchange notes that, other than Commentary .01(e) and Commentary .01(b)(3) to Rule 8.600–E, the Fund will meet all other requirements of Rule 8.600–E.

Availability of Information

The Fund's Web site (www.jpmorganfunds.com), which will be publicly available prior to the public offering of Shares, will include a form of the prospectus for the Fund that may be downloaded. The Fund's Web site will include additional quantitative information updated on a daily basis, including, for the Fund, (1) daily trading volume, the prior business day's reported closing price, NAV and mid-point of the bid/ask spread at the time of calculation of such NAV (the "Bid/Ask Price"),²⁰ and a calculation of the premium and discount of the Bid/Ask Price against the NAV, and (2) data in chart format displaying the frequency distribution of discounts and premiums of the daily Bid/Ask Price against the NAV, within appropriate ranges, for each of the four previous calendar quarters. On each business day, before commencement of trading in Shares in the Core Trading Session on the Exchange, the Adviser will disclose on the Fund's Web site the Disclosed Portfolio for the Fund as defined in NYSE Arca Rule 8.600–E(c)(2) that will form the basis for the Fund's calculation of NAV at the end of the business day.²¹

Investors can also obtain the Trust's Statement of Additional Information ("SAI"), the Fund's Shareholder Reports, and its Form N–CSR and Form N–SAR, filed twice a year. The Trust's SAI and Shareholder Reports are available free upon request from the Trust, and those documents and the Form N–CSR and Form N–SAR may be viewed on-screen or downloaded from the Commission's Web site at www.sec.gov.

Quotation and last sale information for the Shares and for portfolio holdings of the Fund that are U.S. exchange-

listed, including certain options (as described above), common stocks, warrants, rights, MLPs, preferred stocks, REITs, and Depositary Receipts will be available via the CTA high speed line. Quotation and last sale information for such U.S. exchange-listed securities, as well as U.S. exchange-traded futures will be available from the exchange on which they are listed. Quotation and last sale information for exchange-listed options cleared via the Options Clearing Corporation will be available via the Options Price Reporting Authority. Quotation and last sale information for foreign exchange-listed equity securities will be available from the exchanges on which they trade and from major market data vendors, as applicable. Price information for preferred stocks will be available from one or more major market data vendors or from broker-dealers.

Quotation information for OTC options, cash equivalents, swaps, obligations of supranational agencies, money market funds, U.S. Government obligations, U.S. Government agency obligations, sovereign obligations, repurchase and reverse repurchase agreements, and U.S. and foreign corporate debt may be obtained from brokers and dealers who make markets in such securities or through nationally recognized pricing services through subscription agreements. The U.S. dollar value of foreign securities, instruments and currencies can be derived by using foreign currency exchange rate quotations obtained from nationally recognized pricing services. Forwards and spot currency price information will be available from major market data vendors. Price information for OTC Depositary Receipts, CVRs, convertible securities, 144A securities and Regulation S securities is available from major market data vendors.

In addition, the PIV, as defined in NYSE Arca Rule 8.600–E(c)(3), will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Core Trading Session.²² The dissemination of the PIV, together with the Disclosed Portfolio, will allow investors to determine the approximate value of the underlying portfolio of the Fund on a daily basis and will provide a close estimate of that value throughout the trading day.

Trading Halts

With respect to trading halts, the Exchange may consider all relevant factors in exercising its discretion to

halt or suspend trading in the Shares of the Fund.²³ Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Rule 7.12–E have been reached. Trading also may be halted because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares of the Fund inadvisable.

Trading in the Shares will be subject to NYSE Arca Rule 8.600–E(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted.

Trading Rules

The Exchange deems the Shares to be equity securities, thus rendering trading in the Shares subject to the Exchange's existing rules governing the trading of equity securities. Shares will trade on the NYSE Arca Marketplace from 4:00 a.m. to 8:00 p.m. E.T. in accordance with NYSE Arca Rule 7.34–E (Early, Core, and Late Trading Sessions). The Exchange has appropriate rules to facilitate transactions in the Shares during all trading sessions. As provided in NYSE Arca Rule 7.6–E, the minimum price variation ("MPV") for quoting and entry of orders in equity securities traded on the NYSE Arca Marketplace is \$0.01, with the exception of securities that are priced less than \$1.00 for which the MPV for order entry is \$0.0001.

The Shares of the Fund will conform to the initial and continued listing criteria under NYSE Arca Rule 8.600–E. The Exchange represents that, for initial and/or continued listing, the Fund will be in compliance with Rule 10A–3²⁴ under the Act, as provided by NYSE Arca Rule 5.3–E. A minimum of 100,000 Shares of the Fund will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares of the Fund that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time.

Surveillance

The Exchange represents that trading in the Shares will be subject to the existing trading surveillances administered by the Exchange, as well as cross-market surveillances administered by the Financial Industry Regulatory Authority ("FINRA") on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws.²⁵ The Exchange

²⁰ The Bid/Ask Price of the Fund's Shares will be determined using the mid-point of the highest bid and the lowest offer on the Exchange as of the time of calculation of the Fund's NAV. The records relating to Bid/Ask Prices will be retained by the Fund and its service providers.

²¹ Under accounting procedures to be followed by the Fund, trades made on the prior business day ("T") will be booked and reflected in NAV on the current business day ("T+1"). Accordingly, the Fund will be able to disclose at the beginning of the business day the portfolio that will form the basis for the NAV calculation at the end of the business day.

²² Currently, it is the Exchange's understanding that several major market data vendors display and/or make widely available PIVs taken from the CTA or other data feeds.

²³ See NYSE Arca Rule 7.12–E.

²⁴ 17 CFR 240 10A–3.

²⁵ FINRA conducts cross-market surveillances on behalf of the Exchange pursuant to a regulatory

represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws.

The surveillances referred to above generally focus on detecting securities trading outside their normal patterns, which could be indicative of manipulative or other violative activity. When such situations are detected, surveillance analysis follows and investigations are opened, where appropriate, to review the behavior of all relevant parties for all relevant trading violations.

The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares, certain exchange-listed equity securities, certain futures, and certain exchange-traded options with other markets and other entities that are members of the Intermarket Surveillance Group (“ISG”), and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading such securities and financial instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in such securities and financial instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.²⁶ FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s Trade Reporting and Compliance Engine (“TRACE”).

In addition, the Exchange also has a general policy prohibiting the distribution of material, non-public information by its employees.

All statements and representations made in this filing regarding (a) the description of the portfolio, (b) limitations on portfolio holdings or reference assets, or (c) the applicability of Exchange listing rules specified in this rule filing shall constitute continued listing requirements for listing the Shares on the Exchange.

The issuer has represented to the Exchange that it will advise the Exchange of any failure by the Fund to

services agreement. The Exchange is responsible for FINRA’s performance under this regulatory services agreement.

²⁶ For a list of the current members of ISG, see www.isgportal.org. The Exchange notes that not all components of the Disclosed Portfolio for the Fund may trade on markets that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement.

comply with the continued listing requirements, and, pursuant to its obligations under Section 19(g)(1) of the Act, the Exchange will monitor for compliance with the continued listing requirements. If the Fund is not in compliance with the applicable listing requirements, the Exchange will commence delisting procedures under NYSE Arca Rule 5.5–E(m).

Information Bulletin

Prior to the commencement of trading, the Exchange will inform its Equity Trading Permit (“ETP”) Holders in an Information Bulletin (“Bulletin”) of the special characteristics and risks associated with trading the Shares of the Fund. Specifically, the Bulletin will discuss the following: (1) The procedures for purchases and redemptions of Shares in Creation Units (and that Shares are not individually redeemable); (2) NYSE Arca 9.2–E(a), which imposes a duty of due diligence on its ETP Holders to learn the essential facts relating to every customer prior to trading the Shares; (3) the risks involved in trading the Shares during the Early and Late Trading Sessions when an updated PIV will not be calculated or publicly disseminated; (4) how information regarding the PIV and the Disclosed Portfolio is disseminated; (5) the requirement that ETP Holders deliver a prospectus to investors purchasing newly issued Shares prior to or concurrently with the confirmation of a transaction; and (6) trading information.

In addition, the Bulletin will reference that the Fund is subject to various fees and expenses described in the Registration Statement. The Bulletin will discuss any exemptive, no-action, and interpretive relief granted by the Commission from any rules under the Act. The Bulletin will also disclose that the NAV for the Shares of the Fund will be calculated after 4:00 p.m. E.T. each trading day.

2. Statutory Basis

The basis under the Act for this proposed rule change is the requirement under Section 6(b)(5)²⁷ that an exchange have rules that are designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to remove impediments to, and perfect the mechanism of a free and open market and, in general, to protect investors and the public interest.

The Exchange believes that the proposed rule change is designed to prevent fraudulent and manipulative

acts and practices in that the Shares will be listed and traded on the Exchange pursuant to the initial and continued listing criteria in NYSE Arca Rule 8.600–E. The Adviser is not registered as a broker-dealer but is affiliated with a broker-dealer and has implemented and will maintain a fire wall with respect to such broker-dealer affiliate regarding access to information concerning the composition and/or changes to the portfolio. The Exchange represents that trading in the Shares will be subject to the existing trading surveillances administered by the Exchange, as well as cross-market surveillances administered by FINRA on behalf of the Exchange, which are designed to detect violations of Exchange rules and applicable federal securities laws. The Exchange represents that these procedures are adequate to properly monitor Exchange trading of the Shares in all trading sessions and to deter and detect violations of Exchange rules and applicable federal securities laws. The Exchange or FINRA, on behalf of the Exchange, or both, will communicate as needed regarding trading in the Shares, certain exchange-listed equity securities, certain futures, and certain exchange-traded options with other markets and other entities that are members of the ISG, and the Exchange or FINRA, on behalf of the Exchange, or both, may obtain trading information regarding trading such securities and financial instruments from such markets and other entities. In addition, the Exchange may obtain information regarding trading in such securities and financial instruments from markets and other entities that are members of ISG or with which the Exchange has in place a comprehensive surveillance sharing agreement. FINRA, on behalf of the Exchange, is able to access, as needed, trade information for certain fixed income securities held by the Fund reported to FINRA’s TRACE.

The PIV, as defined in NYSE Arca Rule 8.600–E(c)(3), will be widely disseminated by one or more major market data vendors at least every 15 seconds during the Core Trading Session. The Fund may hold up to an aggregate amount of 15% of its net assets in illiquid assets (calculated at the time of investment), deemed illiquid by the Adviser, consistent with Commission guidance.

The Shares of the Fund will conform to the initial and continued listing criteria under NYSE Arca Rule 8.600–E. The Exchange represents that, for initial and/or continued listing, the Fund will be in compliance with Rule 10A–3 under the Act, as provided by NYSE

²⁷ 15 U.S.C. 78f(b)(5).

Arca Rule 5.3–E. A minimum of 100,000 Shares of the Fund will be outstanding at the commencement of trading on the Exchange. The Exchange will obtain a representation from the issuer of the Shares of the Fund that the NAV per Share will be calculated daily and that the NAV and the Disclosed Portfolio will be made available to all market participants at the same time. In addition, a large amount of information is publicly available regarding the Fund and the Shares, thereby promoting market transparency. The Fund's portfolio holdings will be disclosed on its Web site daily after the close of trading on the Exchange and prior to the opening of trading on the Exchange the following day. On a daily basis, the Fund will disclose the information regarding the Disclosed Portfolio required under NYSE Arca Rule 8.600–E (c)(2) to the extent applicable. The Fund's Web site information will be publicly available at no charge.

Investors can also obtain the Trust's SAI, the Fund's Shareholder Reports, and its Form N–CSR and Form N–SAR, filed twice a year. The Trust's SAI and Shareholder Reports are available free upon request from the Trust, and those documents and the Form N–CSR and Form N–SAR may be viewed on-screen or downloaded from the Commission's Web site at www.sec.gov. Quotation and last sale information for the Shares and for portfolio holdings of the Fund that are U.S. exchange listed, including common stocks, preferred stocks, MLPs, REITs, and U.S. exchange-traded ADRs will be available via the CTA high speed line.

The Exchange believes that it is appropriate and in the public interest to allow the Fund to exceed the 20% limit in Commentary .01(e) to Rule 8.600–E of portfolio assets that may be invested in OTC derivatives. Because the Fund, in furtherance of its investment objective, may invest a substantial percentage of its investments in foreign currency forward transactions, total return swaps on equities (which will be traded OTC) and OTC options (as described above), the 20% limit in Commentary .01(e) to Rule 8.600 could result in the Fund being unable to fully pursue its investment objective while attempting to sufficiently mitigate investment risks. The inability of the Fund to adequately hedge its holdings would effectively limit the Fund's ability to invest in certain instruments, or could expose the Fund to additional investment risk. In addition, use of OTC options on equity securities and equity securities indexes may be an important means to reduce risk in the Fund's equity investments. As noted above, the Fund's investments

in derivative instruments will be made in accordance with the 1940 Act and consistent with the Fund's investment objective and policies. To limit the potential risk associated with such transactions, the Fund will segregate or " earmark " assets determined to be liquid by the Adviser in accordance with procedures established by the Trust's Board and in accordance with the 1940 Act (or, as permitted by applicable regulation, enter into certain offsetting positions) to cover its obligations under derivative instruments. These procedures have been adopted consistent with Section 18 of the 1940 Act and related Commission guidance. In addition, the Fund will include appropriate risk disclosure in its offering documents, including leveraging risk. To mitigate leveraging risk, the Adviser will segregate or " earmark " liquid assets or otherwise cover the transactions that may give rise to such risk. Because the markets for certain assets, or the assets themselves, may be unavailable or cost prohibitive as compared to derivative instruments, suitable derivative transactions may be an efficient alternative for the Fund to obtain the desired asset exposure. In addition, OTC derivatives may be tailored more specifically to the assets held by the Fund than available listed derivatives. If the Fund were limited to investing up to 20% of assets in OTC derivatives, the Fund would have to exclude or underweight these strategies and would be less diversified, concentrating risk in the other strategies it will utilize. The Adviser also represents that the Fund will follow an investment strategy utilized within the JP Morgan Diversified Alternatives ETF, shares of which have previously been approved by the Commission for Exchange listing and trading pursuant to Section 19(b)(2) of the Act.²⁸ The Exchange further believes that the Fund would be placed at a competitive disadvantage to the JP Morgan Diversified Alternatives ETF other, [sic] if the Fund's portfolio could not exceed the 20% limit in Commentary .01(e) to Rule 8.600 of portfolio assets that may be invested in OTC derivatives, as described above.

With respect to Commentary .01(b)(3) to Rule 8.600–E, the Exchange believes that it is appropriate and in the public interest to allow the Fund to hold fixed income securities that include fewer than 13 non-affiliated issuers because the Fund's investment in corporate debt will not exceed 5% of the Fund's assets and the Fund's investment in OTC-traded convertible securities also will

not exceed 5% of the Fund's assets. Such investments would be de minimis and, therefore, it could be difficult for the Fund to diversify such investments in order to comply with the requirement that fixed income securities include at least 13 non-affiliated issuers. Because the Fund's investment in such fixed income securities would constitute only a small portion of the Fund's portfolio, the Exchange believes the Fund would not be susceptible to manipulation.

The Exchange notes that, other than Commentary .01(e) and Commentary .01(b)(3) to Rule 8.600–E, the Fund will meet all other requirements of Rule 8.600–E.

The Web site for the Fund will include a form of the prospectus for the Fund and additional data relating to NAV and other applicable quantitative information. Moreover, prior to the commencement of trading, the Exchange will inform its ETP Holders in an Information Bulletin of the special characteristics and risks associated with trading the Shares of the Fund. Trading in Shares of the Fund will be halted if the circuit breaker parameters in NYSE Arca Rule 7.12–E have been reached or because of market conditions or for reasons that, in the view of the Exchange, make trading in the Shares inadvisable, and trading in the Shares will be subject to NYSE Arca Rule 8.600–E(d)(2)(D), which sets forth circumstances under which Shares of the Fund may be halted. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the PIV, the Disclosed Portfolio, and quotation and last sale information for the Shares. The Fund's investments, including derivatives, will be consistent with the Fund's investment objective and will not be used to enhance leverage (although certain derivatives and other investments may result in leverage). That is, while the Fund will be permitted to borrow as permitted under the 1940 Act, the Fund's investments will not be used to seek performance that is the multiple or inverse multiple (e.g., 2Xs and 3Xs) of the Fund's primary broad-based securities benchmark index (as defined in Form N–1A).

The proposed rule change is designed to perfect the mechanism of a free and open market and, in general, to protect investors and the public interest in that it will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that that holds fixed income securities, equity securities and derivatives and that will enhance competition among market participants, to the benefit of

²⁸ See note 5, *supra*.

investors and the marketplace. As noted above, the Exchange has in place surveillance procedures relating to trading in the Shares of the Fund and may obtain information via ISG from other exchanges that are members of ISG or with which the Exchange has entered into a comprehensive surveillance sharing agreement. In addition, as noted above, investors will have ready access to information regarding the Fund's holdings, the PIV, the Disclosed Portfolio for the Fund, and quotation and last sale information for the Shares of the Fund.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purpose of the Act. The Exchange notes that the proposed rule change will facilitate the listing and trading of an additional type of actively-managed exchange-traded product that holds fixed income securities, equity securities and derivatives and that will enhance competition among market participants, to the benefit of investors and the marketplace.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were solicited or received with respect to the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory organization consents, the Commission will:

- (A) By order approve or disapprove the proposed rule change, or
- (B) institute proceedings to determine whether the proposed rule change should be disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an email to rule-comments@sec.gov. Please include File Number SR-NYSEArca-2017-87 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549-1090.

All submissions should refer to File Number SR-NYSEArca-2017-87. This file number should be included on the subject line if email is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>). Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for Web site viewing and printing in the Commission's Public Reference Room, 100 F Street NE., Washington, DC 20549 on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly. All submissions should refer to File Number SR-NYSEArca-2017-87 and should be submitted on or before November 6, 2017.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²⁹

Eduardo A. Aleman,

Assistant Secretary.

BILLING CODE 8011-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-81841; File No. SR-MSRB-2017-07]

Self-Regulatory Organizations; Municipal Securities Rulemaking Board; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change to MSRB Rule A-11, on Assessments for Municipal Advisor Professionals, To Amend the Annual Municipal Advisor Professional Fee

October 10, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act" or "Exchange Act")¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 29, 2017 the Municipal Securities Rulemaking Board ("MSRB" or "Board") filed with the Securities and Exchange Commission ("Commission" or "SEC") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the MSRB. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The MSRB filed with the Commission a proposed rule change to amend MSRB Rule A-11, on assessments for municipal advisor professionals, to increase the annual municipal advisor professional fee from \$300 to \$500 and make other technical changes (the "proposed rule change"). The MSRB has designated the proposed rule change for immediate effectiveness. The MSRB will send the first invoice at the new fee level to firms in April 2018 for payment by April 30, 2018.

The text of the proposed rule change is available on the MSRB's Web site at www.msrb.org/Rules-and-Interpretations/SEC-Filings/2017-Filings.aspx, at the MSRB's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the MSRB included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

²⁹ 17 CFR 200.30-3(a)(12).
