

substantial number of small entities. On January 30, 2015, the DEA published a final order to temporarily place these three substances into schedule I of the CSA pursuant to the temporary scheduling provisions of 21 U.S.C. 811(h). The DEA estimates that all entities handling or planning to handle these substances have already established and implemented the systems and processes required to handle AB-CHMINACA, AB-PINACA or THJ-2201. There are currently 25 registrations authorized to handle AB-CHMINACA, AB-PINACA and/or THJ-2201 specifically, as well as a number of registered analytical labs that are authorized to handle schedule I controlled substances generally. These 25 registrations represent 18 entities, of which 8 are small entities. Therefore, the DEA estimates eight small entities are affected by this rule.

A review of the 25 registrations indicates that all entities that currently handle AB-CHMINACA, AB-PINACA or THJ-2201 also handle other schedule I controlled substances, and have established and implemented (or maintain) the systems and processes required to handle AB-CHMINACA, AB-PINACA or THJ-2201. Therefore, the DEA anticipates that this rule will impose minimal or no economic impact on any affected entities; and thus, will not have a significant economic impact on any of the eight affected small entities. Therefore, the DEA has concluded that this rule will not have a significant effect on a substantial number of small entities.

Unfunded Mandates Reform Act of 1995

In accordance with the Unfunded Mandates Reform Act (UMRA) of 1995, 2 U.S.C. 1501 *et seq.*, the DEA has determined and certifies that this action would not result in any Federal mandate that may result “in the expenditure by State, local, and tribal governments, in the aggregate, or by the private sector, of \$100,000,000 or more (adjusted for inflation) in any one year. . . .” Therefore, neither a Small Government Agency Plan nor any other action is required under UMRA of 1995.

Paperwork Reduction Act of 1995

This action does not impose a new collection of information under the Paperwork Reduction Act of 1995. 44 U.S.C. 3501–3521. This action would not impose recordkeeping or reporting requirements on State or local governments, individuals, businesses, or organizations. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Congressional Review Act

This rule is not a major rule as defined by section 804 of the Small Business Regulatory Enforcement Fairness Act of 1996 (Congressional Review Act (CRA)). This rule will not result in: “an annual effect on the economy of \$100,000,000 or more; a major increase in costs or prices for consumers, individual industries, Federal, State, or local government agencies, or geographic regions; or

significant adverse effects on competition, employment, investment, productivity, innovation, or on the ability of U.S.-based companies to compete with foreign based companies in domestic and export markets.” However, pursuant to the CRA, the DEA has submitted a copy of this final rule to both Houses of Congress and to the Comptroller General.

This deviation allows the bridge to remain in the closed-to-navigation position during the deviation period.

DATES: This deviation is effective from 8 a.m. through noon on October 20, 2017.

ADDRESSES: The docket for this deviation, USCG–2017–0966, is available at <http://www.regulations.gov>. Type the docket number in the

SUPPLEMENTARY INFORMATION: The Port of Los Angeles has requested a temporary change to the operation of the Henry Ford Avenue railroad bridge, mile 4.8, over the Cerritos Channel, at Long Beach, CA. The drawbridge navigation span provides a vertical clearance of 6 feet above Mean High Water in the closed-to-navigation position. The draw operates as required by 33 CFR 117.147(b). Navigation on the waterway is commercial, search and

rescue, law enforcement, and recreational.

The drawspan will be secured in the closed-to-navigation position from 8 a.m. through noon on October 20, 2017, to allow the bridge owner to install necessary electrical equipment inside the bridge machinery room and operator house. This temporary deviation has been coordinated with the waterway users. No objections to the proposed temporary deviation were raised.

Vessels able to pass through the bridge in the closed position may do so at any time. The bridge will not be able to open for emergencies. Los Angeles Harbor can be used as an alternate route for vessels unable to pass through the bridge in the closed position. The Coast Guard will also inform the users of the waterway through our Local and Broadcast Notices to Mariners of the change in operating schedule for the bridge so vessel operators can arrange their transits to minimize any impact caused by the temporary deviation.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.
