No written comments were either solicited or received.

**III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act and Rule 19b-4(f)(6) thereunder.<sup>12</sup>

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act<sup>13</sup> normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)<sup>14</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay so that the Exchange may immediately extend the ELO implementation date. The Exchange stated that it will not be able to implement ELO by the end of the third quarter of 2017. According to the Exchange, it has encountered unforeseen issues in developing ELO, and these issues will require additional thoughtful and methodical development efforts to ensure that risks are adequately addressed and the System will accurately account for the new ELO priority. The Exchange also stated that waiving the operative delay will allow it to implement the proposed implementation delay and provide notice to market participants thereof.<sup>15</sup> The Commission believes that waiving the 30-day operative delay is consistent with the protection of investors and the public interest. Therefore, the Commission hereby waives the

operative delay and designates the proposed rule change operative upon filing.<sup>16</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

## I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange is filing with the Securities and Exchange Commission ("Commission") a proposed rule change to amend the Fee Schedule on the BOX Market LLC ("BOX") options facility. While changes to the fee schedule pursuant to this proposal will be effective upon filing, the changes will become operative on October 2, 2017. The text of the proposed rule change is available from the principal office of the Exchange, at the Commission's Public Reference Room and also on the Exchange's Internet Web site at <http://boxexchange.com>.

## II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

### A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

#### 1. Purpose

The Exchange proposes to amend the Fee Schedule for trading on BOX to establish monthly and daily fee caps for certain manual transactions fees on the BOX open-outcry Trading Floor ("Trading Floor"). Manual transactions consist of Qualified Open Outcry ("QOO") Orders.<sup>5</sup> A QOO Order must be entered as a two-sided order, an initiating side and a contra-side, and the QOO Order fees, rebates and applicable fee and rebate caps will apply to both sides of the order.

Specifically, the Exchange proposes to add Section II.D "Strategy QOO Fee Cap" where manual transactions fees will be capped at \$700 for all reversal, conversion, jelly roll, and box spread strategies<sup>6</sup> executed on the same trading

day in the same option class. QOO Order fees in these combined Strategies will further be capped at \$25,000 per month per Participant. The Exchange then proposes to specify that executions subject to the Strategy QOO Order Fee Cap will not be subject to the Broker Dealer manual transaction fee cap of \$75,000 per month in Section II.A, and the QOO Order Rebate outlined in Section II.C.

#### 2. Statutory Basis

The Exchange believes that the proposal is consistent with the requirements of Section 6(b) of the Act, in general, and Section 6(b)(4) and 6(b)(5) of the Act,<sup>7</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among BOX Participants and other persons using its facilities and does not unfairly discriminate between customers, issuers, brokers or dealers.

The Exchange believes that the proposed Strategy QOO Order fee cap is reasonable and appropriate. The proposed fee cap of \$700 per day for certain strategies executed on the same trading day in the same option class; and \$25,000 per month per Participant are the same amount strategy fee caps at a competing exchanges with an open outcry trading floor.<sup>8</sup> Further, the Exchange believes that this proposed fee cap is equitable and not unfairly discriminatory because it provides incentives for all Participants to submit certain strategy orders to the BOX Trading Floor, which brings increased liquidity and order flow to the floor for the benefit of all market participants. Finally, the Exchange believes it is reasonable, equitable and not unfairly discriminatory to exempt all transactions subject to the Strategy QOO

established by combining a long position in the underlying security with a long put and a short call position that shares the same strike and expiration. A "jelly roll strategy" is created by entering into two separate positions simultaneously. One position involves buying a put and selling a call with the same strike price and expiration. The second position involves selling a put and buying a call, with the same strike price, but with a different expiration from the first position. A "box spread strategy" is a strategy that synthesizes long and short stock positions to create a profit. Specifically, a long call and short put at one strike is combined with a short call and long put at a different strike to create synthetic long and synthetic short stock positions, respectively. These definitions are identical to the terms defined in the Chicago Board Options Exchange, Inc. ("CBOE") Fee Schedule; NYSE American Options Fee Schedule ("NYSE") and Phlx Pricing Schedule ("PHLX"), Strategy Caps on Multiply Listed Options Fees.

<sup>7</sup> 15 U.S.C. 78f(b)(4) and (5).

<sup>8</sup> See CBOE Fee Schedule Footnote 13; NYSE Fee Schedule, Limit of Fees on Options Strategy Executions on page 18; and Phlx Pricing Schedule, Strategy Caps on Multiply Listed Options Fees.

Fee Cap from the Broker Dealer monthly QOO fee cap and the QOO Order Rebate as additional incentives for these orders will no longer be necessary.

### B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Further, the Exchange does not believe that capping the fees for certain Strategy QOO Orders will impose an undue burden on intra-market competition because all Floor Participants are eligible for the fee cap. Further, the Exchange believes that the fee cap will promote competition by allowing the Exchange to remain competitive with other exchanges with open outcry trading floors.

### C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

## III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Exchange Act<sup>9</sup> and Rule 19b-4(f)(2) thereunder,<sup>10</sup> because it establishes or changes a due, or fee.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend the rule change if it appears to the Commission that the action is necessary or appropriate in the public interest, for the protection of investors, or would otherwise further the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

**I. Self-Regulatory Organization’s Statement of the Terms of the Substance of the Proposed Rule Change**

The Exchange is filing with the Securities and Exchange Commission (“Commission”) a proposed rule change to amend the Fee Schedule [sic] to amend the Fee Schedule to update certain fees assessed under Section VI.A (Connectivity Fees). While changes to the fee schedule pursuant to this proposal will be effective upon filing, the changes will become operative on October 2, 2017. The text of the proposed rule change is available from the principal office of the Exchange, at the Commission’s Public Reference Room and also on the Exchange’s Internet Web site at <http://boxexchange.com>.

**II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

1. Purpose

The Exchange proposes to amend the Fee Schedule for trading on BOX to update the connectivity fees that are assessed on market participants.

Section VI.A. of the BOX Fee Schedule “Connectivity Fees”, was created to detail the fees applicable to market participants who connect to the BOX market network at Point of Presence (“PoP”) sites. These sites are owned and operated by third-party external vendors, and the fees listed in this section are meant to encompass the fees that could be charged based on each market participant’s particular configuration. BOX does not assess Connectivity Fees; these fees are assessed by the datacenters and are billed directly to the market participant. Connectivity fees can include one-time set-up fees and monthly fees charged by the third-party vendor in exchange for the services provided to the market participant.

The Exchange proposes to update the fees applicable for the datacenters where market participants may connect to the BOX network: NY4, owned and operated by Equinix; and 65 Broadway, owned and operated by 365 Main; and the connectivity fees applicable, depending upon connection type. Market participants are currently assessed the following fees when connecting to the BOX network:

Connection Type	NY4		65 Broadway	
	One-time set-up	Monthly	One-time set-up	Monthly
POTS .....	\$100	\$25	\$50	\$25
Ethernet .....	N/A	N/A	250	175
