

of the work of the Plan Development Team (PDT), (2) Discuss draft FY2018–FY2020 specifications and recreational management measures process and will make recommendations to the Groundfish Committee. They will have discussion of possible groundfish priorities for 2018, and develop recommendations to the Groundfish Committee. The panel will discuss several recent Executive Orders have been issued about streamlining current regulations, and NOAA is seeking public input on the efficiency and effectiveness of current regulations and whether they can be improved. Discuss whether there are any regulations in the Northeast Multispecies fishery management plan that could be eliminated, improved, or streamlined. They will discuss implementation of new electronic vessel trip reports (eVTRs) for for-hire vessels. Other business will be discussed as necessary.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically listed in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Act, provided the public has been notified of the Council's intent to take final action to address the emergency.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Submission for OMB Review; Comment Request

The Department of Commerce will submit to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Gulf of Alaska Catcher Vessel & Processor Trawl (CVPT) Economic Data Report (EDR).

OMB Control Number: 0648–0700.

Form Number(s): None.

Type of Request: Regular (extension of a currently approved information collection).

Number of Respondents: 120.

Average Hours per Response: 15.

Burden Hours: 1,800.

Needs and Uses: The Gulf of Alaska Trawl Groundfish Economic Data Report Program evaluates the economic effects of current and future groundfish management measures for Gulf of Alaska (GOA) trawl fisheries. This program provides the National Marine Fisheries Service (NMFS) and the North Pacific Fishery Management Council with baseline information on affected harvesters, crew, processors, and communities in the GOA. Data collected through the economic data reports (EDRs) include labor information, revenues received, capital and operational expenses, and other operational or financial data. This information is used to assess the impacts of major changes in the groundfish management regime, including catch share program implementation.

The Catcher Vessel GOA Trawl EDR is submitted by owners or leaseholders of catcher vessels that harvest groundfish using trawl gear from the GOA or parallel fisheries. The Processor GOA Trawl EDR is submitted by owners or leaseholders of shoreside processors or stationary floating processors that receive deliveries from vessels that harvest groundfish using trawl gear from the GOA or parallel fisheries. Annual submission of these EDRs is mandatory.

Affected Public: Business or other for-profit organizations.

Frequency: Annually.

Respondent's Obligation: Required to obtain or retain benefits.

This information collection request may be viewed at reginfo.gov. Follow the instructions to view Department of Commerce collections currently under review by OMB.

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to OIRA_Submission@omb.eop.gov or fax to (202) 395–5806.

Dated: October 19, 2017.

Sarah Brabson,

NOAA PRA Clearance Officer.

Fisheries of the Gulf of Mexico; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service, National Oceanic and Atmospheric Administration, Commerce.

ACTION: Notice of SEDAR 51 assessment webinar V for Gulf of Mexico gray snapper.

SUMMARY: The SEDAR 51 assessment process of Gulf of Mexico gray snapper will consist of a Data Workshop, a series of assessment webinars, and a Review Workshop.

DATES: The SEDAR 51 assessment webinar V will be held November 15, 2017, from 1 p.m. to 3 p.m. Eastern Time.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Julie A. Neer at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571–4366; email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars, and (3) A Review Workshop. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends

which datasets are appropriate for assessment analyses. The assessment webinars produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the assessment webinar V are as follows:

1. Using datasets and initial assessment analysis recommended from the Data Workshop, panelists will employ assessment models to evaluate stock status, estimate population benchmarks and management criteria, and project future conditions.
2. Participants will recommend the most appropriate methods and configurations for determining stock status and estimating population parameters.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; West Coast Groundfish Trawl Economic Data Collection

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before December 26, 2017.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616, 14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at pracomments@doc.gov).

FOR FURTHER INFORMATION CONTACT: Requests for additional information or copies of the information collection instrument and instructions should be directed to Erin Steiner, Northwest Fisheries Science Center, 2725 Montlake Blvd. E, Seattle, WA, 98103, (206) 860-3202 or erin.steinernoaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. This information collection is needed in order to meet the monitoring requirements of the Magnuson-Stevens Act (MSA). In particular, the Northwest Fisheries Science Center (NWFSC) needs economic data on all harvesters, first receivers, shorebased processors, catcher processors, and motherships participating in the West Coast groundfish trawl fishery.

The currently approved collection covers collection of data for the 2014–2016 operating years. The renewed

approval will cover years 2017–2019. Data will be collected from all catcher vessels registered to a limited entry trawl endorsed permit, catcher processors registered to catcher processor permits, and motherships registered to mothership permits, first receivers, and shorebased processors that received round or head-and-gutted IFQ groundfish or whiting from a first receiver to provide the necessary information for analyzing the effects of the West Coast Groundfish Trawl Catch Share Program.

As stated in 50 CFR 660.114, the EDC forms due on September 1, 2018 will provide data for the 2017 operating year.

II. Method of Collection

Forms may be submitted via mail or electronically.

III. Data

OMB Control Number: 0648–0618.

Form Number: None.

Type of Review: Regular submission (extension of a current information collection).

Affected Public: Business or other for-profit.

Estimated Number of Respondents: 195.

Estimated Time per Response: 8 hours for catcher processors, catcher vessels, and motherships, 20 hours for first receivers and shorebased processors.

Estimated Total Annual Burden Hours: 2,052.

Estimated Total Annual Cost to Public: \$0 in recordkeeping/reporting costs.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.
