

OMB Number: 1660–0039.

FEMA Forms: FEMA Form 078–0–2, National Fire Academy Long-Term Evaluation Form for Supervisors; FEMA Form 078–0–2A, National Fire Academy Long-Term Evaluation Form for Students/Trainees.

Abstract: The National Fire Academy Long-Term Evaluation Forms will be used to evaluate all National Fire Academy (NFA) on-campus resident training courses. Course graduates and their supervisors will be asked to evaluate the impact of the training on both individual job performance and the performance of the fire and emergency response department where the student works. The data provided by students and supervisors is used to update existing NFA course materials and to develop new courses that reflect the emerging issues and needs of the Nation's fire service.

Affected Public: State, local or Tribal Government.

Estimated Number of Respondents: 3,000.

Estimated Number of Responses: 3,000.

Estimated Total Annual Burden Hours: 405 hours.

Estimated Total Annual Respondent Cost: \$17,154.30.

Estimated Respondents' Operation and Maintenance Costs: \$0.

Estimated Respondents' Capital and Start-Up Costs: \$0.

Estimated Total Annual Cost to the Federal Government: \$44,786.65.

Comments

Comments may be submitted as indicated in the **ADDRESSES** caption above. Comments are solicited to (a) evaluate whether the proposed data collection is necessary for the proper performance of the agency, including whether the information shall have practical utility; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) enhance the quality, utility, and clarity of the information to be collected; and (d) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Dated: October 16, 2017.

Tammi Hines,

Acting Records Management Program Chief, Mission Support, Federal Emergency Management Agency, Department of Homeland Security.

BILLING CODE 9111–45–P

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. FR–6049–N–01]

Drafting a New Federal Strategy To Reduce Childhood Lead Exposures and Impacts: Request for Information

AGENCY: Office of Lead Hazard Control and Healthy Homes, HUD.

ACTION: Request for information.

SUMMARY: Through this notice, the U.S. Department of Housing and Urban Development (HUD), which co-chairs the Lead Subcommittee of the President's Task Force on Environmental Health Risks and Safety Risks to Children (Task Force) requests public comment on a new federal lead strategy being developed by the Task Force.

DATES: *Comments Due Date:* November 24, 2017.

ADDRESSES: Interested persons are invited to submit comments responsive to this request for information. Comments should refer to the proposal by name and/or Office of Management and Budget (OMB) Control Number, and should be sent, either electronically to the email address of the Task Force for commenting on this federal lead strategy, FedLeadStrategy@nih.gov, or by mail to Warren Friedman, Ph.D., CIH, Senior Advisor to the Director, Office of Lead Hazard Control and Healthy Homes, Department of Housing and Urban Development, 451 7th Street SW., Room 8236, Washington, DC 20410.

FOR FURTHER INFORMATION CONTACT: Warren Friedman, Ph.D., Office of Lead Hazard Control and Healthy Homes, Department of Housing and Urban Development, 451 7th Street SW., Room 8236, Washington, DC 20410; telephone number 202–402–7698 (this is not a toll-free number). Persons with hearing or speech impairments may access this number through TTY by calling the Federal Relay Service, 800–877–8339 (toll-free number).

SUPPLEMENTARY INFORMATION:

I. Background

President's Task Force

On April 21, 1997, the President issued Executive Order 13045,¹ establishing the President's Task Force on Environmental Health Risks and Safety Risks to Children. The Task Force works to identify children's environmental health and safety issues, develops federal interagency strategies to protect children's environmental health and safety, and communicates information to federal, state, and local decision makers to protect children from environmental health risks.² Among other things, the Task Force is developing a comprehensive strategy to further reduce lead exposure in children's environments.³ The Task Force has 11 executive agency members and 7 Executive Office of the President agency members.⁴ Ongoing activities of the Task Force are managed by its Senior Staff Steering Committee, co-chaired by the Environmental Protection Agency (EPA) and Health and Human Services (HHS). The Senior Staff Steering Committee has established five subcommittees, one of which is the Lead Subcommittee, which is co-chaired by HUD, EPA, and HHS staff.

Lead Reports by the Task Force

In February 2000, the Task Force published "Eliminating Childhood Lead Poisoning: A Federal Strategy Targeting Lead Paint Hazards."⁵ The strategy put forward a set of recommendations aimed at eliminating childhood lead poisoning in the United States as a major public health problem by the year 2010. It focused primarily on expanding efforts to correct lead paint hazards (especially in low-income housing), a major source of lead exposure for children. Addressing lead exposures in the United States, however, requires consideration of sources of lead exposure in addition to lead paint, including, among others, soil, food, drinking water, and consumer products.

In November 2016, the Task Force published "Key Federal Programs to Reduce Childhood Lead Exposures and

¹ The Executive Order was subsequently published in the *Federal Register* on April 23, 1997, at 62 FR 19885.

² The Task Force's Web site is available at: <https://ptfceph.niehs.nih.gov>.

³ The Task Force's Web site's lead exposures page is available at: <https://ptfceph.niehs.nih.gov/activities/lead-exposures/>.

⁴ The member agencies are listed on the Task Force's Web site's "About" page and is available at: <https://ptfceph.niehs.nih.gov/about/>.

⁵ The strategy is available at: <https://www.cdc.gov/nceh/lead/about/fedstrategy2000.pdf>.

Eliminate Associated Health Impacts.”⁶ This inventory report summarized the efforts of nine federal departments and agencies currently planned or underway to understand, prevent, and reduce various sources of lead exposure among children. These efforts include a wide range of activities such as research, surveillance, regulation, and enforcement, as well as community interventions and educational outreach. The report also provided a basis for increased coordination and collaboration among multiple federal agencies that, as with previous progress on the issue of lead exposures, will be required to further protect the nation’s children.

Development of a Comprehensive Federal Lead Strategy

The Task Force determined that the inventory report provides a starting point for the development of a comprehensive federal lead strategy that will inform policy makers about evidence gaps and steps needed to further reduce lead exposures in children in the United States. The Task Force charged its Lead Subcommittee with drafting the strategy, conducting outreach to stakeholder groups, and soliciting comments from stakeholders for consideration in developing the strategy. This Request for Information (RFI) is part of the comment solicitation process.

II. Key Components of the Draft Federal Lead Strategy

1. A vision of this new federal lead strategy, such as to ensure that the United States will become a place where children live, learn and play free from the harmful effects of lead exposure.

2. A mission of the strategy, such as to improve the health of children in the United States, through federal collaboration, by eliminating harm from lead exposure.

3. A background section that includes the following topics: The Task Force, its lead activities, including development of its 2000 federal lead paint strategy, 2016 inventory report, and this strategy; the problems to be addressed by this strategy; children’s lead exposure, including exposure sources, routes, and pathways; lead doses and blood-lead levels lead toxicity, and children’s health effects; and federal lead and related (e.g., environmental justice, fair housing, civil rights) statutes, regulations, policy, and guidance.

⁶ The report is available at: https://pfceh.niehs.nih.gov/features/assets/files/key_federal_programs_to_reduce_childhood_lead_exposures_and_eliminate_associated_health_impacts/presidents_508.pdf.

4. A set of goals for the strategy, such as to effect the following: Reducing sources of lead exposure in children’s environments; improving identification and monitoring of lead exposed children; improving the health of children identified as lead-exposed; communicating effectively and consistently with stakeholders about childhood lead exposure; supporting or conducting research to advance our scientific understanding of the effects, evaluation, and control of lead hazards in children’s environments.

5. Under each of the goals, a set of objectives that would further define the focus of this strategy.

6. Under each of the objectives, specific actions that would further the enumerated goals of the strategy.⁷

III. Request for Information

The purpose of this RFI is to solicit feedback on developing the new federal lead strategy report. HUD encourages participation from stakeholder groups, including the general public; non-governmental organizations, including philanthropic organizations; health care providers; the housing industry; the general aviation industry; health economics researchers; outcomes researchers; environmental firms, including certified lead professionals; and lead hazard control firms.

While HUD, as co-chair of the Lead Subcommittee, welcomes comments on all aspects of the drafting of a new federal lead strategy, HUD is particularly interested in receiving comments and data on the following:

1. Priority Risks and Goals

a. What priority risks, for example, exposures from housing, air, water, soil, food, etc., and issues should be addressed in a new federal lead strategy?

b. Should any of the suggested goals above be deleted or revised, and/or should any goals be added? Within the suggested goals above (as stated, or as you would revise them), or additional goals, what specific objectives should be identified?

⁷ A starting point for developing actions could be the list of over 58 current and planned Federal programs and activities in Section 7 of the November 2016 inventory report. The actions under the strategy would not be limited to those programs and activities in the inventory report. Similarly, not all those programs and activities need to be mentioned in the strategy because of the need to keep the strategy to manageable size and focus. But such a decision should not be used to infer that the Task Force considers that any programs or activities not mentioned are less important than those mentioned.

2. Strategy Development and Implementation

a. What actions should be implemented to address these priority risks and issues?

b. What obstacles should be considered in determining which actions to include in the strategy? What obstacles pertain to one or more goals, objectives, or actions? Please be specific about the anticipated impact of the obstacles.

c. How can the obstacles be overcome? What effect, if any, would the effort to overcome these obstacles have on the ability to achieve the goals of the strategy?

3. Messaging and Outreach

a. What federal agency messaging regarding lead exposure in children, including information on where lead is found and how to avoid exposure, have been useful in the past and to which audiences? How could such messaging be improved?

b. Which non-Federal partners should the Task Force consult with to address the environmental health risks and safety risks of lead exposure to children, and why? Please identify specific organizations, or categories of organizations.

IV. Request for Information Response Guidelines

If you submit comments by email, your response must be provided as one or more attachments, specifically, as Microsoft Word (.doc or .docx) or Microsoft Excel (.xls or .xlsx) attachment. Graphics may be provided as JPEG (.jpg or .jpeg) file attachments or as JPEG images embedded in the Microsoft Word or Excel attachments. It is recommended that emails with attachments having total file sizes exceeding 10 MB be compressed (.zip or .zipx) to ensure message delivery. If you submit comments by mail, your response should be no longer than 50 pages.

Please provide the following information at the start of your response to this RFI: Company/institution name (if applicable); contact information, including address, phone number, and email address. Do not submit Confidential Business Information (CBI) in your response to this RFI. Responses identified as containing CBI will not be reviewed and will be discarded.

Please identify your answers by responding to a specific question or topic if applicable. You may answer as many or as few questions as you wish. HUD will not respond to individual submissions or publish publicly a compendium of responses.

To help you prepare your comments, please see the How Do I Prepare Effective Comments segment of the Commenting on HUD Rules Web page, https://www.hud.gov/program_offices/general_counsel/Commenting-On-HUD-Rules#1. While written for commenting on regulatory proposals, these tips are generally applicable to this RFI.

Dated: October 18, 2017.

Matthew Ammon,

Director, Office of Lead Hazard, Control and Healthy Homes.

BILLING CODE P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[17X.LLAK941000-L14100000-ET0000; F-025943]

Public Land Order No. 7863; Partial Revocation of Public Land Order No. 3708; Alaska

AGENCY: Bureau of Land Management, Interior.

ACTION: Public Land Order.

SUMMARY: This order revokes Public Land Order No. 3708, insofar as it affects 709.17 acres of public lands near Fairbanks, Alaska, which reserved lands for use by the National Oceanic and Atmospheric Administration (NOAA). The NOAA has determined the lands are no longer needed for the purpose for which they were withdrawn.

DATES: This Public Land Order is effective on October 24, 2017.

FOR FURTHER INFORMATION CONTACT: David V. Mushovic, BLM Alaska State Office, 222 West Seventh Avenue, Mailstop #13, Anchorage, Alaska 99513-7504, 907-271-4682, or by email at dmushovi@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1-800-877-8339 to contact the above individual during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question with the above individual. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The NOAA has determined that 709.17 acres of land withdrawn by Public Land Order No. 3708 is excess to its needs and has requested a partial revocation of the withdrawal. Upon revocation, the selection applications made by the State of Alaska under the Alaska Statehood Act and the Alaska National Interest Lands Conservation Act become effective without further action by the

State, if such land is otherwise available. Lands selected by, but not conveyed to, the State are subject to the terms and conditions of Public Land Order No. 5186 (37 FR 5589, March 16, 1972), as amended, and any other withdrawal, application, or segregation of record. The partial revocation of the withdrawal will not result in a significant restriction on subsistence uses while the lands remain in Federal ownership. Any significant restriction on subsistence uses, due to subsequent conveyance of the lands to the State of Alaska, would be unavoidable under Section 810(c) of the Alaska National Interest Lands Conservation Act because the lands would be conveyed pursuant to the Alaska Statehood Act.

Order

By virtue of the authority vested in the Secretary of the Interior by Section 204 of the Federal Land Policy and Management Act of 1976, 43 U.S.C. 1714, it is ordered as follows:

1. Public Land Order No. 3708 (30 FR 8753 (1965)), as modified by Public Land Order No. 6709 (54 FR 6919 (1989)), partially revoked by Public Land Order No. 7682 (72 FR 71940 (2007)), extended by Public Land Order No. 7710 (73 FR 35708 (2008)), and partially revoked by Public Land Order No. 7763 (76 FR 23334 (2011)), which withdrew public land from all forms of appropriation under the public land laws, including the mining laws, but not from leasing under the mineral leasing laws, is hereby revoked as to the following described land:

Fairbanks Meridian, Alaska

A parcel of land situated within sections 7, 8, 17, 18, 19 and 20, Township 2 North, Range 2 East, being a portion of that parcel of land described in Public Land Order Nos. 3708 and 6709, and the plat for the Record of Survey, Parcel G, surveyed by Jake Gerondale, Registered Professional Land Surveyor No. LS-11758, for Lounsbury and Associates, filed in the Fairbanks recording district as plat No. 2017-54 on July 21, 2017, and being more particularly described as follows (all bearings are true mean bearings): (Record bearings and distances from the Bureau of Land Management plat of survey for Township 2 North, Range 2 East, Fairbanks Meridian, Alaska, officially filed on July 28, 1988, are shown in parentheses.)

BEGINNING at the southwest 1/16 section corner of section 8, marked with a 2 1/2 inch diameter iron post, with brass cap marked SW 1/16 S8 1987;

THENCE, South 0°12'28" East, on the north and south center line of the

southwest 1/4 of section 8, a distance of 1,320.74 feet (South 0°10' East, 20.01 chains) to the west 1/16 section corner of sections 8 and 17, marked with a 2 1/2 inch iron post, with brass cap marked S8 W1/16 S17 1987, said corner being identical with the northwest corner of Public Land Order No. 7763;

THENCE, South 0°12'28" East on the north and south center line of the northwest 1/4 of section 17, identical with the westerly line of Public Land Order No. 7763, a distance of 330.00 feet, identical with the southwesterly corner of Public Land Order No. 7763;

THENCE, South 42°47'04" East, on the southwesterly line of Public Land Order No. 7763, a distance of 1,950.25 feet to the north and south center line of section 17, identical with the most southerly corner of Public Land Order No. 7763;

THENCE, South 0°10'47" East (South 0°10' East), on the north and south center line of section 17, a distance of 3,517.92 feet to the 1/4 section corner of sections 17 and 20, marked with a 2 1/2 inch iron post, with brass cap marked T2N R2E S17 1/4 S20 1987;

THENCE, North 89°53'20" East (North 89°55' East), on the line between sections 17 and 20, a distance of 478.71 feet, identical with the northwest corner of Public Land Order No. 7682;

THENCE, South 3°22'04" West, on the westerly line of Public Land Order No. 7682, a distance of 2,360.42 feet, identical with the southwesterly corner of Public Land Order No. 7682;

THENCE, South 40°05'00" East, on the southerly line of Public Land Order No. 7682, a distance of 1,541.97 feet to the north and south center line of the southeast 1/4 of section 20, identical with the most southerly corner of Public Land Order No. 7682;

THENCE, South 0°08'36" East (South 0°09' East), on the north and south center line of the southeast 1/4 of section 20, a distance of 1,455.29 feet to line 1-2 of the Scheelite Load claim of Mineral Survey No. 2008, marked with a 2 1/2 inch iron post, with brass cap marked E CC S20 E S MS2008 1987;

THENCE, South 72°19'41" West on line 2-1 of said Scheelite Load claim of Mineral Survey No. 2008, a distance of 685.63 feet (South 72°22' West, 10.39 chains) to corner No. 1, Scheelite Load claim of Mineral Survey No. 2008, marked with a 3/4 inch aluminum rod, with aluminum cap marked T2N R2E C1 S MS2008 1987;

THENCE, North 55°58'55" West; a distance of 231.00 feet;

THENCE, North 0°15'04" East, a distance of 1,154.78 feet;

THENCE, South 89°36'39" West, a distance of 1,740.61 feet;
