

(ONMS) collects, evaluates and assesses student data and information for the purpose of selecting successful scholarship candidates, generating internal NOAA reports and articles to demonstrate the success of its program. The Dr. Nancy Foster Scholarship Program is available to graduate students pursuing masters and doctoral degrees in the areas of marine biology, oceanography and maritime archaeology. The ONMS requires applicants to the Dr. Nancy Foster Scholarship Program to complete an application and to supply references (e.g., from academic professors and advisors) in support of the scholarship application. Scholarship recipients are required to conduct a pre- and post-evaluation of their studies through the scholarship program to gather information about the level of knowledge, skills and behavioral changes that take place with the students before and after their program participation. The evaluation results support ONMS performance measures.

Affected Public: Individuals or households.

Frequency: Annually and on occasion.

Respondent's Obligation: Required to obtain or retain benefits.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved collection.

Under the Fishery Management Plan for United States (U.S.) West Coast Fisheries for Highly Migratory Species (HMS FMP) U.S. fishermen, participating in the Pacific Hook and Line fishery (also known as the albacore troll and pole-and-line fishery), are required to obtain a Highly Migratory Species (HMS) permit. Permit holders are required to complete and submit logbooks documenting their daily fishing activities, including catch and effort for each fishing trip. Logbook forms must be completed within 24 hours of the completion of each fishing day and submitted to the Southwest Fisheries Science Center (SWFSC) within 30 days of the end of each trip. These data and associated analyses help the SWFSC provide fisheries information to researchers and the needed management advice to the U.S. in its negotiations with foreign fishing nations exploiting HMS.

II. Method of Collection

Respondents have a choice of either electronic data submission or paper forms. Methods of submittal include secure electronic transmission, and mailing of paper forms.
