**Agency Information Collection Activities: Proposed Collection; Comment Request; National Fire Academy Long-Term Evaluation Form for Supervisors and National Fire Academy Long-Term Evaluation Form for Students/Trainees**

**AGENCY:** Federal Emergency Management Agency, DHS.

**ACTION:** Notice and request for comments.

**SUMMARY:** The Federal Emergency Management Agency, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public to take this opportunity to comment on a revision of a currently approved information collection. In accordance with the Paperwork Reduction Act of 1995, this notice seeks comments concerning the long-term evaluation forms used to evaluate all National Fire Academy resident training.

**DATES:** Comments must be submitted on or before December 26, 2017.

**ADDRESSES:** To avoid duplicate submissions to the docket, please use only one of the following means to submit comments:

(1) *Online.* Submit comments at [www.regulations.gov](http://www.regulations.gov) under Docket ID FEMA–2017–0032. Follow the instructions for submitting comments.

(2) *Mail.* Submit written comments to Docket Manager, Office of Chief Counsel, DHS/FEMA, 500 C Street SW., 8NE, Washington, DC 20472–3100.

All submissions received must include the agency name and Docket ID. Regardless of the method used for submitting comments or material, all submissions will be posted, without change, to the Federal eRulemaking Portal at <http://www.regulations.gov>, and will include any personal information you provide. Therefore, submitting this information makes it public. You may wish to read the Privacy Act notice that is available via the link in the footer of [www.regulations.gov](http://www.regulations.gov).

**FOR FURTHER INFORMATION CONTACT:**

Dawn Long, Statistician, FEMA, National Fire Academy at (301) 447–1488. You may contact the Records Management Division for copies of the proposed collection of information at email address: [FEMA-Information-Collections-Management@fema.dhs.gov](mailto:FEMA-Information-Collections-Management@fema.dhs.gov).

**SUPPLEMENTARY INFORMATION:** The National Fire Academy (NFA) is mandated under the Fire Prevention and Control Act of 1974 (Pub. L. 93–498) to provide training and education to the Nation’s fire service and emergency service personnel. The state-of-the-art programs offered by the NFA serve as models of excellence and State and local fire service agencies rely heavily on the curriculum to train their personnel. To maintain the quality of these training programs, it is critical that courses be evaluated after students have had the opportunity to apply the knowledge and skills gained from their training. Information collected from the evaluation forms enables the U.S. Fire Administration (USFA) and NFA staff to monitor and recommend changes in course materials, individual subject selection criteria, and to make curriculum-wide reviews and assessments. FEMA is seeking a revision of a currently approved information collection because we are modifying the two forms. One question was added to each form to better reflect and measure the NFA’s progress toward the USFA’s goals. Two questions were removed from the student/trainee form that are no longer relevant to NFA’s data collection.

**Collection of Information**

*Title:* National Fire Academy Long-Term Evaluation Form for Supervisors and National Fire Academy Long-Term Evaluation Form for Students/Trainees.

*Type of Information Collection:* Revision of a currently approved information collection.

OMB Number: 1660–0039.

FEMA Forms: FEMA Form 078–0–2, National Fire Academy Long-Term Evaluation Form for Supervisors; FEMA Form 078–0–2A, National Fire Academy Long-Term Evaluation Form for Students/Trainees.

**Abstract:** The National Fire Academy Long-Term Evaluation Forms will be used to evaluate all National Fire Academy (NFA) on-campus resident training courses. Course graduates and their supervisors will be asked to evaluate the impact of the training on both individual job performance and the performance of the fire and emergency response department where the student works. The data provided by students and supervisors is used to update existing NFA course materials and to develop new courses that reflect the emerging issues and needs of the Nation's fire service.

**Affected Public:** State, local or Tribal Government.

## I. Background

### President's Task Force

On April 21, 1997, the President issued Executive Order 13045,<sup>1</sup> establishing the President's Task Force on Environmental Health Risks and Safety Risks to Children. The Task Force works to identify children's environmental health and safety issues, develops federal interagency strategies to protect children's environmental health and safety, and communicates information to federal, state, and local decision makers to protect children from environmental health risks.<sup>2</sup> Among other things, the Task Force is developing a comprehensive strategy to further reduce lead exposure in children's environments.<sup>3</sup> The Task Force has 11 executive agency members and 7 Executive Office of the President agency members.<sup>4</sup> Ongoing activities of the Task Force are managed by its Senior Staff Steering Committee, co-chaired by the Environmental Protection Agency (EPA) and Health and Human Services (HHS). The Senior Staff Steering Committee has established five subcommittees, one of which is the Lead Subcommittee, which is co-chaired by HUD, EPA, and HHS staff.

### Lead Reports by the Task Force

In February 2000, the Task Force published "Eliminating Childhood Lead Poisoning: A Federal Strategy Targeting Lead Paint Hazards."<sup>5</sup> The strategy put forward a set of recommendations aimed at eliminating childhood lead poisoning in the United States as a major public health problem by the year 2010. It focused primarily on expanding efforts to correct lead paint hazards (especially in low-income housing), a major source of lead exposure for children. Addressing lead exposures in the United States, however, requires consideration of sources of lead exposure in addition to lead paint, including, among others, soil, food, drinking water, and consumer products.

In November 2016, the Task Force published "Key Federal Programs to Reduce Childhood Lead Exposures and
