DEPARTMENT OF TRANSPORTATION

Federal Railroad Administration

[Docket Number FRA-2003-15196]

Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that on September 27, 2017, New Jersey Transit (NJT) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 213, Track Safety Standards. The docket number associated with this petition is FRA-2003-15196.

NJT seeks an extension of its existing waiver from 49 CFR 213.233(c), relating to the frequency of the required visual track inspections for FRA Class 3 and 4 track carrying passenger traffic. FRA issued the initial waiver that granted NJT relief on August 25, 1999 (FRA Docket No. RST-97-5), and FRA extended the waiver on April 28, 2003, May 1, 2008, and December 17, 2012 for three 5-year periods.

NJT requests an extension of its waiver for reduced frequency of required visual track inspections specifically for those tracks constructed with continuous welded rail. NJT proposes to conduct one visual track inspection per week, instead of the two inspections per week that are required in 49 CFR part 213, and to supplement its visual inspections with the operation of an automated track geometry measuring vehicle over the affected main tracks and sidings four times per year.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at *www.regulations.gov* and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. The Docket Operations Facility is open from 9 a.m. to 5 p.m., Monday through Friday, except Federal Holidays.

Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate

scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.

All communications concerning these proceedings should identify the appropriate docket number and may be submitted by any of the following methods:

Alcohol and Tobacco Tax and Trade Bureau (TTB)

Title: Schedule of Tobacco Products, Cigarette Papers, or Tubes Withdrawn from the Market.

OMB Control Number: 1513-0034.

Type of Review: Extension without change of a currently approved collection.

Abstract: As provided by the IRC at 26 U.S.C. 5705, a manufacturer or importer is allowed credit or refund of the Federal excise tax paid on tobacco products, cigarette papers, or cigarette tubes withdrawn from the market when satisfactory proof of the withdrawal is provided to the Secretary. Under this authority, the TTB regulations prescribe the use of TTB F 5200.7 by manufacturers or importers to identify tobacco products, cigarette papers, or cigarette tubes to be withdrawn from the market and the location of those articles. The form also documents the taxpayer's planned disposition of the articles (destroyed, reduced to materials, or returned to bond), and TTB's decision to witness or not witness that disposition. Taxpayers file a completed TTB F 5200.7 to support their subsequent claim for credit or refund of the excise taxes paid on the withdrawn articles. The information collected on the form is necessary to protect the revenue; it provides TTB with certain information needed to determine whether a claim is valid.

Form: TTB F 5200.7.

Affected Public: Businesses or other for-profits.

Estimated Total Annual Burden Hours: 188.
