### Federal Railroad Administration

[Docket Number FRA-2009-0074]

#### Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that on July 28, 2017, the Canadian National Railway Company (CN), the Transportation Division of the International Association of Sheet Metal, Air, Rail, and Transportation Workers (TD-SMART) and the Brotherhood of Locomotive Engineers and Trainmen (BLET) collectively petitioned the Federal Railroad Administration (FRA) for an extension of CN's existing waiver of compliance from certain provisions of the hours of service laws contained at Title 49 United States Code (U.S.C.) section 21103(a)(4). FRA assigned the petition Docket Number FRA-2009-0074.

CN requested an extension of its existing waiver from the provisions of 49 U.S.C. 21103(a), which prohibits a train employee from remaining or going on duty after that employee has initiated an on-duty period each day for six consecutive days, unless that employee has had at least 48 consecutive hours off duty at the employee's home terminal. Specifically, CN, on behalf of its railroad operating subsidiaries based in the United States, and its unions, seeks a waiver to allow train employees to initiate an on-duty period each day for 6 consecutive days followed by 24 hours off duty. In support of the request, CN, BLET, and SMART explained that CN has operated these schedules of 6 consecutive on-duty periods followed by 24 hours off duty successfully since 2002. CN, BLET, and SMART indicate that these schedules have not had an adverse impact on safety.

CN also provided an analysis of the most current 12-month period of train-employee on-duty human factor-related accidents and injuries. CN indicates that its analyses revealed that of the 13 human factor-related accidents involving CN employees in the preceding 12 months, none involved employees covered under the waiver

working 6 consecutive days followed by 24 hours off duty.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at [www.regulations.gov](http://www.regulations.gov) and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. ### Federal Railroad Administration

[Docket Number FRA-2003-15196]

#### Petition for Waiver of Compliance

Under part 211 of Title 49 of the Code of Federal Regulations (CFR), this provides the public notice that on September 27, 2017, New Jersey Transit (NJT) petitioned the Federal Railroad Administration (FRA) for an extension of a waiver of compliance from certain provisions of the Federal railroad safety regulations contained at 49 CFR part 213, Track Safety Standards. The docket number associated with this petition is FRA-2003-15196.

NJT seeks an extension of its existing waiver from 49 CFR 213.233(c), relating to the frequency of the required visual track inspections for FRA Class 3 and 4 track carrying passenger traffic. FRA issued the initial waiver that granted NJT relief on August 25, 1999 (FRA Docket No. RST-97-5), and FRA extended the waiver on April 28, 2003, May 1, 2008, and December 17, 2012 for three 5-year periods.

NJT requests an extension of its waiver for reduced frequency of required visual track inspections specifically for those tracks constructed with continuous welded rail. NJT proposes to conduct one visual track inspection per week, instead of the two inspections per week that are required in 49 CFR part 213, and to supplement its visual inspections with the operation of an automated track geometry measuring vehicle over the affected main tracks and sidings four times per year.

A copy of the petition, as well as any written communications concerning the petition, is available for review online at *www.regulations.gov* and in person at the Department of Transportation's Docket Operations Facility, 1200 New Jersey Ave. SE., W12-140, Washington, DC 20590. Interested parties are invited to participate in these proceedings by submitting written views, data, or comments. FRA does not anticipate

scheduling a public hearing in connection with these proceedings since the facts do not appear to warrant a hearing. If any interested parties desire an opportunity for oral comment, they should notify FRA, in writing, before the end of the comment period and specify the basis for their request.
